NOTICE OF AMENDED APPLICATION FOR WATER PERMIT

Notice is hereby given that the following application for permit to appropriate the public waters of the State of Idaho has been amended as follows:

37-08516

J. RANDOLPH UPDYKE
1401 Walnut
Philadelphia, PA 19102

Date Amended: 1/4/90

Source: Groundwater

Diversion Pt: NE1/4SE1/4NW1/4, S14, T5N, R17E; Blaine County.

Use: Domestic (.04 cfs)

Irrigation (.06 cfs)

In: Three acres within SE1/4-NW1/4, S14, T5N, R17E.

The permit (s) will be subject to all prior water rights. Protests must be filed with the Director, Dept. of Water Resources, Southern Region, 2148 Fourth Avenue East, Twin Falls, ID 83301, on or before February 5, 1990.

R. Keith Higginson, Director
Publish: Wood River Journal-

WATER RIGHT LICENSE
WATER RIGHT NO. 37-08516

Priority: May 8, 1989

Maximum Diversion Rate: 0.05 CFS

Maximum Diversion Volume: 3.0 AF

This is to certify, that J RANDOLPH UPDYKE
C/O GARY SLETTE
PO BOX 1906
TWIN FALLS ID 83301

has complied with the terms and conditions of the permit, issued pursuant to Application for Permit dated May 8, 1989; and has submitted Proof of Beneficial Use on May 2, 1991. An examination indicates that the works have a diversion capacity of .080 cfs of water from a **GROUNDWATER** source, and a water right has been established as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>	<u>ANNUAL VOLUME</u>
IRRIGATION	04/15 to 10/15	0.01 CFS	1.8 AF
DOMESTIC	01/01 to 12/31	0.04 CFS	1.2 AF
	Totals	0.05 CFS	3.0 AF

LOCATION OF POINT(S) OF DIVERSION:

SENE , Sec. 14, Township 05N, Range 17E
BLAINE County

PLACE OF USE: IRRIGATION

<u>TWN</u>	<u>RGE</u>	<u>SEC</u>	<u>ACRES</u>	<u>ACRES</u>	<u>ACRES</u>	<u>TOTAL</u>
05N	17E	14	SENEW	0.5		0.5

Total number of acres irrigated: 0.5

PLACE OF USE:

DOMESTIC, same as IRRIGATION use

CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount that can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. Irrigation use under this right is authorized only in connection with a domestic use.
6. This right when combined with all other rights shall provide no more than .02 cfs per acre nor more than 3.5 afa per acre for the lands above.

RE: License Nos. 37-08515/08516/08517/08518

Gary D. Slette
Rosholt, Robertson & Tucker
PO Box 1906
Twin Falls, ID 83303-1906

Dear Gary:

In April of 1994, you sent correspondence to the department concerning the number of acres licensed under the above referenced rights. You provided tax notices and a copy of the Blaine County Assessor's map of Mr. Updyke's property. After reviewing the documents you provided and the water right license files, I offer the following.

filed in
37-08515

Right 37-08515 covers Tax Lot #3664
Right 37-08516 covers Tax Lot #4263
Right 37-08517 covers Tax Lot #4011
Right 37-08518 covers Tax Lot #4016

These rights were licensed for a total of 3.5 acres. You stated in your correspondence that Mr. Updyke irrigates a total of approximately 12 acres. There are two remaining lots not included under these rights, Tax Lots 4022 and 4044. Mr. Updyke filed an application for permit to cover eight (8) acres within these two lots, Application for Permit No. 37-08327. This application was caught in the Big Wood River-Silver Creek Ground Water Management Area. On August 30, 1991, the department notified Mr. Updyke of the management area and requested information to show that the proposed use would not reduce flows in the river &/or Silver Creek. If found to impact the surface flows, a plan of mitigation and/or compensation was requested. The opportunity to withdraw the application was also given in this letter, and on September 20, 1991 the application was withdrawn (copy enclosed).

Between the eight acres in Tax Lots 4022 and 4044 and the 3.5 acres licensed under the valid rights, Mr. Updyke's irrigable

Gary D. Slette
April 7, 1995
Page 2

land is accounted for. However as shown above, the eight acres on the two larger lots are not covered by water rights for use of groundwater.

If you have further concerns or questions regarding this matter, we can discuss them. My phone number is 327-7947.

Sincerely,

JIM JOHNSON, Manager
Water Right Permits Section

I. AUTHENTICATION

Field Examiner's Name Bred Barry Date 9-22-93

Reviewer _____ Date _____

DATE: July 24, 1993

FROM: Brett Barry

TO: FILES 37-8515, 37-8516, 37-8517, 37-8518

SUBJECT: Interpretation of the above water permits

On June 23, 1993, the field examinations for the above water permits were conducted. J. Randolph Updyke from Philadelphia, Pennsylvania is the permit holder for the permits. Kevin O'Brien of Evergreen Landscaping of Sun Valley accompanied myself during these field examinations. Kevin was responsible for the construction and design of the irrigation and lawn systems for Mr. Updyke. Presently, Kevin takes care of the maintenance and upkeep for these systems because Mr. Updyke is rarely in town.

The above permits are very closely associated to each other in use and proximity. The applications for the permits were very ambiguous to the precise point of diversion and place of use.

