GENERAL CONDITION AND DESCRIPTION OF DAM: DAM AND APPURTENANT WORKS APPEAR TO BE IN FAIR CONDITION. DENSE WEED AND GRASS GROWTH EXISTS ALL OVER THE EMBANKMENT. SOME BURROWS WERE NOTED AND OTHERS MAY HAVE BEEN OBSCURED BY GROWTH. SOME TALK HAS BEEN MADE ABOUT DEVELOPING THE LAND BELOW THE DAM WHICH MAY CHANGE THE HAZARD EVALUATION AND THE IDF. INSTRUMENTATION READINGS (Piezometer, Seepage measurement, Alignment, Elevation, etc.)

DAM CREST AND SPILLWAY WERE RESURVEYED DURING THE INSPECTION. RESULTS ARE IN THE FILE.

SKETCH OF DAM SHOWING LOCATION OF SPILLWAY AND OUTLET WORKS AND ANY MAINTENANCE PROBLEMS:

RECOMMENDATIONS: SINCE FLOOD ROUTING APPEARS ADEQUATE, ISSUE TWO YEAR STORAGE CERTIFICATE WITH ROUTINE MAINTENANCE: CONTROL GROWTH, CONTROL RODENTS AND BACKFILL BURROWS, OPERATE DAM (PREFERABLY VIA UPSTREAM CONTROLS) SO ADEQUATE FREEBOARD IS MAINTAINED. *MAY WANT TO DISCUSS MODIFICATIONS TO DAM THAT MAY BE REQUIRED IF DEVELOPMENT OCCURS BELOW DAM AND CHANGES HAZARD CLASSIFICATION AND IDF.

ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that I have examined Application for Permit to appropriate the public waters of the State of Idaho No. 37-8283, and said application is hereby APPROVED.

1. Approval of said application is subject to the following limitations and conditions:

- a. SUBJECT TO ALL PRIOR WATER RIGHTS.
- b. Proof of construction of works and application of water to beneficial use shall be submitted on or before February 1, 1992.
- c. The rate of diversion, if water is to be used for irrigation under this permit, when combined with all other water rights for the same land shall not exceed 0.02 cubic feet per second for each acre of land.
- d. The water right acquired under this permit if for hydropower purposes shall be junior and subordinate to all rights to the use of water, other than hydropower, within the State of Idaho that are initiated later in time than the priority of this permit and shall not give rise to any right or claim against any future rights to the use of water, other than hydropower, within the State of Idaho initiated later in time than the priority of this permit.

For Permit No. 37-8283

- e. Permit holder shall commence the excavation or construction of diverting works within one year of the date this permit is issued and shall proceed diligently until the project is complete.
- f. A separate stream alteration permit from the IDWR is required for any activity in the stream channel other than construction and/or maintenance of the diversion structure. If your proposed construction or operation involves construction of an outfall or any other work in the stream channel other than a water diversion, you must contact the Department and obtain a Stream Channel Alteration permit prior to the start of construction.
- g. Measuring devices of a type approved by the Department shall be permanently installed and maintained at the point of diversion and the point of effluent discharge.
- h. Assignment or sale of this permit is subject to a determination by the Department that the permit holder has proceeded to develop the permit with due diligence and without speculation.
- i. Water used under this permit if discharged into a natural channel shall meet Idaho Water Quality Standards.
- j. The storage of water under this permit is contingent upon the certification of the dam and authorization of storage per the dam safety provisions of the Idaho Code.
- k. Use of water under this right is subject to policies set forth in the State of Idaho Water Plan, including Policy No. 32F.
- l. Consumptive use of water under this permit shall not exceed 2.0 acre feet per day.
- m. Use of water under this permit is subject to control by the watermaster of State Water District No. 37, Big Wood River.

RE: WATER RIGHT NO. 37-08283

Dear Water Right Holder(s):

The Department of Water Resources (the Department) has issued the enclosed license confirming that a water right has been established in accordance with the permit referenced above. The license is a preliminary order issued by the Department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action of the Department unless a party petitions for reconsideration or files an exception and/or brief as described in the enclosed information sheet.

Also, please note that water right owners are required to report any change of water right ownership and/or change of mailing address to the department within 120 days of the change. Failure to report these changes could result in a \$100 late filing fee. Contact any office of the department or visit the department's homepage on the Internet to obtain the proper reporting form.

If you have any questions, please call me at 208-327-7946.

