ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that I have examined Application for Permit to appropriate the public waters of the State of Idaho No. 37-8271, and said application is hereby APPROVED.

1. Approval of said application is subject to the following limitations and conditions:

- a. SUBJECT TO ALL PRIOR WATER RIGHTS.
- b. Proof of construction of works and application of water to beneficial use shall be submitted on or before September 1, 19 88.
- c. The rate of diversion, if water is to be used for irrigation under this permit, when combined with all other water rights for the same land shall not exceed 0.02 cubic feet per second for each acre of land.
- d. Other:
Permit holder shall commence the excavation or construction of diverting works within one year of the date this permit is issued and shall proceed diligently until the project is complete.
Prior to the diversion of water under this permit a flow measurement port or other device as specified by the Department shall be installed to provide for the installation of measuring equipment and the determination of the rate of diversion by the Department.
Assignment or sale of this permit is subject to a determination by the Department that the permit holder has proceeded to develop the permit with due diligence and without speculation.
Return flow if discharged to a subsurface system must be authorized by a separate injection well permit, and return flow if discharged to a surface water system shall meet Idaho Water Quality Standards.
Use of water under this permit shall be non-consumptive.
Use of water under this right is subject to policies set forth in the State of Idaho Water Plan, including Policy No. 32F.
Use of water under this permit does not authorize expansion of the existing fish facility.

Witness my hand this 11th day of August, 1986.

E. NARRATIVE/REMARKS/COMMENTS

FILE: 37-08271

FROM: Amanda Folsom

DATE: November 24, 2000

I met with Bob Esselman and Roger Elmore on May 15, 2000. Both men are employees at the Hayspur Fish Hatchery in Carey. The hatchery uses water from Loving Creek, an unnamed spring, and several wells on the property. This is a list of the findings that I have discovered after the field exam:

1. License 37-07038 is the same well described in this permit, 37-08271.
2. 37-07038 was licensed for an artesian well at 2cfs. The measuring device was waived because the artesian flow was too low, and because all of the water used by the hatchery is combined at the water house, so a measurement of the outflow would not show how much the wells are producing individually.
3. Fish kills were happening at the hatchery because of insufficient water from Loving Creek and an unnamed spring. Therefore, a pump was installed on the artesian well (Permit 37-08271), along with two other wells being drilled (Permit 37-08331). A total of three wells are used for the fish hatchery.
4. A fourth well was drilled with a 1½hp pump used for the offices and 2 homes. I couldn't find a claim for the domestic use, however, the water is not used for the fish hatchery.
5. This water is to be a non-consumptive use.
6. The water use period is year round, but understood to only be used in the event that the surface water is not sufficient.
7. On the hatchery to date, there are:
 - Six fish race ways – 280gpm/each
 - Twelve ponds – 250gpm/each
 - One incubator house – 100gpm

The water flows from the three wells or from Loving Creek to the water house where all the water is combined. There is a huge vertical culvert on the roof of the water house where the water is aerated before it passes along to the raceways and ponds. All of the water is then combined again as it flows back into Loving Creek. I was unable to get a measurement from the wells or from the out flow. The wells are artesian, so I used the theoretical rate. I used the well logs to help with the calculations. The flow rate came to 3.00cfs, which was permitted, and it is what I am recommending. There is no consumption for this use.

LAPSE NOTICE

Dear Permit Holder:

Under the provisions of Section 42-218a of the Idaho Code, you are hereby notified that the above referenced permit has lapsed since the Department could not approve the request for extension of time you submitted.

You can file a new application within one year of the time you actually intend to develop a water right. Since Idaho is now under a mandatory permit procedure to develop a water right, the new application will provide an additional period of time for development, although the priority date will be later in time.

Should you wish to file a proof of beneficial use on that portion of the permit that you have developed, you must do so within 60 days of the date of this lapse notice. However, your priority date is being penalized one day for every day the proof is received late.

If you have any questions or if we can be of any further assistance, please feel free to contact our office.

Sincerely,

L. Glen Saxton
Chief, Water Allocation Bureau

Re: Permit No. 37-08271

Dear Permit Holder:

Enclosed is a copy of the denied request for extension of time which you submitted to the department in connection with the above referenced permit. Section 42-204, Idaho Code, provides that the department can only grant one extension of time based on due diligence. Please note that the department has previously granted an extension of time in connection with this permit.

I suggest that you file the enclosed proof of beneficial use form for that portion of the development completed. From your request for extension of time, the Department has determined that the only requirement left in completing the project is to place the flow measurement port. The Department will accept the proof of beneficial use with a reminder to place the flow measurement port sometime before the field exam. The exam will likely not be done this summer.

If you have any questions or if we can be of any further assistance, please feel free to contact us or any of our regional offices.

Sincerely,

L. GLEN SAXTON

REQUEST FOR EXTENSION OF TIME

TO PROVIDE ADDITIONAL TIME IN WHICH TO SUBMIT PROOF OF
BENEFICIAL USE FOR A WATER RIGHT PERMIT

The Idaho Department of Water Resources will consider this form as a request that the permit holder(s) be granted an additional period of time in which to complete development of water right under the provisions of Section 42-204, Idaho Code.

Permit No. 37-08271Name(s) of Permit Holder: State of Idaho, Department of Fish and GameMailing Address: P. O. Box 25, Boise, ID 83707-0025Date Proof is Due September 1, 1992 Telephone No. 334-3730

Describe what work has been completed toward the development of this water right:
(This must be filled out! If no work has been completed, show "none".)

