Maximum Diversion Volume:

8.3 AF

This is to certify, that RAY SALMON
DAGMAR SALMON

PO BOX 2653

HAILEY ID 83333

has complied with the terms and conditions of the permit, issued pursuant to Application for Permit dated January 19, 1990; and has submitted Proof of Beneficial Use on May 28, 1992. An examination indicates that the works have a diversion capacity of .090 cfs of water from a GROUNDWATER source, and a water right has been established as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>	<u>ANNUAL VOLUME</u>
IRRIGATION	04/01 to 11/01	0.06 CFS	7.0 AF
STOCKWATER	01/01 to 12/31	0.01 CFS	0.1 AF
DOMESTIC	01/01 to 12/31	0.04 CFS	1.2 AF
	Totals	0.08 CFS	8.3 AF

LOCATION OF POINT(S) OF DIVERSION:

NWSE, Sec. 22, Township 03N, Range 18E
BLAINE County

PLACE OF USE: IRRIGATION

<u>TWN</u>	<u>RGE</u>	<u>SEC</u>	<u>ACRES</u>	<u>ACRES</u>	<u>ACRES</u>	<u>TOTAL</u>
03N	18E	22	NWSE	2		2

Total number of acres irrigated: 2

PLACE OF USE:

STOCKWATER, same as IRRIGATION use

PLACE OF USE:

DOMESTIC, same as IRRIGATION use

CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.

R. Keith Higginson, Director

NOV 07 1994

BEFORE THE DEPARTMENT OF WATER RESOURCES
OF THE STATE OF IDAHO

IN THE MATTER OF PERMIT NO. 37-08589)
IN THE NAME OF RAY AND DAGMAR SALMON) ORDER OF
REINSTATEMENT)

WHEREAS, the Department issued the above-captioned permit with the condition that proof of construction of works and application of water to beneficial use (proof of beneficial use) be submitted on or before May 1, 1992; and,

WHEREAS, the Department notified the permit holder by certified mail that proof was due and instructed the permit holder of the steps to be taken to submit the proof of beneficial use; and,

WHEREAS, the Department notified the permit holder that the permit had lapsed for failure to submit the proof of beneficial use; and,

WHEREAS, Section 42-218a of the Idaho Code provides that a permit may be reinstated upon a showing of reasonable cause within sixty days of the date of the notice of lapsing; and,

WHEREAS, the permit holder has provided a reasonable showing why the permit should be reinstated by submitting proof of beneficial use on May 28, 1992;

IT IS, THEREFORE, HEREBY ORDERED that Permit No. 37-08589 be REINSTATED with an advance in priority to February 15, 1990.

Dated this 1st day of June, 1992.

F. FLOW CALCULATIONS

☒ Additional Computation Sheets Attached

Measured Method:

Stockwater: 2 horses at 12 gal per day = 24 gpd
19 chickens at 100 chickens per 6

gallons $\approx$ 1 gal for 19 chickens per day

$\approx$ 25 gpd

$$25 \text{ gpd} / 120 \text{ min} = 0.21 \text{ gpm} = 4.6 \times 10^{-4}$$

based on 2 hr
diversion rate

488.8

$\approx$ rounded to
0.01 cfs

G. VOLUME CALCULATIONS

1. Volume Calculations for Irrigation:

$$V_{I.R.} = (\text{Acres Irrigated}) \times (\text{Irrigation Requirement}) = (2.0 \text{ acres}) (4.0 \text{ ata/acre}) = 8.0 \text{ ata}$$

$$V_{D.R.} = [\text{Diversion Rate (cfs)}] \times (\text{Days in Irrigation Season}) \times 1.9835 = (0.15 \text{ cfs}) (184) (1.9835) = 54.7 \text{ ata}$$

$$V = \text{Smaller of } V_{I.R.} \text{ and } V_{D.R.} = 8.0 \text{ ata}$$

2. Volume Calculations for Other Uses:

Stockwater: A diversion rate of 0.01 cfs based for
2 hrs a day corresponds to an annual
volume of 0.1 ata

H. RECOMMENDATIONS

Note: The system capacity is limited to
the total diversion rate of 0.08 cfs from
the permit.

