CONDITIONS OF APPROVAL AND REMARKS

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. This right when combined with all other rights shall provide no more than .03 cfs per acre nor more than 3.5 afa per acre for the lands above.

ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that I have examined Application for Permit to appropriate the public waters of the State of Idaho No. 37-8432, and said application is hereby APPROVED.

1. Approval of said application is subject to the following limitations and conditions:

a. SUBJECT TO ALL PRIOR WATER RIGHTS.

b. Proof of construction of works and application of water to beneficial use shall be submitted on or before June 1, 19 90.

c. The rate of diversion, if water is to be used for irrigation under this permit, when combined with all other water rights for the same land shall not exceed 0.02 cubic feet per second for each acre of land.

d. The water right acquired under this permit if for hydropower purposes shall be junior and subordinate to all rights to the use of water, other than hydropower, within the State of Idaho that are initiated later in time than the priority of this permit and shall not give rise to any right or claim against any future rights to the use of water, other than hydropower, within the State of Idaho initiated later in time than the priority of this permit.

e. Other: Permit holder shall comply with the drilling permit requirements of Section 42-235, Idaho Code.
Irrigation use under this permit is authorized only in connection with a domestic use.

E. NARRATIVE/REMARKS/COMMENTS

THIS SYSTEM CONSISTS OF AN 8" WELL DRILLED 15 FT AND REPLACES AN ABANDONED WELL DRILLED IN 1975 AND WAS TOO CLOSE TO SEPTIC SYSTEM. DYNAMIC Pumping Level is AT 21 FT. H₂O is diverted to a 60 gal Pressure TANK via a 3/4 hp submersible Pump. H₂O is then diverted to the house hold and then to the irrigation SYSTEM regulated BY A Timed sprinkler SYSTEM - AURA-FLOW BOX BY STA-RITE.

THE DOMESTIC COMPONENT of This Right would Be for .04 CFS (HOUSE + 1/2 acre of LAWN.) Leaving 1.26 Acres ^{remaining} (measured) for THE IRRIGATION component

The original WR shows 3 Acres irrigated between 2 Lots (1+2) However Lot 2 was sold off Leaving Lot 1 = 2 acres.

RE: Recommendation Adjustment(s)

=====

The final licensing recommendations for Right 37-08432 are based on the information below:

G. VOLUME CALCULATIONS

The domestic and irrigation volume recommendations have been adjusted. Per current guidelines, the $\frac{1}{2}$ acre of domestic lawn and trees has been added to the 1.26 (1.3) irrigated acres. The domestic volume is the standard, internal use recommendation.

Dear Mr. and Mrs. Thornton:

Re: Permit No. 37-8432

The department received the proof of beneficial use form fee and a request for extension of time form and \$15 fee on July 23, 1990. Based on information in the file, the department will accept the proof of beneficial use form and return the request for extension of time form and fee. The refund should reach you in several weeks.

Enclosed is an order which reinstates the permit and advances the priority since the form and fee were received after the proof due date.

The next step is for the department to conduct the field inspection to confirm and determine the extent of beneficial use. I cannot tell just when the representative from our Southern Regional office will conduct the exam, but he will try to contact you or your representative prior to being in the area.

If you have questions, please contact me.

Dear Mr. Crist:

RE: Permit No. 37-8432 - JACK W. AND MARY ANA THORNTON

On July 23, 1990, the Department received a proof of beneficial use form and a request for extension of time form along with appropriate fees. In addition, you also mailed a Notice of Claim to a Water Right and requested the \$25 fee be returned.

I have sent the Notice of Claim to a Water Right form and a copy of your letter and this letter to the Adjudication Bureau for their review and action. Any questions regarding the claim and \$25 refund should be addressed to that bureau.

As for the permit, either the proof of beneficial use form or the request for extension of time, but not both. (Note the enclosed copies). If the project is complete, that is a domestic use and/or an irrigation use of up to three acres has been established, then the proof of beneficial use form should be submitted. Upon receipt of it, the department will place it in its inventory of pending field inspections, complete a field inspection and issue a license.

If the beneficial use has not been completed for the domestic and/or irrigation use, then a request for extension of time is the appropriate form to submit. If granted, the permit holder would have not less a year to establish the beneficial use of water.

Please advise which action you wish the department to take.

If you have questions, please feel free to contact me.

Sincerely,

RITA I. FLECK

LAPSE NOTICE

RE: PERMIT NO. 37-08432

Dear Permit Holder:

You are hereby notified that under the provisions of Section 42-218A, Idaho Code, the above referenced permit has lapsed and is of no further force nor effect. The department provided the proper forms to you in our proof due notice dated March 31, 1990. No further construction or additional development is authorized under this permit unless it is reinstated.

The permit can only be reinstated if you submit an acceptable proof of beneficial use or an acceptable request for extension of time to the department within sixty (60) days of the mailing of this lapse notice. An acceptable proof of beneficial use submittal must include the examination fee or a completed field examination report. A request for extension of time must be accompanied by a fifteen dollar (\$15) fee.

Enclosed again for your use are a proof of beneficial use form and a request for extension of time form. Please note that only one extension of time can be granted unless the project has not been completed because of lack of a necessary approval by a government agency or by litigation which may bring title to the water in question.

PROOF DUE NOTICE

RE: PERMIT NO. 37-08432

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before June 1, 1990. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

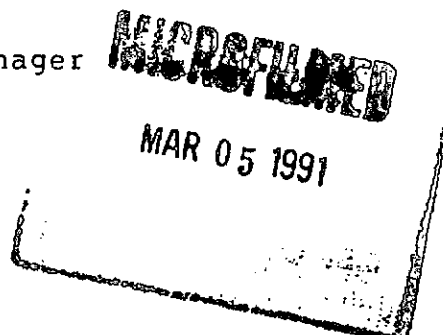

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Rita Fleck

RE: PERMIT NO. 37-08432

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

You should be aware that the groundwater you propose to divert is located within a drainage basin where surface waters are regulated during the months of low flow. It is possible that diversion of groundwater may have an adverse impact on these surface water flows. Information available to us at this time does not warrant refusing to issue permits in your area, but we do caution that diversions of groundwater are not allowed to deplete flows available for surface water users with earlier priority dates. Siting your well as far from surface sources as possible and casing out upper water producing zones may reduce the potential of interference.

Section 42-235, Idaho Code, requires that a "drilling permit" must be obtained from the department for all wells constructed after July 1, 1987. A drilling permit is a separate permit that must be issued in addition to your permit to appropriate water. Commencement of well construction or diversion of water under your permit to appropriate water is prohibited unless a drilling permit is obtained.

We have enclosed a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit. Also

Re: Application for Permit No. 37-08432

Dear Applicant (s):

The Department of Water Resources acknowledges receipt of your water right application for permit. The application has been assigned the above referenced identification number. Please refer to this number in all further correspondence.

This office will be advertising the application in the Wood River Journal on 2/1 & 2/8/89. A period of ten days following the second publication will be allowed for the submittal of protests.

If the application is protested you will be sent a copy of the protest. The protest must be resolved before the application is approved or denied. If the protest is not resolved voluntarily, this Department will conduct a conference and/or hearing on the matter.

If the application is not protested, it will be forwarded to our State Office in about five weeks. State office personnel will conduct a complete review prior to final processing of the application and will notify you of the outcome of this review. When a permit is issued, you will be sent a copy. A typical processing time for an unprotested application is about eight weeks.

Please feel free to contact this office if you have any questions regarding this procedure.

Very truly yours,

James E. Stanton
Sr. Water Resource Agent
