PLACE OF USE: WILDLIFE, same as STOCKWATER use

CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.

ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that I have examined Application for Permit to appropriate the public waters of the State of Idaho No. 37-8316, and said application is hereby APPROVED.

1. Approval of said application is subject to the following limitations and conditions:

- a. SUBJECT TO ALL PRIOR WATER RIGHTS.
- b. Proof of construction of works and application of water to beneficial use shall be submitted on or before March 1, 19 90.
- c. The rate of diversion, if water is to be used for irrigation under this permit, when combined with all other water rights for the same land shall not exceed 0.02 cubic feet per second for each acre of land.
- d. The water right acquired under this permit if for hydropower purposes shall be junior and subordinate to all rights to the use of water, other than hydropower, within the State of Idaho that are initiated later in time than the priority of this permit and shall not give rise to any right or claim against any future rights to the use of water, other than hydropower, within the State of Idaho initiated later in time than the priority of this permit.
- e. Other:

Permit holder shall commence the excavation or construction of diverting works within one year of the date this permit is issued and shall proceed diligently until the project is complete.

Use of water under this permit is subject to control by the watermaster of State Water District No. 37U, Fish Creek.

Witness my hand this 29th day of February, 1988.

RE: Permit Nos. 37-8311/8312/8313/8314/8315/8316/8317/8318/8319/8320/8321

Dear Sir/Madam:

Enclosed are eleven completed Proof of Beneficial Use forms for the permit numbers shown above. The original application fee of \$30 was paid for each of the permits by our State Office to your State Office.

By memorandum dated October 14, 1988, we were advised your department had changed the procedures for accepting applications for water rights. The new procedures requires all applications for permits, amendments, and other changes be filed in the regional office servicing the basin. We assume that also includes Proof of Beneficial use.

Because the original application fee has already been paid, and because each permit is for 0.01 CFS, we have not included license examination fees (per schedule of fees shown on the back of the Proof of Beneficial use form). According to the schedule, "No fee is required for single family domestic use, or stockwater use". We understand "stockwater" as defined by your department, also includes water for wildlife.

If you have questions or need further clarification, please do not hesitate to call Floyd Dewitt or John Aspitarte at 886-2206.

Sincerely,

K Lynn Bennett

Gentlemen:

Enclosed are copies of your approved Applications for Permit. We direct your attention to the conditions of approval on the fourth pages.

Please note the requirement that as a permit holder you must commence the excavation or construction of diverting works within one year of the date the permits were issued, and you must proceed diligently until the projects are completed. The enclosed blue cards must be completed and returned to this office as soon as you commence construction, no later than one year from the date the permits were approved.

We have enclosed a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop these permits into licenses.

Sincerely,

GARY SPACKMAN
Supervisor, Water Allocation Section

Gentlemen:

Please find enclosed a supply of blank "Application for Permit" forms, Form 202-6/85, which the Department of Water Resources is currently using. Our office continues to receive applications on the old forms from various agencies and has in the past processed these applications; however, we have been recently directed not to process applications made on the old forms. All applications received on the old forms will be returned for drafting on the new forms. The priority of the application will not change but the processing time will be delayed.

Please find enclosed copies of 12 applications we recently received which will need to be re-drafted on the new forms and returned to our office.

If you have any questions or need additional forms, please feel free to contact our office.
