BEFORE THE DEPARTMENT OF WATER RESOURCES
OF THE
STATE OF IDAHO

IN THE MATTER OF PERMIT NO.)
37-08269 IN THE NAME OF THE)
CITY OF KETCHUM)
_____)

**REINSTATEMENT
ORDER**

This matter having come before the Idaho Department of Water Resources (department), the department makes the following Findings of Fact, Conclusions of Law and Order:

FINDINGS OF FACT

1. On July 1, 1986, the department issued Permit No. 37-08269 to Northwood, Inc. (permit holder) authorizing the diversion of 5.0 cfs of ground water for domestic, fire protection and irrigation purposes within parts of the SE1/4 Section 12, T4N, R17E, B.M., Blaine County, Idaho. A condition of permit approval required the permit holder to submit proof of construction of works and application of water to beneficial use (proof) on or before August 1, 1988.

2. On May 31, 1988, the department sent a proof due notice to the permit holder.

3. On August 5, 1988, the permit holder entered into an agreement with the city of Ketchum and assigned Permit No. 37-08269 to the city.

4. On August 11, 1988, the department sent a lapse notice to the permit holder.

5. On August 18, 1988, the city of Ketchum filed the required proof with the department. The department inadvertently misfiled the proof in pending Application for Permit File No. 37-08195 also in the name of the city of Ketchum. The department microfilmed Permit File No. 37-08269 and removed it from the active records, since it appeared the city of Ketchum had not submitted the required proof.

6. On January 28, 1994, the department discovered that the proof of beneficial use for Permit No. 37-08269, in fact, had been filed with the department but had been inadvertently filed in Application for Permit File No. 37-08195.

RECEIVED

JUN 29 1994

CONCLUSIONS OF LAW

1. Section 42-218a. subsection 1, Idaho Code, provides in pertinent part as follows:

That within sixty (60) days after such notice of lapsing the department may, upon a showing of reasonable cause, reinstate the permit with the priority advanced a time equal to the number of days that said showing is subsequent to the date for proof;

2. The city of Ketchum has shown reasonable cause for the department to reinstate the permit by submitting proof to the department on August 18, 1988.

3. The department should reinstate Permit No. 37-08269 and should advance the priority the number of days which proof was late.

ORDER

IT IS THEREFORE, HEREBY ORDERED that Permit No. 37-08269 in the name of the city of Ketchum is **REINSTATED**.

IT IS FURTHER, HEREBY ORDERED that priority of Permit No. 37-08269 be advanced to April 28, 1986.

Dated this 22nd day of February, 1994.

L. GLEN SAXTON, Chief
Water Allocation Bureau

AGREEMENT

Department of Water Resources

AGREEMENT made this 5th day of August, 1988, by and between NORTHWOOD, INC., an Idaho corporation, of P.O. Box 1440, Sun Valley, Idaho, 83353, and NORTHWOOD ASSOCIATES, an Idaho limited partnership, of P.O. Box 1440, Sun Valley, Idaho, 83353 (hereinafter "Northwood") and the CITY OF KETCHUM, IDAHO, a municipal corporation, of P.O. Box 2315, Ketchum, Idaho, 83340, (hereinafter "Ketchum").

R E C I T A L S :

This Agreement is predicated upon the following facts:

1. On December 19, 1983, Northwood and Ketchum entered into an Annexation, Services and Development Agreement concerning the property known as The Northwood P.U.D. Subdivision;

2. Pursuant to that Annexation, Services and Development Agreement Northwood agreed to build a water well, pump system and associated telemetry and upon final inspection and approval to dedicate the same to Ketchum in consideration for the provision by Ketchum of domestic flows and fire flows with a minimum residual water pressure of twenty pounds per square inch of 3,500 gallons per minute to the Light Industrial large lot and 3,500 gallons per minute to the General Residential low lot and 1,250 gallons per minute to the Single Family Residential lots;

3. Northwood has constructed the Northwood well and pumphouse and associated telemetry and has connected the same to the municipal water system and the City of Ketchum has retained J-U-B Engineers of Twin Falls to review and approve all facets of the project including

