WATER RIGHT LICENSE

WATER RIGHT NO. 37-08545

Priority: August 14, 1989

Maximum Storage Volume:

1.0 AF

This is to certify, that SPRING COVE RANCH INC
C/O DANIEL BUTLER
STAR RT

BLISS ID 83314 has complied with the terms and conditions
of the permit, issued pursuant to Application for Permit dated August 14, 1989; and
has submitted Proof of Beneficial Use on November 1, 1990. An examination indicates
that the works have a storage capacity of .000 af of water from:

SPRINGS

tributary to SINKS

source, and a water right has been established as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>	<u>ANNUAL VOLUME</u>
RECREATION STORAGE	01/01 to 12/31		1.0 AF

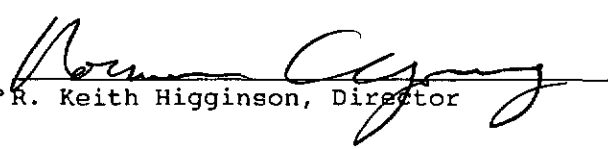

LOCATION OF POINT(S) OF DIVERSION: NWSENE , Sec. 28, Township 05S, Range 12E
GOODING County

PLACE OF USE: RECREATION STORAGE
TWN RGE SEC
05S 12E 28 SENE

CONDITIONS/REMARKS:

1. This water right is appurtenant to the described place of use.
2. This right is subject to all prior water rights and may be forfeited by five years of non-use.
3. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
4. Use of water under this right shall be non-consumptive.

This license is issued pursuant to the provisions of Section 42-219, Idaho Code.
Witness the seal and signature of the Director, affixed at Boise, this 18th
day of July, 1994.

ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that I have examined Application for Permit to appropriate the public waters of the State of Idaho No. _____, and said application is hereby _____.

1. Approval of said application is subject to the following limitations and conditions:

a. SUBJECT TO ALL PRIOR WATER RIGHTS.

b. Proof of construction of works and application of water to beneficial use shall be submitted on or before _____, 19 ____.

c. The rate of diversion, if water is to be used for irrigation under this permit, when combined with all other water rights for the same land shall not exceed 0.02 cubic feet per second for each acre of land.

d. The water right acquired under this permit if for hydropower purposes shall be junior and subordinate to all rights to the use of water, other than hydropower, within the State of Idaho that are initiated later in time than the priority of this permit and shall not give rise to any right or claim against any future rights to the use of water, other than hydropower, within the State of Idaho initiated later in time than the priority of this permit.

System Description (continued)

3. **Narrative:** Description (As operating at time of measurement. Indicate pressure, number of sprinklers, etc.)

Earth dam on natural channel collects water seeping from 2 springs. An earth berm pushes the south spring a little further north to meet the north spring. All water then flows downhill thru a concrete culvert into the pond. A standpipe above the dam allows water to exit the pond. Maximum dimensions of full pool - 104' wide x 155' long x 3' deep. Buried pipeline from pond takes overflow under a silage pit and feedlot that have been built over the natural channel. Discharge on the west side of Spring Cove Road into what is more or less the natural channel.

$V_{I.R.} = (\text{Acres Irrigated}) \times (\text{Irrigation Requirement}) =$ _____

$V_{D.R.} = [\text{Diversion Rate (cfs)}] \times (\text{Days in Irrigation Season}) \times 1.9835 =$ _____

$V = \text{Smaller of } V_{I.R.} \text{ and } V_{D.R.} =$ _____

2. Volume Calculations for Other Uses:

RECEIVED
JUL 25 1994

H. REMARKS AND OVERLAP REVIEW ANALYSIS

There are apparently a few trout in this pond. The pond is ringed with aquatic grass. There is a sileage pit just west of the dam, and a feedlot west of the pit. This is a poor excuse for a recreation/aesthetic development. It probably stores a little stockwater for use in the natural channel below the pond. Its main purpose appears to be to control water flow thru the property. Owner says pond is kept full most of the time (was drawn down today). Overflow is used for irrigation by Mr. Butler. Separate collection system in the area of the south spring provides water for 5 homes & small dairy (this water does not flow into pond, but would if not diverted up above). Wastewater from NSCC also enters the pond at times. Recommend use be licensed as recreation storage only - this is adequate to describe this pond. The old irrigation ditches that head above the pond are no longer used - water is diverted well below the pond now.

1. Recommended Amounts

Beneficial Use	Period of Use		Rate of Diversion	Annual Volume
	From	To	Q (cfs)	V (afa)
Recreation Storage	1-1	12-31		1.0
Totals:				1.0

2. Recommended Amendments

- ☐ Change P.D. as reflected above
 ☐ Add P.D. as reflected above

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 37-08545

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

If you have questions concerning this matter, please feel free to contact the SOUTHERN Regional Office in Twin Falls at (208)734-3578.

Sincerely,

Rita Fleck
Secretary/Records Manager

PROOF DUE NOTICE

RE: PERMIT NO. 37-08545

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before December 1, 1990. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Rita Fleck
Secretary/Records Manager

PERMIT APPROVAL NOTICE

RE: PERMIT NO. P37-08545

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

We have enclosed a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit. Also enclosed for your convenience is a form entitled "Proof of Beneficial Use" that must be submitted to the Department when your project is completed. If development is complete, you may submit proof of beneficial use immediately.

Sincerely,

GARY SPACKMAN, Supervisor

Re: Application for Permit No. 37-08545

Dear Applicant (s):

The Department of Water Resources acknowledges receipt of your water right application for permit. The application has been assigned the above referenced identification number. Please refer to this number in all further correspondence.

This office will be advertising the application in the Gooding County Leader on 9/6 & 9/13/89. A period of ten days following the second publication will be allowed for the submittal of protests.

If the application is protested you will be sent a copy of the protest. The protest must be resolved before the application is approved or denied. If the protest is not resolved voluntarily, this Department will conduct a conference and/or hearing on the matter.

If the application is not protested, it will be forwarded to our State Office in about five weeks. State office personnel will conduct a complete review prior to final processing of the application and will notify you of the outcome of this review. When a permit is issued, you will be sent a copy. A typical processing time for an unprotested application is about eight weeks.

Please feel free to contact this office if you have any questions regarding this procedure.

Very truly yours,

James E. Stanton
Sr. Water Resource Agent

RECEIVED

DATE

8/15/89

TO Spring Cove Ranch

DEC 15 1989

SUBJECT Field Check.

On this day I visited the site of the proposed development. The visit substantiated the assertion that the Springs issue on their property and sink before reaching Clover Creek. Springs are located in the NE SE NE Sec 28 T55 R12E but the structure will be located in NW SE NE Sec 28. Flow is difficult to measure or estimate due to applicant's domestic diversions upstream, braiding, and temporary bypass diversions. Foundation preparation underway. Set of dams application to construct small dam has been filed and review is pending.