1. Recommended Amounts

Beneficial Use	Period of Use		Rate of Diversion Q (cfs)	Annual Volume V (ata)
Domestic	01/01	12/31	0.04 cfs	1.2 ata
Stockwater	01/01	12/31	0.01 cfs	0.1 ata
Irrigation	04/15	10/15	0.06 cfs	78.0 ata (BC)
Totals:			0.08 cfs	8.3 ata (BC)

2. Recommended Amendments

Field Examiner's Name Brett Boney Date 9-15-93

Reviewer _____ Date _____

RECEIVED

* Standard rate for region. BC

NOV 07 1994

DATE: September 15, 1993

FROM: Brett Barry

TO: File 37-08589

SUBJECT: Field Exam P37-08589-Narrative/Comments

On July 16, 1993, the field exam for the above permit was conducted. Ray Salmon, the permit holder, accompanied myself during this examination. This permit was to appropriate water for irrigation, stockwater, and domestic use.

This 8 in by 216 ft well supplies water with a 3 H.P. submersible pump. The water is diverted to a 2 in surface mainline that extends to the house. 3/4 to 1 in soaker hoses run off this mainline to water pasture, trees, etc.

The irrigation component for this permit is for 2.3 acres. The irrigated ground in this parcel is very irregularly shaped. A rough estimate of the acreage was calculated by measuring the perimeter by pacing it with the permit holder. The house, nearby lawn and shrubbery, and driveway were all estimated in the domestic component and subtracted out from the acreage based on the perimeter. I estimated the irrigation component to be around two acres.

A theoretical diversion rate based on the well log was calculated to be 0.15 cfs. The lift was based on the static water level and elevation difference between the well and upper pasture.

NOV 07 1994

GROUNDWATER MEASUREMENT REQUIREMENT ANALYSIS

F: 37-08589

DATE: 9-15-93

BY: Brad Boney

THEORETICAL RATE OF FLOW: $Q = \frac{(8.8) \times (\text{H.P.}) \times (\text{EFF.})}{\text{TDH}}$

- Q = CFS
- H.P. = Total Brake Horsepower of pumping plant (including booster)
- EFF. = Pumping plant efficiency (ASSUME 70% OR 0.70)
- TDH = total dynamic head = [(LIFT) + (PSI X 2.31)]
- LIFT = depth to water in FEET from land surface to pumping water level
- PSI = pumping pressure measured in psi near pump (if open discharge assume zero [0])

$$Q = \frac{(8.8) (\dots 3 \text{ H.P.} \dots) (0.70)}{[(\dots 120' \dots) + (\dots 0.75 \dots \times 2.31)]} = \frac{0.15 \text{ cfs}}{0.09}$$

LIFT FROM:
measurement ()
owner ()
area estimate ()
well logs (☒)

PSI FROM:
measurement ()
owner () *open discharge through holes*
estimate (☒)
owner gage ()

NOTES ON PUMP:
Motor Make, Serial or ID
Franklin Electric 3 H.P.
Pump Make, Serial or ID, rating

REMARKS *Booster (Y) (N) The lift was estimated from the static water level in the well log. The sucker holes are open discharge therefore the pressure on the pump when irrigating should be around zero.*

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 37-08589

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. Enclosed is an order advancing the priority of the permit since the proof was received after the proof due date. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

If you have questions concerning this matter, please feel free to contact the SOUTHERN Regional Office in Twin Falls at (208)736-3033.

Sincerely,

Karen L. Gustafson
Secretary/Records Manager

Dear Permit Holder:

Re: Permit No. 37-08589

LAPSE NOTICE

You are hereby notified that under the provisions of Section 42-218a of the Idaho Code, the above referenced permit has lapsed. The department provided the proper forms to you in our proof due notice dated February 28, 1992. No further construction or additional development is authorized under this permit unless it is reinstated.

The permit can only be reinstated if you submit an acceptable Proof of Beneficial Use or an acceptable Request for Extension of Time showing reasonable cause for the delay. Either the completed Proof of Beneficial Use Submittal including the examination fee, or a completed field examination report; or the extension request form together with the \$15 fee, must be received by this department within sixty (60) days of the date of mailing of this lapse notice or the permit will no longer be of any force or effect.

A proof of beneficial use form and a request for extension of time form are again enclosed for your use. Please note that only one extension of time can be granted, unless the project has not been completed because of lack of a necessary approval by a governmental agency or by litigation which brings title to the water in question.