Sincerely,

FOR Shelley W. Keen
Water Rights Supervisor

Responding to Preliminary Orders Issued by the Idaho Department of Water Resources

The Idaho Department of Water Resources (Department) issues water right permits, licenses, and transfers as preliminary orders pursuant to section 67-5243, Idaho Code. A preliminary order can and will become a final order without further action of the department unless a party petitions for reconsideration or files an exception and/or brief as further described below:

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the Department within fourteen (14) days of the service date of the order. The Department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See section 67-5243(3), Idaho Code.

EXCEPTIONS AND BRIEFS

Within twenty-one (21) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from a preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding. Otherwise, a preliminary order will become a final order of the Department.

If any party appeals or takes exceptions to a preliminary order, opposing parties shall have twenty-one (21) days to respond to any party's appeal. Written briefs in support of or taking exceptions to the preliminary order shall be filed with the Department. The Department retains the right to review the preliminary order on its own motion.

ORAL ARGUMENT

If the Department grants a petition to review a preliminary order, the Department shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Department will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Department orders otherwise, all oral arguments will be heard in Boise, Idaho.

RE: Recommendation Adjustment(s)

The adjustments to licensing recommendations for Permit 37-08283 are as follows:

C. DIVERSION AND DELIVERY SYSTEM

2. Place(s) of Use: T2N, R18E, S1 - NENE, NWNE, N $\frac{1}{2}$ NW, SWNW (Stockwater)
T2N, R18E, S2 - NENE, SENE (Stockwater)
- NE, NESE (Rec Storage & Aesth Storage)

The upper pond is also partially within the NESE, S10.

I. RECOMMENDATIONS

Stockwater	1/1 – 12/31	0.12 cfs	6.7 af
Recreation Storage	1/1 – 12/31		35.0 af
Aesthetic Storage	1/1 – 12/31		35.0 af
	TOTALS	0.12 cfs	41.7 af

All the uses of water under this right are ON-STREAM, therefore there are no recreation and aesthetic flow components. The applicant plants fish in the pond for sport fishing businesses – there is no “propagation”; the use is covered under the recreation storage component.

The volume for stockwater for 500 cattle/horses = 6.7 af.

RE: 37-08283
(A) 37-02741, -02784A, -07693, -19736 irrigation/stock claims

On September 30, I met with Fred Judd and John Burke, partners in the Quigley Canyon Ranch L.L.P., to conduct a field examination for the above permit. The water source associated with the permit is Quigley Creek. There are two ponds, on-stream, that are approximately 1.5 mile apart on a east-west line.

Both ponds have been inspected (1992, 1996-97) by dam safety personnel. The data in the file includes surface area and storage capacity from the inspections.

During a Beneficial Use Reconnaissance Program (BURP), the flow of Quigley Creek was measured by DEQ personnel.

June 1995: SWSWSW $\frac{1}{4}$ Sec 31, T03N, R19E recorded rate=5.10 cfs

July 1998: SESESE $\frac{1}{4}$ Sec 36, T03N, R18E recorded rate=5.07 cfs

While conducting the field examination, I wrestled with the portable flume to get the flow rate. Although the portable flume won the match, the closest reading I could obtain was comparable to the rates measured by DEQ.

When filing Proof of Beneficial Use, the applicant's lawyer paid \$100, which equates to 0.21-1.00 cfs and/or 21-100 afa. The total pond capacity is 35 acre feet. It appears the fee was directed at the acre feet? Therefore, I can recommend the limited rate of 1.00 cfs.

Stockwater-cows can be seen in photo background of the upper pond, Mr. Burke says their land abuts with BLM land and the stock drink water from creek as far east as the NENE $\frac{1}{4}$ of Section 1, T02N, R18E.

Fish Propagation and Fish Propagation Storage-Mr. Judd says they plant fish. Then they "rent" the upper pond out to one of the sport fishing businesses, who then charge anglers per pole.

Recreation-in connection with the above use

Aesthetic-in connection with the above use

Fire Protection-The fire protection storage (upper reservoir) was permitted for the proposed residential community, that was not developed, therefore it will not be recommended.

Have conditions of permit approval been met? ☒ yes ☐ no

SUBJECT: Permit 37-08283, Proof of Use & Name Change

Attached is the proof of beneficial use for this permit, plus a check for \$100. The permit is for 4.15 cfs direct flow plus storage. I can't tell if the correct proof fee was sent, however, since they only showed storage on the form. So I am leaving this to you to figure out.