JUN 29 1994

the awarding of bids, purchase of materials and equipment and construction of the well, pump house, associated telemetry and connection to the municipal system. J-U-B Engineers has also reviewed all material, equipment and work which has been paid for and has certified in writing to Ketchum that the materials, equipment and work conform to the plans and specifications and are acceptable to Ketchum. Ketchum has relied upon J-U-B Engineers to determine the conformance to the plans and specifications and to determine the acceptability of the various elements of the project and Northwood has not provided any guaranties or warranties concerning the project;

4. Northwood, Inc. has applied for and received permit No. 37-8269 to appropriate the public waters of the State of Idaho, a copy of which is attached hereto as Exhibit "A", for a total of ~~5.8~~^{5.0} cubic feet per second which is allocated as .5 CFS for domestic purposes, 5.0 CFS for fire protection purposes and .3 CFS for lawn watering purposes.

5. Pursuant to the above-mentioned Annexation, Services and Development Agreement, Northwood agreed to construct an 8-inch water well to provide water for the landscaping of the Northwood P.U.D. Subdivision, and Northwood agreed to dedicate the same to Ketchum in exchange for Ketchum's agreement to lease back the well to Northwood for a period of fifty (50) years. In addition, Ketchum has agreed to lease Northwood a total of .3 CFS of water for lawn watering purposes for the same fifty-year period. The water right for said .3 CFS is a part of the water right being transferred to Ketchum from Northwood pursuant to this Agreement.

JUN 29 1984

NOW, THEREFORE, in consideration of the premises and the mutual promises made by the parties and for other good and valuable consideration, the receipt of which is hereby acknowledged, it is agreed:

1. Northwood hereby assigns and transfers to Ketchum any and all of Northwood's right, title, and interest in and to the well, pumphouse and associated telemetry commonly known as the Northwood well located in the Northwood P.U.D. Subdivision. The foregoing assignment and transfer is made without any recourse whatsoever to Northwood and without any representation or warranty, express or implied, of any nature whatsoever.

2. Ketchum shall indemnify and save Northwood harmless from any and all claims, demands, actions, causes of action, suits, proceedings, damages, liabilities, costs and expenses of every nature whatsoever arising from or connected in any manner, no matter how remotely, to the ownership, operation, or use of the Northwood well, pumphouse and associated telemetry.

3. Ketchum agrees that Northwood shall be permitted to landscape and maintain the grounds surrounding the Northwood wellhouse for a period of fifty (50) years from the date of this Agreement. Northwood agrees to hold Ketchum harmless from liability for the acts of Northwood's agents and employees while engaging in said landscaping and grounds maintenance.

4. Northwood hereby assigns and transfers to Ketchum any and all of Northwood's right, title, and interest in and to its Permit No. 37-8269 to appropriate the public waters of the State of Idaho.

JUN 29 1994

The foregoing assignment and transfer is made without any recourse whatsoever to Northwood and without any representation or warranties express or implied of any nature whatsoever. Ketchum shall indemnify and hold Northwood harmless from any and all claims, demands, actions, causes of action, suits, proceedings, damages, liabilities and costs and expenses of every nature whatsoever relating in any manner, no matter how remotely, to the assignment or use of Permit No. 37-8269.

5. Northwood hereby assigns and transfers to Ketchum any and all of Northwood's right, title and interest in and to the 8-inch irrigation well located in the Northwood P.U.D. Subdivision. Ketchum hereby agrees to lease said well and a water right for .3 CFS back to Northwood for a period of fifty (50) years in consideration of Northwood's agreement to bear all expenses of operation, maintenance, replacement and all other costs related to said irrigation well. Ketchum agrees that Northwood shall have the right to assign the lease for said irrigation well and said water right to the master homeowners' association created to manage the Northwood P.U.D. Subdivision.

6. All taxes and governmental charges and fees, including, without limitation, any and all transfer taxes, sales taxes, recording fees, user fees, permit fees, examination fees, or any other costs or transactions relating to the transaction evidenced by this Agreement shall be paid by Ketchum.

7. This Agreement shall be binding upon the successors and assigns of the parties.

JUN 29 1994

8. In the event any legal action or court or arbitration proceeding is brought by either party against the other under the terms of this Agreement, the prevailing party shall be entitled to recover the fees of its attorneys in such action or proceeding, including costs on appeal, if any, in such amount as the court may adjudge reasonable as attorneys' fees and costs. In addition, should it be necessary for any party to employ legal counsel to enforce any of the provisions of this Agreement, through measures which do not involve legal actions, court or arbitration proceedings, then the other party agrees to pay all attorneys' fees and the costs reasonably incurred by the party who was so required to employ legal counsel.

