INSTRUCTIONS

This form has been prepared to assist new owners of property to comply with the requirements of Sections 42-248 and 42-1409(6), Idaho Code. Section 42-248 requires certain property holders to notify the Department of Water Resources (IDWR) of any change in mailing address or ownership of all or part of a water right record on file with IDWR. Section 42-1409(6) provides that new property owners must notify IDWR of any change in ownership of a water right during an adjudication of water rights, and, if a required claim for the water right has not been filed, to file the needed claim.

Separate brochures are available from IDWR describing the adjudication of water rights and the requirement to notify IDWR of changes in ownership. If you would like any of these brochures, or if you have questions about completing this form, please contact your nearest IDWR office or call 1-800-451-4129.

If you need additional space to describe or explain any of the items on the form, please attach additional sheets to the form as you may require.

1. If there are water rights associated with the property, the seller should be able to provide you with the water right or adjudication claim number(s). Please enter these number(s) at **Item 1.** If you or the seller believe there are water rights for the property but the numbers are unknown, you may wish to call IDWR or come into an office of IDWR for assistance in identifying the water rights for the property in question. If claims for the rights are required, and have not been filed, IDWR will so advise you.

2. The information described at **Item 2** is required, since IDWR cannot process the requested change without documentation of ownership. The preferred types of documentation are shown; contact IDWR if you have difficulty obtaining this information. Do not obtain a new survey for purposes of this form before contacting IDWR.

3. Please provide the name and address of the former owner of the water right and/or adjudication claim at **Item 3.**

4. The name, mailing address, and telephone number of the new owner(s) is entered at **Item 4.** Please indicate the relationship between multiple owners by using the connector "and", "or" or "and/or". If an "and" is used, all parties must sign this form. If an "and/or" or "or" is used, all parties may sign, however only one of the named parties is required to sign.

5. At **Item 5**, please provide the date the property in question was acquired. This may be the date of "closing" in the case of a real estate transaction or the date of court order for other types of ownership changes.

6. If the property you have purchased is only a portion of the property owned by the former owner/seller, you may be purchasing only a portion of the total water right held by the seller. This means the water right held by the seller may be "split" to provide your share of the right in question. Be sure to include a description of the portion of the water right you have purchased at **Item 6.**

   Please provide as much detail as possible concerning your water right: include the number of homes, irrigated acreage if more than 1/2 acre is irrigated, type and number of stock if your right is for stockwater, etc. In the absence of information to the contrary, IDWR will assume the intent is to split the rights *proportionately.*

7. The new owner(s) must sign the form in the space(s) provided at **Item 7.** Corporations and other organizations must submit a list of directors or officers demonstrating the authority of the director or officer to sign the form.

8. There is no filing fee. When complete, you should retain a copy and return the original of the form to the IDWR office nearest you:

RE: Water Right 37-08345

Dear Mr. & Ms. Wunderle:

The Department acknowledges receipt of Change of Ownership documents for Water Right License No. 37-08345.

The water right in question having a priority date of 1989 is not subject to proceedings in the Snake River Basin Adjudication (SRBA); therefore, it will be forwarded to our State Office and the documents incorporated in the original water right file as evidence for change of ownership.

The right, in fact, has not been recorded as an adjudication claim nor is it necessary to do so since it was established after the commencement date of the SRBA.

Idaho law provides that water rights normally run with the land unless specifically withheld in a conveyance and our procedure in changes of ownership with a license is to simply file the evidence of ownership change. No other action is necessary by the parties in this case.

If you have any questions regarding this matter, please feel free to give me a call.

Sincerely,

Tara L Backlund

E. NARRATIVE/REMARKS/COMMENTS

WATER IS COLLECTED FROM A SPRING WITH A 12" PIPE (BURIED) WHICH RUNS PAST HW 30 TO A COLLECTION BOX. THIS BOX DIVERTS WATER TO ~~AANT~~ Three DIFFERENT USERS INCLUDING NED BOWLER. BOWLER'S 1¼" PIPE RUNS BURIED TO A 1000 GAL (6'x6'x4') CONCRETE TANK ON HIS PROPERTY. ON THE TANK SITS A ½ HP PUMP USED FOR IRRIGATION OF ½ ACRE OF LAWN + GARDEN VIA GARDEN HOSE. INSIDE THE TANK IS A SUBMERSIBLE ½ HP PUMP FOR DOMESTIC USE WHICH DIVERTS WATER TO A 50 GALLON PRESSURE TANK (40-60). NED BOWLER HAS MEASURED THE TANK RUNOFF WHEN IT WAS FULL WITH A ONE GAL. JUG AND STOPWATCH AT APPROXIMATELY 0.02 CFS AND SO APPLIED FOR THAT AMOUNT.

DOMESTIC USE HAS EXTERNAL COMPONENT = 1.2 AFA

Overflow water from the collection box that serves this permit and 37-08375 ~~37-08362~~ & 37-10072 flows West about 200' to a weir box. From the weir box the overflow goes through a small fish pond operation. The weir was measured at .4' on the 12" Cipolletti assuming at the most a minimal amount was being used by the other two users. Therefore, we should have been measuring the majority of the spring output at .87 cfs which indicates the spring is capable of fulfilling all three rights served by the collection box.

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before February 1, 1990. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

State office personnel will conduct a complete review prior to final processing of the application and will notify you of the outcome of this review. When a permit is issued, you will be sent a copy. A typical processing time for an unprotested application is about eight weeks.

Please feel free to contact this office if you have any questions regarding this procedure.