Also, the name of the applicant has changed. Stoney Burke is still in charge, however, so I don't know if an assignment of permit is needed. The proof was filed in the new name, and signed by Stoney. Another thing for you to figure out. Thanks.

Re: Quigley Canyon Ranch, L.L.P.

Dear Allen:

Enclosed you will find a Proof of Beneficial Use for Permit No. 37-08283, Notice of Change of Water Right Ownership for the water rights and SRBA claims currently in the name of Quigley Ranch Partnership, and a copy of the filed Application for Registration of Limited Liability Partnership for Quigley Canyon Ranch, L.L.P. Quigley Ranch Partnership was an Idaho general partnership that simply registered as a limited liability partnership under the new name of Quigley Canyon Ranch, L.L.P. The ownership of the Partnership remains the same. However, the name and address change for the partnership required the filing of the Notice of Change of Water Right Ownership. I am also enclosing our firm's check for \$100 in payment of the Proof Beneficial Use fee for Permit No. 37-08283.

The Proof of Beneficial Use for Permit No. 37-08283 covers only a portion of the uses authorized by the Permit. The other uses are therefore waived.

Please call me if you have any questions. Thank you.

Sincerely yours,

RE: Quigley Canyon Ranch, L.L.P. - Permit No. 37-08283

Dear Allen:

Proof of Beneficial Use for the above-referenced permit was submitted in February, 1997. In checking the IDWR computer data base, I did not find that the Beneficial Use Field Exam has been completed. Has it been scheduled? I also noticed that the name change from Quigley Ranch Partnership to Quigley Canyon Ranch, L.L.P. had not yet been made in the data base. Will you please make sure that gets done.

I look forward to hearing from you.

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 37-08283

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit.

Enclosed is an order reinstating your permit since proof was submitted after the proof due date of February 1, 1997. Please note that the priority date has been advanced to September 23, 1986.

Section 42-248, Idaho Code, which became affective on July 1, 1996, requires you or the owner of this water right to maintain current ownership and address records on file with the department. Please contact any office of the department for the proper form to file a change of ownership of a water right and/or a change in the address of the owner. Failure to maintain current records with the department could result in the assessment of a monetary penalty.

The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water. If you have questions concerning the field examination, contact the SOUTHERN Regional Office in Twin Falls at (208)736-3033.

RE: PERMIT NO. 37-08283

Dear Permit Holder:

You are hereby notified that under the provisions of Section 42-218A, Idaho Code, the above referenced permit has lapsed and is of no further force nor effect. The department provided the proper forms to you in our proof due notice dated November 30, 1996. No further construction or additional development is authorized under this permit unless it is reinstated.

The permit can only be reinstated if you submit an acceptable proof of beneficial use or an acceptable request for extension of time to the department within sixty (60) days of the mailing of this lapse notice. An acceptable proof of beneficial use submittal must include the examination fee or a completed field examination report. A request for extension of time must be accompanied by a fifty dollar (\$50.00) fee.

Enclosed again for your use are a proof of beneficial use form and a request for extension of time form. Please note that only one extension of time can be granted unless the project has not been completed because of lack of a necessary approval by a government agency or by litigation which may bring title to the water in question.

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before February 1, 1997.

(See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

Dear Permit Holder:

Enclosed is a copy of the approved request for extension of time. The time within which to submit proof of beneficial use is extended to February 1, 1997. Please note that the department has granted this extension since development of the permit has been delayed for reasons beyond your control. It is important that you work diligently toward the completion of this project during the construction period allowed since the department may not be able to grant additional extension requests.

If you have any questions or if I can be of any further assistance, please feel free to contact this office.

The flow of the springs which are the source for Quigley Creek has remained diminished so that no water exits the upper lake identified as "Quigley Pond" on the map. We believe the flow will return if normal winter snow fall occurs. It does not make any sense to do further work until this has occurred.

Dear Permit Holder:

Enclosed is a copy of the approved request for extension of time. The time within which to submit proof of beneficial use is extended to February 1, 1995. However, since the extension was received after the proof of beneficial use date, it was necessary for the department to reinstate your permit and advance your priority date to September 14, 1986.

Please note that the department has granted this extension based on due diligence. It is important that you work diligently toward the completion of this project during the construction period allowed. The department may not be able to grant additional requests.

If you have any questions or if I can be of any further assistance, please feel free to contact me.