9. No presumption shall exist in favor of or against any party to this Agreement as a result of the drafting and preparation of this Agreement.

IN WITNESS WHEREOF, the parties have signed this Agreement the day and year first above written.

cubic feet per second acre feet per annum
6. Proposed diverting works:
a. Description of ditches, flumes, pumps, headgates, etc. One deep well turbine pump, 150 H.P. Motor, and supply line to existing Northwood water distribution system.
b. Height of storage dam - feet; active reservoir capacity - acre-feet; total reservoir capacity - acre-feet; period of year when water will be diverted to storage: - to - inclusive.
c. Proposed well diameter is 16 inches; proposed depth of well is 52 feet.
d. Is ground water with a temperature of greater than 90°F being sought? No
7. Time required for the completion of the works and application of the water to the proposed beneficial use is 2 years (minimum 1 year).

Exhibit

A

JUN 29 1986

8. Description of proposed uses (if irrigation only, go to item 9):

- a. Hydropower; show total feet of head and proposed capacity in KW. N/A
- b. Stockwatering; list number and kind of livestock. N/A
- c. Municipal; show name of municipality. N/A 85 max # of units
- d. Domestic; show number of households. 21 Single Family Lots, 8 Acres of Multiple Family Lot and 14.5 Acres of Light Industrial Use included, adequate w.
- e. Other; describe fully. Water will be used to provide fire protection for residents of the Northwood P.U.D. Subdivision in addition to providing domestic supply. All irrigated acreage shown below is for lawn watering within the subdivision.

9. Description of place of use:

- a. If water is for irrigation, indicate acreage in each subdivision in the tabulation below.
- b. If water is used for other purposes, place a symbol of the use (example: D for Domestic) in the corresponding place of use below. See instructions for standard symbols.

TWP	RANGE	SEC.	NE 1/4				NW 1/4				SW 1/4				SE 1/4				TOTALS
			NE 1/4	NW 1/4	SW 1/4	SE 1/4	NE 1/4	NW 1/4	SW 1/4	SE 1/4	NE 1/4	NW 1/4	SW 1/4	SE 1/4	NE 1/4	NW 1/4	SW 1/4	SE 1/4	
4N	17E	12													6	7	4	3	20
4N	17E	12													F	F	F	F	
4N	17E	12													D	D	D	D	

