WATER RIGHT LICENSE
WATER RIGHT NO. 37-08422

Priority: October 17, 1988

Maximum Diversion Rate: 0.03 CFS

Maximum Diversion Volume: 2.8 AF

This is to certify, that DEBBY MC NAMARA

PO BOX 1250

SUN VALLEY ID 83353

has complied with the terms and conditions of the permit, issued pursuant to Application for Permit dated October 17, 1988; and has submitted Proof of Beneficial Use on May 30, 1990. An examination indicates that the works have a diversion capacity of .040 cfs of water from a GROUNDWATER source, and a water right has been established as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>	<u>ANNUAL VOLUME</u>
IRRIGATION	04/15 to 10/15	0.03 CFS	2.8 AF

LOCATION OF POINT(S) OF DIVERSION:

SWSE , Sec. 29, Township 03N, Range 18E
BLAINE County

PLACE OF USE: IRRIGATION

<u>TWN</u>	<u>RGE</u>	<u>SEC</u>	<u>ACRES</u>	<u>ACRES</u>	<u>ACRES</u>	<u>TOTAL</u>
03N	18E	29	SWSE	0.8		0.8

Total number of acres irrigated: 0.8

CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. This right when combined with all other rights shall provide no more than .03 cfs per acre nor more than 3.5 afa per acre for the lands above.
6. Irrigation use under this right is authorized only in connection with a domestic use.

This license is issued pursuant to the provisions of Section 42-219, Idaho Code. Witness the seal and signature of the Director, affixed at Boise, this 19TH day of OCTOBER, 1994.

ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that I have examined Application for Permit to appropriate the public waters of the State of Idaho No. 37-8422, and said application is hereby APPROVED.

1. Approval of said application is subject to the following limitations and conditions:

a. SUBJECT TO ALL PRIOR WATER RIGHTS.

b. Proof of construction of works and application of water to beneficial use shall be submitted on or before June 1, 19 90.

c. The rate of diversion, if water is to be used for irrigation under this permit, when combined with all other water rights for the same land shall not exceed 0.02 cubic feet per second for each acre of land.

d. The water right acquired under this permit if for hydropower purposes shall be junior and subordinate to all rights to the use of water, other than hydropower, within the State of Idaho that are initiated later in time than the priority of this permit and shall not give rise to any right or claim against any future rights to the use of water, other than hydropower, within the State of Idaho initiated later in time than the priority of this permit.

e. Other: Permit holder shall comply with the drilling permit requirements of Section 42-235, Idaho Code.

Irrigation use under this permit is authorized only in connection with a domestic use.

Witness my hand this 9th day of May, 1989.

MEMORANDUM

TO: File 37-08422 / Debby Mc Namara
FROM: Brenda Chapman
DATE: September 28, 1994
RE: Adjustment(s) Made

=====

The final licensing recommendations for the above referenced water right are based on the information below:

REMARKS/NARRATIVE ATTACHMENT SHEET

The narrative included the pasture and lawn surrounding the home; however, the recommendation was made for only the pasture.

It appears that the portion of the acre that should be recommended (.75 or .8) was inadvertently exchanged with the portion not covered under the irrigation system (about $\frac{1}{4}$ of the acre). Therefore, .8 of an acre will be recommended for licensing.

G. VOLUME CALCULATIONS

Volume recommendation adjusted for .8 of an acre.

H. RECOMMENDATIONS

1. Recommended Amounts

Beneficial Use	Period of Use	Rate of Div	Annual Vol
Irrigation	4-15 to 10-15	.03	2.8

See item G.

NOV 07 1994

DATE: JULY 6, 1993

FROM: BRETT BARRY

SUBJECT: 37-08422 FIELD EXAMINATION-REMARKS/NARRATIVE

On June 23, 1993 the field exam for the above water permit was conducted. Debby Mc Namara, the permit holder, accompanied myself during this examination. This permit is to appropriate a total of 0.03 cfs for one acre of irrigation use.

This water system consisted of a 1 H.P. submersible pump with one underground mainline diverting from the well. This line diverted into the house for domestic use. The line continued south to a pasture. The pasture was watered with two laterals and 3 Rainbird 65 heads on each lateral. These heads all had 1/4 in nozzles.

The lawn and landscaping around the house was irrigated with an underground sprinkler system. The system consisted of various kinds of sprinkler heads.

The permit holder's lot was approximately an acre. Everything was being irrigated except for the corral and parts of the backyard. This waste acreage is approximately a quarter of an acre. With department standards, I rounded the recommended acreage to be ~~one acre~~. *.2 acre*

No measurements were taken because construction on the sideway and driveway was taking place and the system was shut down.

No well log was found for this well. An area estimate was completed and found the water level in the area to be between 20 and 47 ft. A theoretical diversion rate was completed (see attached sheet) using this information.

NOV 07 1994

GROUNDWATER MEASUREMENT REQUIREMENT ANALYSIS

FILE: 37-08422

DATE: 7-6-93

BY: Brett Bandy

THEORETICAL RATE OF FLOW: $Q = \frac{(8.8) \times (\text{H.P.}) \times (\text{EFF.})}{\text{TDH}}$

Q = CFS

H.P. = Total Brake Horsepower of pumping plant (including booster)

EFF. = Pumping plant efficiency (ASSUME 70% OR 0.70)

TDH = total dynamic head = [(LIFT) + (PSI X 2.31)]

LIFT = depth to water in FEET from land surface to pumping water level

PSI = pumping pressure measured in psi near pump
(if open discharge assume zero [0])

$$Q = \frac{(8.8) \left(\frac{1 \text{ H.P.}}{1} \right) (0.70)}{[(4') + (50 \text{ p.s.i.} \times 2.31)]} = 0.04 \text{ cfs}$$

LIFT FROM:

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before June 1, 1990.

(See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Rita Fleck
Secretary/Records Manager

RE: PERMIT NO. 37-08422

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

You should be aware that the groundwater you propose to divert is located within a drainage basin where surface waters are regulated during the months of low flow. It is possible that diversion of groundwater may have an adverse impact on these surface water flows. Information available to us at this time does not warrant refusing to issue permits in your area, but we do caution that diversions of groundwater are not allowed to deplete flows available for surface water users with earlier priority dates. Siting your well as far from surface sources as possible and casing out upper water producing zones may reduce the potential of interference.

Section 42-235, Idaho Code, requires that a "drilling permit" must be obtained from the department for all wells constructed after July 1, 1987. A drilling permit is a separate permit that must be issued in addition to your permit to appropriate water. Commencement of well construction or diversion of water under your permit to appropriate water is prohibited unless a drilling permit is obtained.

We have enclosed a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit. Also

Re: Application for Permit No. 37-08422

Dear Applicant (s):

The Department of Water Resources acknowledges receipt of your water right application for permit. The application has been assigned the above referenced identification number. Please refer to this number in all further correspondence.

This office will be advertising the application in the Wood River Journal on 2/1 & 2/8/89. A period of ten days following the second publication will be allowed for the submittal of protests.

If the application is protested you will be sent a copy of the protest. The protest must be resolved before the application is approved or denied. If the protest is not resolved voluntarily, this Department will conduct a conference and/or hearing on the matter.

If the application is not protested, it will be forwarded to our State Office in about five weeks. State office personnel will conduct a complete review prior to final processing of the application and will notify you of the outcome of this review. When a permit is issued, you will be sent a copy. A typical processing time for an unprotested application is about eight weeks.

Please feel free to contact this office if you have any questions regarding this procedure.

Very truly yours,

James E. Stanton
Sr. Water Resource Agent
