**STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES
NOTICE OF CHANGE IN WATER RIGHT OWNERSHIP**

Please print or type. Attach pages with additional information. Instructions are included at the end of this form.
Incomplete forms will be returned.

1. Please list the water right number(s) and/or adjudication claim number(s) (if any) for each water right to be changed. List just the adjudication claim number if there is no corresponding water right record on file with the department. Indicate, by checking in the space provided (under the "split" heading), if the change in ownership is limited to a portion of a water right in which case division of the existing water right or adjudication claim record will be required.

Water Right No(s)	Adjudication Claim No(s)	Split	Water Right No(s)	Adjudication Claim No(s)	Split
#37-8323					

2. The following **REQUIRED** information must be submitted with this form:

- A. The appropriate **FILING FEE**. See instructions for fee amounts.
- B. A copy of the most recent **DEED, TITLE POLICY, CONTRACT OF SALE** or other legal document indicating your ownership of the property and water right(s) or claim(s) in question, **WITH ATTACHED LEGAL DESCRIPTION**.
- C. Either of the following (if necessary to clarify division of water rights or other complex property descriptions):
PLAT OF PROPERTY or **SURVEY MAP** clearly showing the location of the point(s) of diversion and place of use of your water right(s) and/or adjudication claim(s) (these are usually attached to your deed or on file with the county).
OR
 If your water right(s) and/or adjudication claim(s) is for ten or more acres of irrigation, you must submit a USDA Farm Service Agency **AERIAL PHOTO** with the irrigated acres outlined and point(s) of diversion clearly marked. The **AERIAL PHOTO** should be submitted in place of the **PLAT OF PROPERTY** or **SURVEY MAP**.

3. Name and Address of Former Owner/Claimant(s) MARSHALL ASHCROFT

MICROFILMED

JUN 9 2001

6. If the change in ownership affects the entire water right for each water right or adjudication claim number listed in item 1, THEN SKIP THIS ITEM AND GO TO ITEM 7. If the change in ownership divides the water right(s) among multiple owners, you must describe, in detail, your portion of each water right after the change. Fill in the appropriate spaces in the box(es) below to describe your water right(s) after the change (one water right per box, you may copy this page as necessary). If your quantity of water is greater than a proportionate split, you must attach documentation to show justification for a larger amount. If you are not sure how to identify your portion of the original water right or adjudication claim records, please contact the nearest IDWR office for assistance.

02N 15E 36

SWSE

SESE

CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. Use of water under this water right will be regulated by the watermaster of State Water District No. 37.

NOV 15 1991

State of Idaho
Department of Water Resources**WATER RIGHT LICENSE**

WATER RIGHT NO. 37-08323

CONDITIONS/REMARKS:

6. A measuring device and lockable controlling works of a type acceptable to the Department shall be permanently installed and maintained as part of the diverting works.
7. Use of water under this right shall be non-consumptive.
8. Return water shall be treated to insure that the effluent meets Idaho Water Quality Standards.
9. Upon a future determination that the use of water is consuming water required to satisfy prior rights, the right holder will be required to discontinue diversion under this right or provide supplemental water from a source approved by the Department.
10. Measuring devices shall be maintained at the point of diversion from Willow Creek and at the outlet of the reservoir.

This license is issued pursuant to the provisions of Section 42-219, Idaho Code. Witness the seal and signature of the Director, affixed at Boise, this 24TH day of OCTOBER, 1991.

Gooding County Leader

ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that I have examined Application for Permit to appropriate the public waters of the State of Idaho No. 37-8323, and said application is hereby APPROVED.

1. Approval of said application is subject to the following limitations and conditions:

a. SUBJECT TO ALL PRIOR WATER RIGHTS.

b. Proof of construction of works and application of water to beneficial use shall be submitted on or before March 1, 19 91.

c. The rate of diversion, if water is to be used for irrigation under this permit, when combined with all other water rights for the same land shall not exceed 0.02 cubic feet per second for each acre of land.

d. The water right acquired under this permit if for hydropower purposes shall be junior and subordinate to all rights to the use of water, other than hydropower, within the State of Idaho that are initiated later in time than the priority of this permit and shall not give rise to any right or claim against any future rights to the use of water, other than hydropower, within the State of Idaho initiated later in time than the priority of this permit.

e. Other:

A separate stream alteration permit from the IDWR is required for any activity in the stream channel other than construction and/or maintenance of the diversion structure. If your proposed construction or operation involves construction of an outfall or any other work in the stream channel other than a water diversion, you must contact the Department and obtain a Stream Channel Alteration permit prior to the start of construction.

Use of water under this permit shall be non-consumptive.

A measuring device and lockable controlling works of a type acceptable to the Department shall be permanently installed and maintained as part of the diverting works prior to diversion of water under this permit.

Permit holder shall commence the excavation or construction of diverting works within one year of the date this permit is issued and shall proceed diligently until the project is complete.

