WATER RIGHT LICENSE

WATER RIGHT NO. 37-08486

Priority: July 23, 1989

Maximum Diversion Rate:

0.04 CFS

Maximum Diversion Volume:

1.2 AF

This is to certify, that LYNN H CAMPION
THOMAS B CAMPION

C/O JAMES P SPECK ESQ
PO BOX 987
KETCHUM ID 83340

has complied with the terms and conditions of the permit, issued pursuant to Application for Permit dated January 23, 1989; and has submitted Proof of Beneficial Use on September 7, 1989. An examination indicates that the works have a diversion capacity of .060 cfs of water from a GROUNDWATER source, and a water right has been established as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>	<u>ANNUAL VOLUME</u>
DOMESTIC	01/01 to 12/31	0.04 CFS	1.2 AF

LOCATION OF POINT(S) OF DIVERSION:

NESW , Sec. 29, Township 03N, Range 18E
BLAINE County

PLACE OF USE: DOMESTIC

TWN RGE SEC

03N 18E 29

NESW

CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. Domestic use is for 1 home.

This license is issued pursuant to the provisions of Section 42-219, Idaho Code. Witness the seal and signature of the Director, affixed at Boise, this 19TH day of OCTOBER, 1994.

Re: Tom & Lynn Campion - Water Rights Nos. 37-08485 and 37-08486

Dear Shelley:

This will confirm our telephone conversation of October 26, 1994. I received from you the License for 37-08486 issued only for domestic use. The Permit included the irrigation of three (3) acres. You explained the field examination performed by Brett Berry of IDWR found that the well for this right (which is the well for the main house) was NOT being used for irrigation. The License for 37-08485 has not yet been issued. You will send me copies of the field examinations for both of these permits. I understand they were both completed at the same time in the summer of 1993. I will then review the field examinations with my clients and determine if any corrections need to be made.

Thank you.

Sincerely yours,

HOGUE, SPECK & AANESTAD

SEAL

NOV 07 1994

DATE: September 23, 1993

FROM: Brett Barry

TO: File 37-08486

SUBJECT: Field Exam P37-08486 Narrative/Comments

On July 23, 1993, the field exam for the above permit was conducted. Gary Carlson, caretaker for the permit holder, accompanied myself during this examination. This permit was to appropriate groundwater for domestic and irrigation use.

The Campions' have approximately 43 acre parcel which contains two wells and two houses. Of these 43 acres, approximately 15 acres are irrigated. They also have another permit to appropriate groundwater(P37-08486) for separate domestic and irrigation use.