All work is complete with the exception of installing a flow measurement
port. (New brood ponds are constructed, pump installed in well and new
pipeline installed.)

Costing \$ 100,000 (Approx)

The permit holder(s) has been unable to complete the remainder of the work for the following reasons:

A meter or flow measurement port was not installed during initial
construction. The fish loading is so great the pump may not be
shut off to install a measuring device without resulting in a fish kill.
The brood fish are in an isolated contaminant-free water source and could
not be temporarily moved.

Permit holder(s) request an extension to July 1, 19 93

FEE: \$15.00

(Signature)*

*If other than permit holder, Power of Attorney must be supplied.

ACTION OF THE DEPARTMENT OF WATER RESOURCES

IT IS HEREBY ORDERED that the above request for extension of time be DENIED
pursuant to Section 42-204, Idaho Code which only authorizes one
extension of time based on due diligence.

PROOF DUE NOTICE

RE: PERMIT NO. 37-08271

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before September 1, 1992. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

LAPSE NOTICE

RE: PERMIT NO. 37-08271

Dear Permit Holder:

You are hereby notified that under the provisions of Section 42-218A, Idaho Code, the above referenced water permit has lapsed. This office did not receive either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time. You were provided the proper form in our proof due notice to you dated June 30, 1988.

Your permit cannot be reinstated unless you submit proof of beneficial use or submit an extension of time request showing reasonable cause for delay. Either the completed proof of beneficial use submittal (including the examination fee or a completed field examination report) or the extension request form together with the \$15 fee must be received by this department within sixty days of the date of mailing of this lapse notice or the permit will no longer be of any force or effect.

A proof of beneficial use form and a request for extension of time form are again enclosed for your use. Please note that only one extension of time can be granted unless the project has not been completed because of lack of a necessary approval by a governmental agency or by litigation which might bring title to the water in question.

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 37-8271

DEAR PERMIT HOLDER:

ENCLOSED IS A COPY OF YOUR APPROVED APPLICATION FOR PERMIT. WE DIRECT YOUR ATTENTION TO THE CONDITIONS OF APPROVAL ON THE FOURTH PAGE.

YOU SHOULD BE AWARE THAT THE GROUNDWATER YOU PROPOSE TO DIVERT IS LOCATED WITHIN A DRAINAGE BASIN WHERE SURFACE WATERS ARE REGULATED DURING THE MONTHS OF LOW FLOW. IT IS POSSIBLE THAT DIVERSION OF GROUNDWATER MAY HAVE AN ADVERSE IMPACT ON THESE SURFACE WATER FLOWS. INFORMATION AVAILABLE TO US AT THIS TIME DOES NOT WARRANT REFUSING TO ISSUE PERMITS IN YOUR AREA, BUT WE DO CAUTION THAT DIVERSIONS OF GROUNDWATER ARE NOT ALLOWED TO DEplete FLOWS AVAILABLE FOR SURFACE WATER USERS WITH EARLIER PRIORITY DATES. SITING YOUR WELL AS FAR FROM SURFACE SOURCES AS POSSIBLE AND CASING OUT UPPER WATER PRODUCING ZONES MAY REDUCE THE POTENTIAL OF INTERFERENCE.

BE SURE TO NOTE THE SPECIAL CONDITION REQUIRING YOU TO INSTALL A MEASURING DEVICE, OR A FLOW MEASUREMENT PORT TO PROVIDE FOR THE INSTALLATION OF MEASURING EQUIPMENT BY THE DEPARTMENT. ENCLOSED PLEASE FIND A LIST OF MEASURING DEVICE OPTIONS, AND SPECIFICATIONS FOR THE INSTALLATION OF THE FLOW MEASUREMENT PORT.

PLEASE NOTE THE REQUIREMENT THAT AS A PERMIT HOLDER YOU MUST COMMENCE THE EXCAVATION OR CONSTRUCTION OF DIVERTING WORKS WITHIN ONE YEAR OF THE DATE THE PERMIT WAS ISSUED, AND YOU MUST PROCEED DILIGENTLY UNTIL THE PROJECT IS COMPLETED. THE ENCLOSED BLUE CARD MUST BE COMPLETED AND RETURNED TO THIS OFFICE AS SOON AS YOU COMMENCE CONSTRUCTION, NO LATER THAN ONE YEAR FROM THE DATE THE PERMIT WAS APPROVED.

Re: Application for Permit No. 37-8271

Gentlemen:

The Department of Water Resources acknowledges receipt of your water right application for permit. The application has been assigned identification No. 37-8271. Please refer to this number in all further correspondence.

This office is currently in the process of advertising the application in the Wood River Journal of Hailey, ID. The advertisement will be published for two weeks, and a period of ten days following the second publication will be allowed for the submittal of protests.

If the application is protested, you will be sent a copy of the protest. The protest must be resolved before the application is approved or denied. If the protest is not resolved voluntarily, this Department will conduct a conference and/or hearing on the matter.

If the application is not protested, it will be forwarded to our state office in about five weeks. State office personnel will conduct a complete review prior to final processing of the application and will notify you of the outcome of this review. When a permit is issued, you will be sent a copy. A typical processing time for an unprotested application is about eight weeks.

Enclosed please find your receipt no. 40169 for the amount of \$85.00.

Please feel free to contact this office if you have any questions regarding this procedure.

Very truly yours,