Use of water under this permit is subject to control by the watermaster of State Water District No. 37, Big Wood River.

Witness my hand this 17th day of February, 1989.

Dear Water Right Holder(s):

The department acknowledges receipt of correspondence changing ownership of the above referenced water right to you. The department has modified its records to reflect the change in ownership and has enclosed a computer-generated report for your records. Also enclosed is a receipt for the \$25.00 filing fee.

Please note that as of July 1, 1996, water right owners are required to report any change of water right ownership and any change of mailing address of the owner of a water right to the department. Notice of the change must be provided to the department within 120 days of the change. Change reporting forms are available from any office of the department.

Please feel free to contact this office if you have any questions regarding this matter.

Sincerely,

JP Jeff Peppersack, Manager
Water Right Permits Section

Department of Water Resources

Dear Friends,

Pursuant to the direction of
Kelly K. Christensen, Sr. Water
Resource Agent, I submit herewith
the following in support of my request
for a change of ownership, licensed
right:

1. Warranty Deed dated 12-5-91 whereby
our Trust acquired the property. Please
note the water right # 37-8323 was
also conveyed at this time.
2. Plat of Property, with a copy of the
Blaine Quadrangle noting the area in
which the property is located.
3. COMPLETED "NOTICE OF CHANGE IN WATER
RIGHT OWNERSHIP" form.
4. Filing fee in the amount of \$25⁰⁰

Thank you very much for your assistance
in this matter.

RE: GROUND WATER LEVELS IN THE DIETRICH AREA

Dear Mr. Huyser:

The department has reviewed your letter requesting a moratorium on the approval of new water right permits in the Dietrich area. In response to your letter, the department has reviewed water level trends in the Dietrich area as shown by observation wells. The observation wells are constructed into the Snake River basalts.

Not surprisingly, the hydrographs do show a decline in water levels in the observation wells particularly during the last five low water years. The department attributes this decline primarily to decreased surface water diversions in the Upper Snake River System and tributaries and a decrease in natural recharge to the system during the last five years.

The department reviewed the amount of drilling activity in the Dietrich area by counting the number of drilling permits issued in Townships 5S and 6S in Ranges 18E and 19E for the years 1990 and 1991. A total of 17 drilling permits have been issued of which 4 were for irrigation and 13 were for domestic and stockwater uses. Of the 13 domestic and stockwater drilling permits, 11 were for new wells, 1 was a replacement well and 1 was to deepen a well. This amount of activity certainly does not appear to be excessive for the area over the time period involved.

Based on this review, designating a moratorium on the approval of new water right permits does not appear to be justified or appropriate at this time. However, in accordance with your request and to be certain that the department is fully aware of the conditions about which you have expressed concern, the department will schedule a public meeting in the Dietrich area to allow the matter to be reviewed in more detail. Since the harvest season is now in progress, I propose to set the meeting for late October or early November. The department will notify you of the time and place of the meeting in a subsequent letter.

I appreciate your interest in this matter.

Sincerely,

R. KEITH HIGGINSON
Director

Dear Mr. Ashcroft:

Re: Permit No. 37-8323

PROOF ACKNOWLEDGEMENT LETTER

This office acknowledges receipt of the proof of beneficial use form along with the \$100.00 fee. Your permit was issued for the maximum diversion rate of 1.00 cfs, but since the use is wildlife, no fee is required. I have requested a refund.

The next step is for the department to conduct the field inspection to confirm and determine the extent of beneficial use. I cannot tell just when the representative from our Southern Regional office will conduct the exam, but he will try to contact you or your representative prior to being in the area.

If you have questions, please contact me.

Sincerely,

RITA I. FLECK
Secretary/Records Manager

PROOF DUE NOTICE

RE: PERMIT NO. 37-08323

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before March 1, 1991. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Rita Fleck
Secretary/Records Manager

RE: PERMIT NO. 37-08323

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

Be sure to note the special condition requiring you to install a measuring device and lockable controlling works that will enable the watermaster to control the rate of diversion.

Please note the requirement that as a permit holder you must commence the excavation or construction of diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The enclosed blue card must be completed and returned to this office as soon as you commence construction, no later than one year from the date the permit was approved.

We have enclosed a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit into a license.

Sincerely,

GARY SPACKMAN, Supervisor
Water Right Permits Section

Re: Application for Permit No. 37-8323

Dear Mrs. Brackenbury:

As stated in our letter of 11/25/88, we have not yet received an Affidavit of Publication for the above referenced legal notice that was published on 3/16/88 and 3/23/88. We did receive a galley proof but not the notarized affidavit which is necessary for verification of publication of legal notices and for payment of the publication bill as required by our Department.

If you have any questions or if this office can be of further assistance, please feel free to contact us.

Your prompt attention to this matter would be greatly appreciated as processing of this application is pending receipt of the affidavit.

Very truly yours,

Loren O. Holmes, P.E.