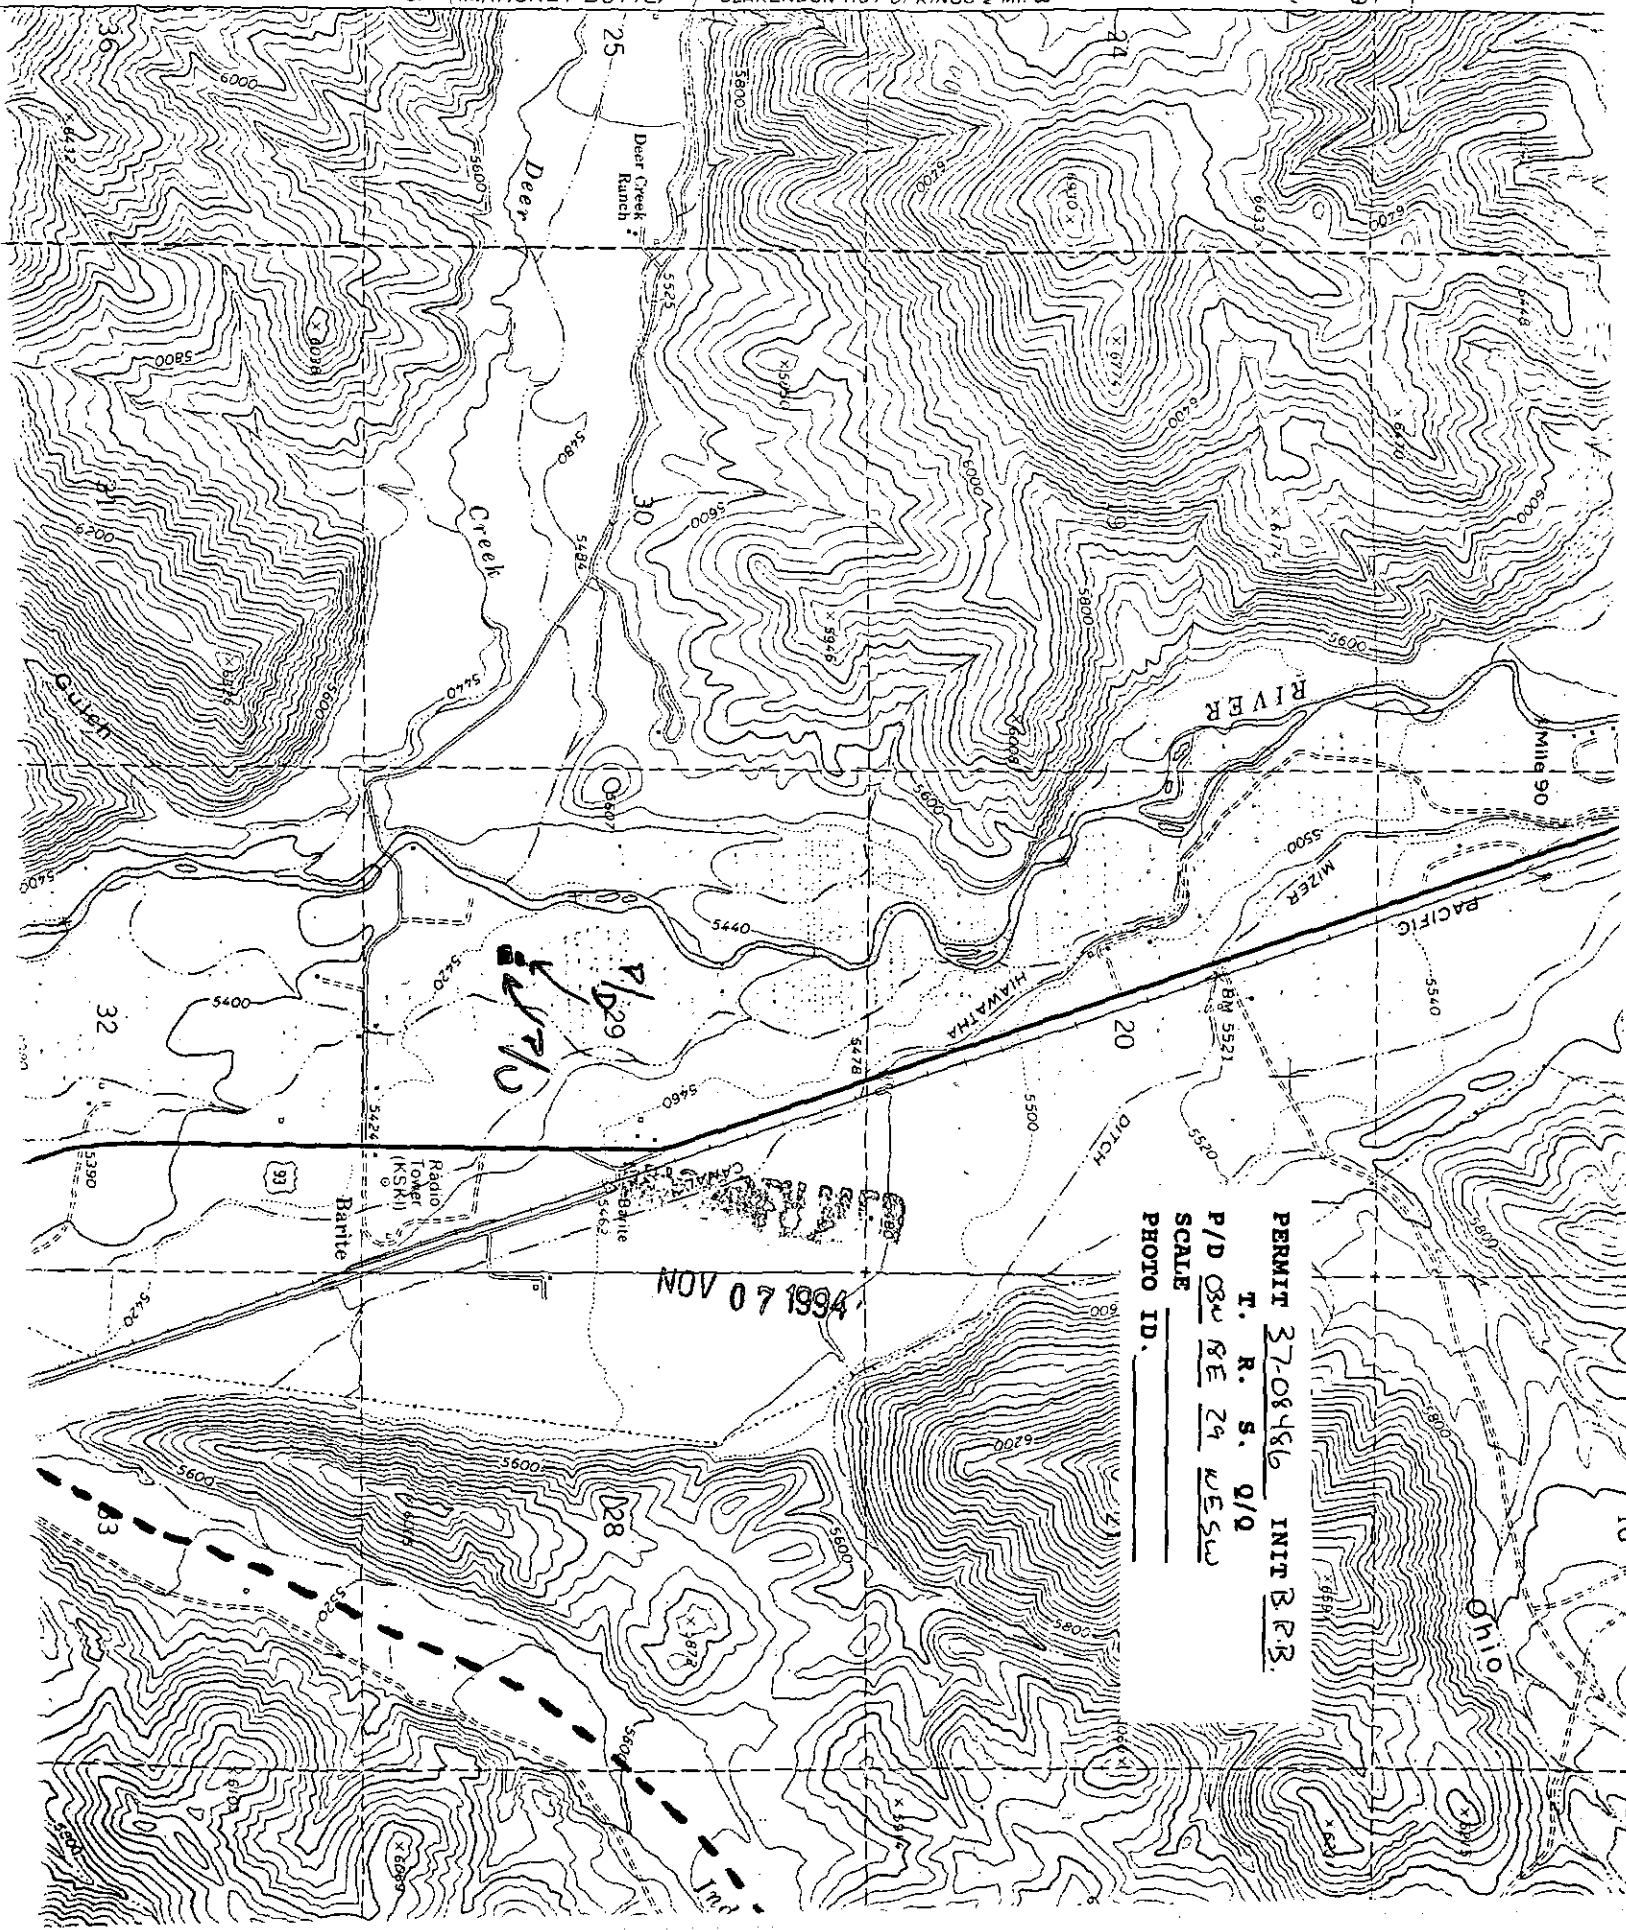

A 8 in well contained a 1 H.P. submersible pump that supplied water for domestic use only. The irrigation component was developed but was irrigated from the another well in the SESW(P37-08486). These two wells are not connected. Therefore, I cannot recommend the irrigation component for this permit.

The Campions' also water a 3 acre pasture from a lateral of the Big Wood River canal system. This pasture does not overlap any of the groundwater permits in place of use.

RE: PERMIT NO. P37-08486

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

You should be aware that the groundwater you propose to divert is located within a drainage basin where surface waters are regulated during the months of low flow. It is possible that diversion of groundwater may have an adverse impact on these surface water flows. Information available to us at this time does not warrant refusing to issue permits in your area, but we do caution that diversions of groundwater are not allowed to deplete flows available for surface water users with earlier priority dates. Siting your well as far from surface sources as possible and casing out upper water producing zones may reduce the potential of interference.

Section 42-235, Idaho Code, requires that a "drilling permit" must be obtained from the department for all wells constructed after July 1, 1987. A drilling permit is a separate permit that must be issued in addition to your permit to appropriate water. Commencement of well construction or diversion of water under your permit to appropriate water is prohibited unless a drilling permit is obtained.