On July 14, 1993, Gary Slette, Mr. Updyke's lawyer, and I met to discuss the precise locations of the permits. Gary Slette supplied me with information from their file regarding the permits. This information is attached to the files.

The following is a graphical sketch of my interpretation of the point of diversion and place of use for each respective water permit.

Section 14 / TOSN / R17E

Both Lots are irrigated from well adjacent to permit 37-8516's well

Note: Wells for permit 37-8518 & permit 37-8515 are connected

All measurements of acreage are approximate

DATE: September 22, 1993

FROM: Brett Barry

TO: File 37-8516

SUBJECT: Field Exam 37-8516 Narrative/Comments

A 1 H.P. submersible pump supplies water for irrigation use of 0.3 acres and domestic use for one home. A tap system next to the well controls an automatic sprinkler system for the pasture. A 1 in line runs down both sides of the pasture. Four RB 25 PJ sprinkler heads are on each line. These heads have 5/32 in nozzles.

The pressure at the double check at the tap was measured at 42 psi with a psi gauge and pitot tube. Therefore, the average pressure at the sprinkler heads is estimated to be 40 psi. A diversion rate of 0.08 cfs was calculated from the sprinkler measurements.

The domestic use includes internal use and external use for shrubbery and lawn. The irrigation acreage was estimated by pacing the pasture.

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 37-08516

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

If you have questions concerning this matter, please feel free to contact the SOUTHERN Regional Office in Twin Falls at (208)734-3578.

Sincerely,

Rita Fleck
Secretary/Records Manager

PROOF DUE NOTICE

RE: PERMIT NO. 37-08516

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before May 1, 1991. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Rita Fleck
Secretary/Records Manager

RE: PERMIT NO. 37-08516

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

You should be aware that the groundwater you propose to divert is located within a drainage basin where surface waters are regulated during the months of low flow. It is possible that diversion of groundwater may have an adverse impact on these surface water flows. Information available to us at this time does not warrant refusing to issue permits in your area, but we do caution that diversions of groundwater are not allowed to deplete flows available for surface water users with earlier priority dates. Siting your well as far from surface sources as possible and casing out upper water producing zones may reduce the potential of interference.

Section 42-235, Idaho Code, requires that a "drilling permit" must be obtained from the department for all wells constructed after July 1, 1987. A drilling permit is a separate permit that must be issued in addition to your permit to appropriate water. Commencement of well construction or diversion of water under your permit to appropriate water is prohibited unless a drilling permit is obtained.

We have enclosed a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit. Also enclosed for your convenience is a form entitled "Proof of Beneficial Use".

MAY 23 1990

Beneficial Use" that must be submitted to the Department when your project is completed. If development is complete, you may submit proof of beneficial use immediately.

Sincerely,

GARY SPACKMAN, Supervisor

Re: Amended Applications for Permit Nos. 37-08515, 37-08516,
37-08517, 37-08518

Dear Mr. Hitchcock:

The Department of Water Resources acknowledges receipt of amended applications for permit on behalf of your client, J. Randolph Updyke, as referenced above.

This office will be advertising the applications in the Wood River Journal on 1/17 & 1/24/90. A period of ten days following the second publication will be allowed for the submittal of protests.

If the applications are protested you will be sent a copy of the protests. The protests must be resolved before the applications are approved or denied. If the protests are not resolved voluntarily, this Department will conduct a conference and/or hearing on the matter.

If the applications are not protested, they will be forwarded to our State Office in about five weeks. State office personnel will conduct a complete review prior to final processing of the applications and will notify you of the outcome of this review.

Please feel free to contact this office if you have any questions regarding this procedure.

Very truly yours,

Gary Funderburg
Sr. Water Resource Agent

TO: LOREN, SOUTHERN REGION

FROM: KAY WALKER

RE: UPDYKE APPLICATIONS

DATE: 14-AUG-1989

=====

Loren: While reviewing applications I noticed that Mr. Updyke has filed these four applications (37-8515/8516/8517/8518) for the irrigation of 12 acres and what appears to me to be only one home. Prior to further action we need to know exactly how many homes will be on these 12 acres. We should not process the ones that do not include homes if he only intends stock and irrigation use, until his time in priority. It looks to me like he was trying to get water rights for his 12 acres by submitting four separate applications which is not acceptable for the Swan Falls area. We can process one of them for 3 acres and one home but should not let the others slip through.

I am also confused with the maps attached to the applications. The legal description on App. 37-8515 describes the NESW but the attached map clearly shows the point of diversion in SENW. This is also true with Application 37-8516. The description on App. 37-8517 is okay. On App. 37-8518 the legals and map are not consistent, again describing the NESW but map showing the SENW.

Could you also request that the staff analysis sheets in the new application files be placed on the top of the right side of the file instead of the bottom. It sure would make our jobs easier over here. We have to re-arrange the files every time we receive them. Maybe you could explain to Mary that the files are to be in chronological order with oldest correspondence on the bottom of the right side??? THANKS?

Mr. Loren Holmes, Supervisor
Idaho Department of Water Resources
Twin Falls Office -- Southern Region
2148 Fourth Avenue E.
Twin Falls ID 83301

Dear Loren:

Please find enclosed Applications for Permit for
usages in Blaine County by our client, J. Randolph Updyke. As
these are applications for usages of less than three acres, I
look forward to their being processed at once.

Please advise if you have questions.

Very truly yours,

Francis G. Hitchcock