Re: Application for permit No. 37-8323

Dear Mr. Ashcraft:

Enclosed is a copy of a protest filed against the issuance of a permit pursuant to your above referenced application. The Department suggests you contact the protestant directly in an effort to determine nature of the protest and to attempt to resolve the protest.

This office is tentatively scheduling the matter of protests for conference and/or hearing for July 21, 1988. Notices giving the time and place for the hearing will be mailed about July 6.

At such a conference and/or hearing, the following are the principal items the Department can consider in either approving or denying an application for permit (Section 42-203, IDAHO CODE):

- 1) Will the proposed use reduce the quantity of water under existing rights?
- 2) Is the proposed water supply insufficient for the purposes intended?
- 3) Is the application made in good faith or for delay or speculative purposes?
- 4) Has the applicant sufficient financial resources with which to complete the proposed project?
- 5) Will the proposed use conflict with the local public interest?

RECEIVED

APR 1 1988

Department of Water Resources
Southern Region Office

Department of Water Resources
2148 4th Avenue East
Twin Fall, Idaho 83301

Dear Sirs:

This letter is written in reference to Application for Permit, identification number 37-8323.

The application requests use of a spring flow and 1 CFS from Willow Creek to maintain a pond for wildlife.

My concerns are as follows:

1. The application does not define the volume of the spring flow. Since the application approval is subject to all prior rights, the spring flow and the creek diversion should be measured so as to assure release equal to detainment.

2. No reference is made to losses by evaporation and/or saturated flow. Again, the release should be equal to detainment.

The concept of this use is agreeable and during most years will work without difficulty. The problems foreseen are short water years and any undesirable effect of this project on the water use by the Everett Coates Estate.

If the application and approval imply that this is a non-consumptive use, then the estate has no objection. However, if the application and approval is not a non-consumptive use, then this is a letter of protest for the above stated reasons.

Thank you for your attention in this matter.

CONVERSATION MEMORANDUM

DATE March 31, 1988Steve Miller
Rt. 1 Box 1130FILE 37-8323NAME OF PARTY Fairfield, Idaho 83327EMPLOYEE Gary SpackmanRE: Concern about reservoir storage for wildlife
affecting downstream flows.

Steve Miller either owns or operates
agricultural lands irrigated by water diverted
from Willow Creek, tributary to Camas Creek.

The proposed diversion for wildlife storage is located
upstream from the Miller diversion.

Miller is concerned about the following:

1. Reservoir ~~does~~ not consumptively use
water diverted during irrigation season
2. That measuring devices @ the inlet and
outlet will be maintained to insure non-
consumptive use
3. That the reservoir is not constructed on
the stream but is an off stream storage site.

I informed Mr. Miller that he could file a
protest, but that the concerns probably would
be addressed under our standard conditions.

He said he did not wish to file a protest.

Re: Application for permit No. 37-8323, Marshall Ashcraft

Dear Mr. Miller:

It has been brought to the attention of the Department that The Snowshoe, a newspaper published in Fairfield, carries legal notices for the county.

Section 42-203A (2) of the IDAHO CODE requires the Department to publish notices of applications as follows:

"..in a newspaper printed within the county wherein the point of diversion lies, or in the event no newspaper is printed in said county, then in a newspaper of general circulation therein."

In order to meet this requirement, we will be publishing notice of the above application in The Snowshoe on March 16, and 23, 1988. The final date for filing protests will be April 4, 1988.

If you have questions regarding re-publication, please let us know.

Very Truly yours,

Dear Mrs. Brackenbury::

Enclosed you will find a legal notice which we wish to have published once a week for two consecutive weekly issues of your newspaper. We have inserted the publication dates allowing ample time for you to submit us a galley proof for review before publication.

After sending us a galley proof, proceed with the publication on the dates we have inserted, assuming the notice is correct. If we have any corrections, we will notify you before the first publication. If you cannot publish the notice on the proposed dates, please contact us immediately.

In order to receive payment, an affidavit of publication must be submitted to the Department along with the publication bill.

Very truly yours,

Mary Baldwin

Re: Application for Permit No.

Dear Mr. Ashcraft:

The Department of Water Resources acknowledges receipt of your water right application for permit. The application has been assigned identification No. 37-8323. Please refer to this number in all further correspondence.

This office is currently in the process of advertising the application in the Gooding County Leader on 2/3/88 and 2/10/88. The advertisement will be published for two weeks, and a period of ten days following the second publication will be allowed for the submittal of protests.

If the application is protested, you will be sent a copy of the protest. The protest must be resolved before the application is approved or denied. If the protest is not resolved voluntarily, this Department will conduct a conference and/or hearing on the matter.

If the application is not protested, it will be forwarded to our state office in about five weeks. State office personnel will conduct a complete review prior to final processing of the application and will notify you of the outcome of this review. When a permit is issued, you will be sent a copy. A typical processing time for an unprotested application is about eight weeks.

Please feel free to contact this office if you have any questions regarding this procedure.