We have enclosed a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit. Also enclosed for your convenience is a form entitled "Proof of

MICROFILMED

AUG 24 1989

Beneficial Use" that must be submitted to the Department when your project is completed. If development is complete, you may submit proof of beneficial use immediately.

Sincerely,

GARY SPACKMAN, Supervisor

Re: Application for Permit No. 37-08485 & 37-08486

Dear Mr. Speck:

The Department of Water Resources acknowledges receipt of the water right applications for permit on behalf of Thomas Campion. The applications have been assigned the above referenced identification numbers. Please refer to these numbers in all further correspondence.

This office will be advertising the applications in the Wood River Journal on 4/19 & 4/26/89. A period of ten days following the second publication will be allowed for the submittal of protests.

If the applications are protested you will be sent a copy of the protest. The protest must be resolved before the application is approved or denied. If the protest is not resolved voluntarily, this Department will conduct a conference and/or hearing on the matter.

If the application is not protested, it will be forwarded to our State Office in about five weeks. State office personnel will conduct a complete review prior to final processing of the application and will notify you of the outcome of this review. When a permit is issued, you will be sent a copy. A typical processing time for an unprotested application is about eight weeks.

Please feel free to contact this office if you have any questions regarding this procedure.

Very truly yours,

Gary Funderburg
Sr. Water Resource Agent

Re: Thomas B. and/or Lynn H. Champion
Application for Permit

Dear Loren:

On January 20, 1989, I forwarded to you two Applications for Permit for Mr. and Mrs. Thomas B. Champion. I have just discovered in my file the original of one of those applications! Apparently, only a copy was forwarded with the earlier letter and filing fee. Enclosed is that original, signed Application for Permit. Will you please substitute the original for the copy I previously sent to you. I apologize for any confusion this may have generated.

Please call me if you have any questions. Thank you.

Sincerely yours,

HOGUE, SPECK & AANESTAD

RE: Thomas B. and/or Lynne H. Campion
Applications for Permits

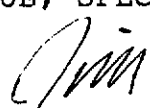

Dear Loren:

Enclosed you will find two Applications for Permits and our check payable to the Department of Water Resources in the sum of \$60.00 as the combined filing fee. These Applications seek to add the right to irrigate 3 acres to existing domestic wells. Claims for the domestic wells have been filed in the Snake River Basin Adjudication. Please keep me advised as to the status of these Applications.

Thank you.