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 37-8283

DEAR PERMIT HOLDER:

ENCLOSED IS A COPY OF YOUR APPROVED APPLICATION FOR PERMIT. WE DIRECT YOUR ATTENTION TO THE CONDITIONS OF APPROVAL ON THE FOURTH PAGE.

PLEASE BE ADVISED THAT WATER QUALITY IS SUBJECT TO REGULATIONS OF THE IDAHO DEPARTMENT OF HEALTH AND WELFARE. WE SUGGEST THAT YOU CHECK WITH THEM BEFORE STARTING CONSTRUCTION.

IF THE DIVERSION DAM IS 10 FEET OR MORE IN HEIGHT, OR HAS AN IMPOUNDING CAPACITY OF 50 ACRE-FEET OR MORE, CERTAIN DAM SAFETY REQUIREMENTS MUST BE MET. PLEASE CONTACT THE REGIONAL OFFICE NEAREST YOU FOR ADDITIONAL INFORMATION.

PLEASE BE ADVISED THAT YOUR PLANS FOR FISH PROPAGATION MAY BE SUBJECT TO REGULATIONS OF THE IDAHO DEPARTMENT OF FISH AND GAME. WE SUGGEST THAT YOU CHECK WITH THEM BEFORE STARTING CONSTRUCTION.

BE SURE TO NOTE THE SPECIAL CONDITION REQUIRING YOU TO INSTALL A MEASURING DEVICE AND LOCKABLE CONTROLLING WORKS THAT WILL ENABLE THE WATERMASTER TO CONTROL YOUR RATE OF DIVERSION.

PLEASE NOTE THE REQUIREMENT THAT AS A PERMIT HOLDER YOU MUST COMMENCE THE EXCAVATION OR CONSTRUCTION OF DIVERTING WORKS WITHIN ONE YEAR OF THE DATE THE PERMIT WAS ISSUED, AND YOU MUST PROCEED DILIGENTLY UNTIL THE PROJECT IS COMPLETED. THE ENCLOSED BLUE CARD MUST BE COMPLETED AND RETURNED TO THIS OFFICE AS SOON AS YOU COMMENCE CONSTRUCTION, NO LATER THAN ONE YEAR FROM THE DATE THE PERMIT WAS APPROVED.

Dear Loren:

The Department of Fish and Game withdraws their protest regarding the above referenced permit for water in Quigley Creek. Region 4 fisheries personnel (Bob Bell and Scott Grunder) recently conducted a field inspection of the area in question with one of the applicants, Mr. John A. "Stoney" Burke. We found their proposal poses no significant environmental problems.

I have met with both protestants, Blaine County Commissioners and Idaho Fish and Game Department.

In my meeting with the Blaine County Commissioners on January 13th, they agreed to withdraw their protest, and instructed the County Administrator, Ed Nigbor, to notify the Department of Water Resources of their decision. In a second meeting with the Idaho Fish and Game (Bob Bell) Department on Tuesday, January 20th, they too have agreed to withdraw their protest, and will so inform you in writing.

I assume this will satisfy the requirements of your letter dated December 22, 1986. Should you have any further questions, please call me at 622-4100, or our attorney, Jim Speck, at 726-4421.

Your protest against the approval of the above referenced application has been received and a copy has been sent to the applicant. The Department suggests you contact the applicant directly in an effort to determine what is proposed by the application and to attempt to resolve the protest.

If you do not advise us within twenty (20) days that the protest has been resolved, the matter will be scheduled for conference and/or hearing. At such a conference and/or hearing, the following are the principle items the Department can consider in either approving or denying an application for permit (Section 42-203, IDAHO CODE):

- 1) Will the proposed use reduce the quantity of water under existing rights?
- 2) Is the proposed water supply insufficient for the purposes intended?
- 3) Is the application made in good faith or for delay or speculative purposes?
- 4) Has the applicant sufficient financial resources with which to complete the project?
- 5) Will the proposed use conflict with the local public interest?

Gentlemen:

RE: Application for Permit 37-8283

Enclosed are copies of protests filed against the issuance of a permit pursuant to your above referenced application. The Department suggests you contact the protestant directly in an effort to determine the nature of the protest and to attempt to resolve the protest.

If you do not advise us within twenty (20) days that the protest has been resolved, the matter will be scheduled for conference and/or hearing. At such a conference and/or hearing, the following are the principle items the Department can consider in either approving or denying an application for permit (Section 42-203, IDAHO CODE):

- 1) Will the proposed use reduce the quantity of water under existing rights?
- 2) Is the proposed water supply insufficient for the purposes intended?
- 3) Is the application made in good faith or for delay or speculative purposes?
- 4) Has the applicant sufficient financial resources with which to complete the project?
- 5) Will the proposed use conflict with the local public interest?