Sincerely,

L. GLEN SAXTON, Chief
Water Allocation Bureau

RE: Permit No. 37-08589

Dear Permit Holder:

Returned is your Proof of Beneficial Use Form. Before we can complete processing, additional information is required.

A drilling permit is required for all wells drilled, deepened or enlarged after July 1, 1987 (Section 42-235, Idaho Code). You have not indicated either the well or the date the well was drilled. If the well was drilled prior to July 1, 1987, simply indicate this on the form and return it to me.

If your well was drilled after July 1, 1987, please submit a copy of the drilling permit. The well log should have been submitted by the driller within 30 days of the completion of the well. If you have a copy of the well log, please submit that as well. If you do not, please contact your driller and ask that he submit a copy.

Please return the completed document to me within 30 days of the date of this mailing. At that time, I will continue to process your proof of beneficial use. Please address all correspondence directly to me.

If you have any questions or if I can be of any further assistance, please feel free to contact this office.

Sincerely,

Karen L. Gustafson

PROOF DUE NOTICE

RE: PERMIT NO. 37-08589

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before May 1, 1992.

(See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Karen L. Gustafson
Secretary/Records Manager

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 37-08589

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

You should be aware that the groundwater you propose to divert is located within a drainage basin where surface waters are regulated during the months of low flow. It is possible that diversion of groundwater may have an adverse impact on these surface water flows. Information available to us at this time does not warrant refusing to issue permits in your area, but we do caution that diversions of groundwater are not allowed to deplete flows available for surface water users with earlier priority dates. Siting your well as far from surface sources as possible and casing out upper water producing zones may reduce the potential of interference.

Section 42-235, Idaho Code, requires that a "drilling permit" must be obtained from the department for all wells constructed after July 1, 1987. A drilling permit is a separate permit that must be issued in addition to your permit to appropriate water. Commencement of well construction or diversion of water under your permit to appropriate water is prohibited unless a drilling permit is obtained.

Please note the requirement that as a permit holder you must commence the excavation or construction of diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The enclosed blue card must be completed and returned to this office as soon as you

RECEIVED
MAY 23 1990

commence construction, no later than one year from the date the permit was approved.

We have enclosed a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit into a license.

Sincerely,

GARY SPACKMAN, Supervisor
Water Right Permits Section

Re: Application for Permit No. 37-08589

Dear Applicant (s):

The Department of Water Resources acknowledges receipt of your water right application for permit. The application has been assigned the above referenced identification number. Please refer to this number in all further correspondence.

This office will be advertising the application in the Wood River Journal on 2/7 & 2/14/90. A period of ten days following the second publication will be allowed for the submittal of protests.

If the application is protested you will be sent a copy of the protest. The protest must be resolved before the application is approved or denied. If the protest is not resolved voluntarily, this Department will conduct a conference and/or hearing on the matter.

If the application is not protested, it will be forwarded to our State Office in about five weeks. State office personnel will conduct a complete review prior to final processing of the application and will notify you of the outcome of this review. When a permit is issued, you will be sent a copy. A typical processing time for an unprotested application is about eight weeks.

Please feel free to contact this office if you have any questions regarding this procedure.

Very truly yours,

Douglas Jones, E. I. T.
Water Resources Engineer

Gentlemen:

Enclosed you will find a legal notice which we wish to have published on the dates indicated (once a week for two consecutive weekly issues) in your newspaper. If you cannot publish the notice on the proposed dates, please contact us immediately.

An affidavit of publication must be submitted to the Department along with the publication bill. Your cooperation is appreciated.

Please send the affidavit of publication and publication billing to this office before FEBRUARY 26, 1990.

Yours truly,

Mary Baldwin
Secretary/Office Coordinator

Ray and/or Dagmar Salmon
P.O. Box 2653
Hailey, ID 83333

Dear Ray or Dagmar Salmon:

Following a preliminary review this office is returning your application for permit and filing fee received on October 27, 1988. The application is not in complete form for receipt because the legal description information does not agree with the map.

I have taken the liberty of preparing a new application with map attached showing the NW1/4SE1/4 Section 22, Township 3N Range 18E, and with the point of diversion and place of use descriptions pencilled in items 3 & 9 of the form.

Please examine the application carefully. Mark the location of your property on the map and make any needed changes to items 3 & 9, Sign the application and return it to this office with the filing fee of \$30.00 for processing.

If you have questions or if we can be of further assistance, please contact us.

Very Truly yours,

Loren O. Holmes