If this office can be of further assistance, please contact us.

Very truly yours,

Loren O. Holmes

RE: Application for Permit No. 37-8283
Quigley Creek

Dear Loren:

The Idaho Department of Fish and Game protests the granting of the above referenced permit for water in Quigley Creek totaling 4.15 cfs and 37 acre feet per annum. Quigley Creek supports excellent populations of wild brook trout and rainbow trout are also present in the stream. The productivity of the stream is high as indicated by insect analysis done on the stream in 1978 under a cooperative study funded by the Bureau of Land Management and conducted by Idaho Department of Fish and Game personnel.

The Department feels the proposal to re-route the stream through approximately one-half mile of golf course is definitely not in the best public interest.

Sincerely,

William E. Webb

Re: Application 37-8283 - Quigley Creek Ranch, Partnership

Dear Mr. Loomis:

Regarding your letter dated December 11, 1986, the water right referred to in the attachment is recorded by the Department as Right No. 37-0004.

The right was decreed to William G. Abbott in the S.C. Frost vs. Alturas Water Co. Decree dated December 13, 1909, and is for 105 inches of water from the Big Wood River with a priority of March 24, 1883. The right is appurtenant to the W1/2NW1/4 and NE1/4SW1/4, Sec. 10, T2N, R18E.

Any permit issued on the Quigley Ranch application, 37-8283, will be subject to rights earlier in time than September 12, 1986.

The principle issues which can be considered by the Department in resolving a protest are as follows:

- 1) Will the proposed use reduce the quantity of water under existing rights?
- 2) Is the proposed water supply insufficient for the purposes intended?
- 3) Is the application made in good faith or for delay or speculative purposes?
- 4) Has the applicant sufficient financial resources with which to complete the project?

RE: Notice of Application for Water Right

Dear Sir:

This letter is in regard to Application No. 37-8283 as advertised in the legals of the Wood River Journal dated December 4, 1986. This may or may not be in the form of a protest to that application.

I represent the owners of 100 acres of land adjoining the west boundary of the Quigley Ranch Partnership land east of Hailey. It is understood through an article in the newspaper that the Quigley Partnership is making the water right application as they plan a golf course in 'five years or so'. The property I represent is in the process of re-platting to a golf course in anticipation of an installation schedule the summer of 1987.

Enclosed is a copy of legal descriptions showing the water rights owned by my client. It may be necessary to utilize those rights from Quigley Creek in order to irrigate the golf course upon which I am working. Please let me know if we have a conflict with the Quigley Ranch Partnership.

Thanking you in advance.

Very truly yours,

Ned Loomis

RE: Application for Water Permit No. ~~27~~-8283
Quigley Ranch Partnership
Quigley Creek

Dear Loren:

Blaine County is lodging a protest against the issuance of the above water permit.

Blaine County requires the issuance of the following permits before the project can proceed: subdivision plat, Conditional Use Permit for an outdoor recreation facility (golf course) and a Stream Alteration Permit for the dams/ponds and re-routing of Quigley Creek. To date the County has not been contacted by the Quigley Ranch Partnership on any phase of the proposed development.

From the limited information on your application form, it would appear that major changes to the environment/ecology of Quigley Creek are proposed. As these are public waters, and used by the residents of Blaine County, more information needs to be provided to us.

Re: Application for Permit No.37-8283

Gentlemen:

The Department of Water Resources acknowledges receipt of your water right application for permit. The application has been assigned identification No.37-8283. Please refer to this number in all further correspondence.

This office is currently in the process of advertising the application in the Wood River Journal on 12/04 & 12/11/86. The advertisement will be published for two weeks, and a period of ten days following the second publication will be allowed for the submittal of protests.

If the application is protested, you will be sent a copy of the protest. The protest must be resolved before the application is approved or denied. If the protest is not resolved voluntarily, this Department will conduct a conference and/or hearing on the matter.

If the application is not protested, it will be forwarded to our state office in about five weeks. State office personnel will conduct a complete review prior to final processing of the application and will notify you of the outcome of this review. When a permit is issued, you will be sent a copy. A typical processing time for an unprotested application is about eight weeks.

Enclosed please find your receipt no. 38707 for the amount of \$145.00.

Please feel free to contact this office if you have any questions regarding this procedure.