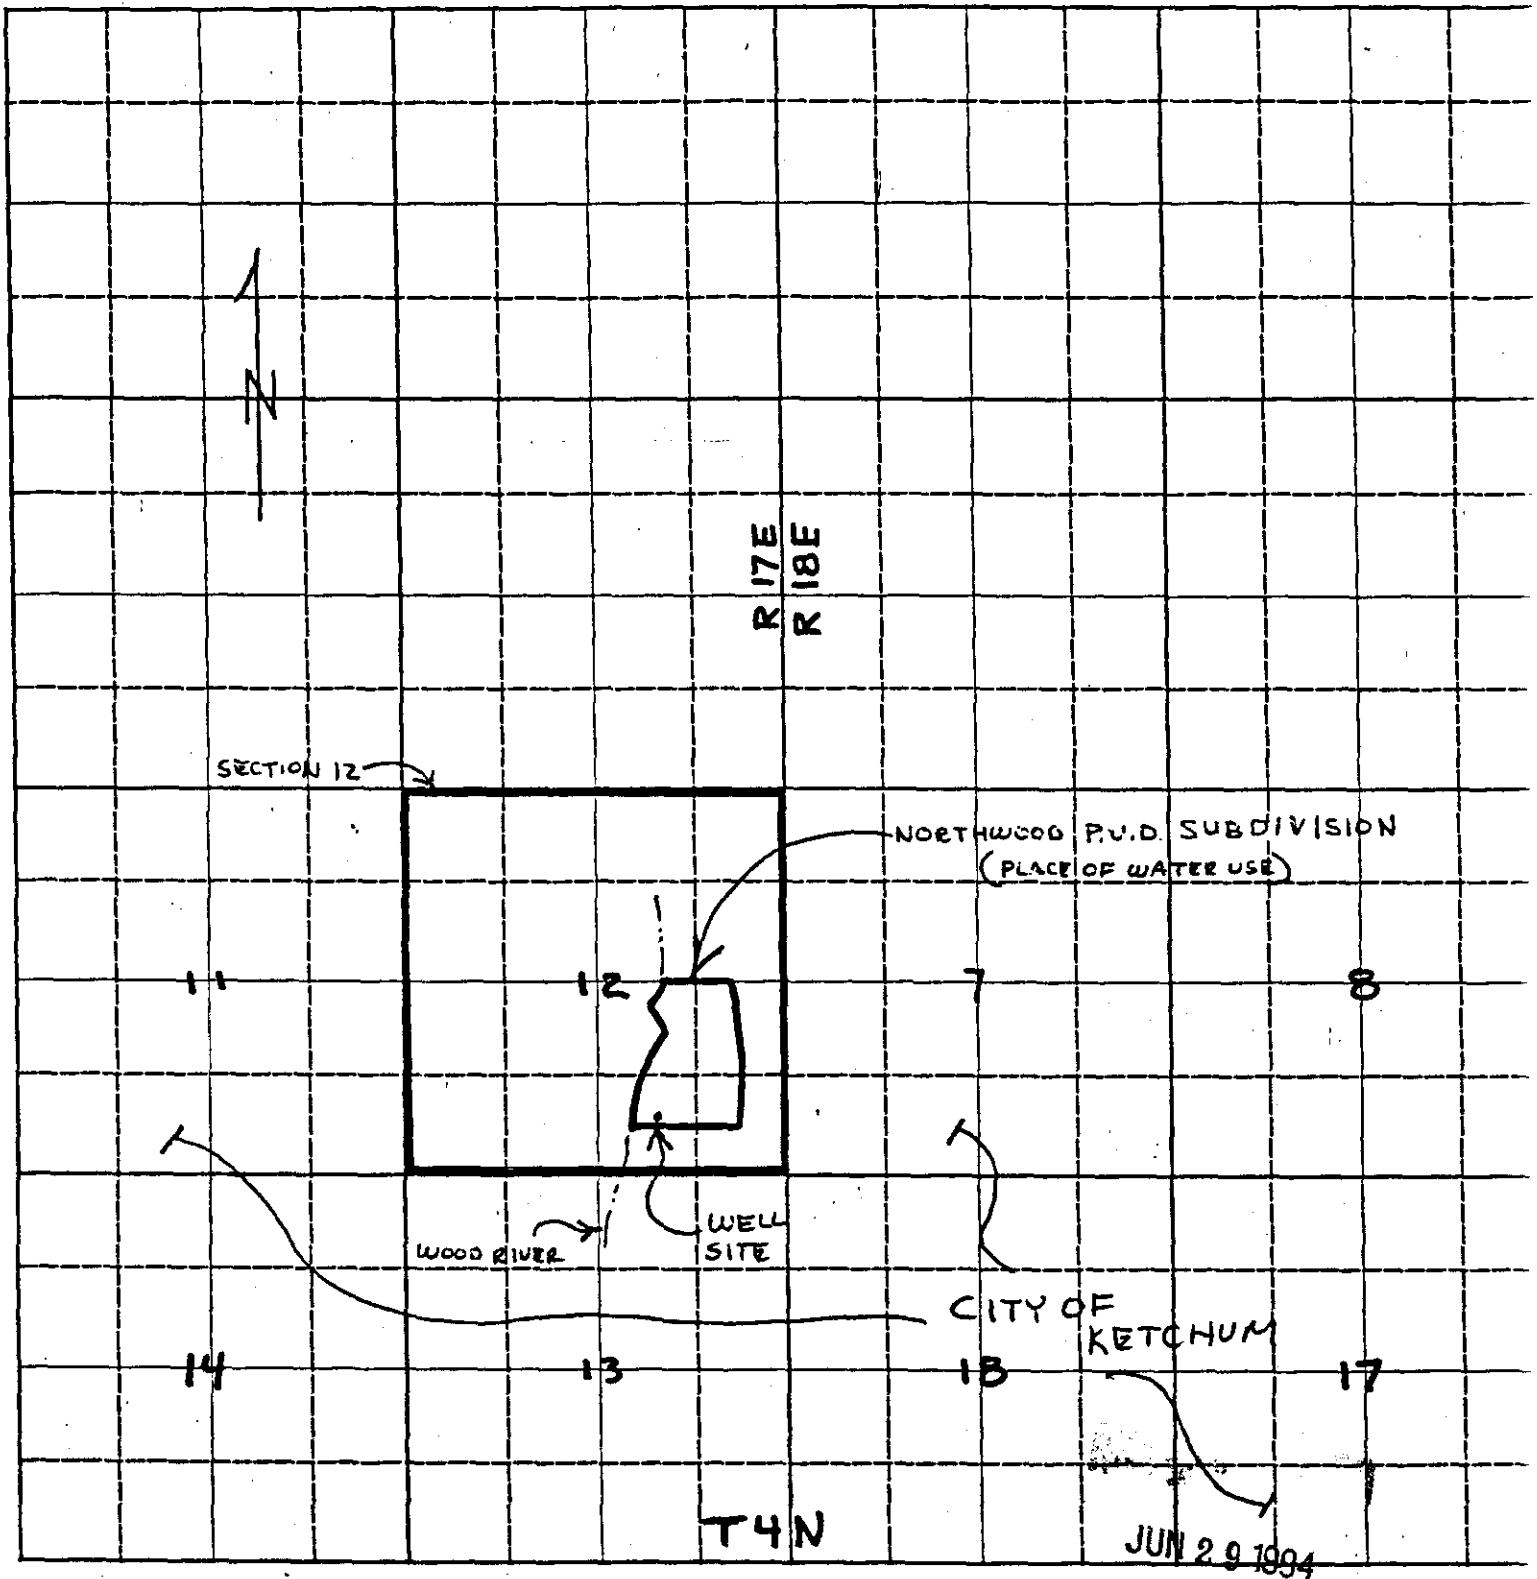

Total number of acres to be irrigated 20

JUN 29 1994

10. Describe any other water rights used for the same purposes as described above. None

11. a. Who owns the property at the point of diversion? Northwood, Inc.
- b. Who owns the land to be irrigated or place of use? Northwood, Inc. and private citizens.
- c. If the property is owned by a person other than the applicant, describe the arrangement enabling the applicant to make this filing. Northwood, Inc. will supply water for domestic and fire protection needs in the Northwood Planned Unit Development (P.U.D.) Subdivision.
12. Remarks: Northwood, Inc. has developed 54 acres into a Planned Unit Development (P.U.D.) composed of 21 single family lots, 8 acres of multiple family lots, and 14.5 acres of light industrial use. Even though the Northwood Subdivision has been annexed into the city limits of Ketchum, the City of Ketchum Municipal Water System cannot supply water this subdivision due to a recent court ruling. As a result, the developer of the subdivision, Northwood, Inc., intends to provide domestic & fire flow protection to the residents of the Northwood P.U.D. Subdivision. The size of construction of buildings to be located in the subdivision warrant a high fire flow, hence the need for a total of 5 cfs of water.

13. Map of proposed project: show clearly the proposed point of diversion, place of use, section number, township and range number.

Scale: 2 inches equal 1 mile.

BE IT KNOWN that the undersigned hereby makes application for permit to appropriate the public waters of the State of Idaho as herein set forth.

ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that I have examined Application for Permit to appropriate the public waters of the State of Idaho No. 37-8269, and said application is hereby APPROVED.

1. Approval of said application is subject to the following limitations and conditions:

a. SUBJECT TO ALL PRIOR WATER RIGHTS.

b. Proof of construction of works and application of water to beneficial use shall be submitted on or before August 1, 19 88.

c. The rate of diversion, if water is to be used for irrigation under this permit, when combined with all other water rights for the same land shall not exceed 0.02 cubic feet per second for each acre of land.

d. The water right acquired under this permit if for hydropower purposes shall be junior and subordinate to all rights to the use of water, other than hydropower, within the State of Idaho that are initiated later in time than the priority of this permit and shall not give rise to any right or claim against any future rights to the use of water, other than hydropower, within the State of Idaho initiated later in time than the priority of this permit.

e. Other: Permit holder shall commence the excavation or construction of diverting works within one year of the date this permit is issued and shall proceed diligently until the project is complete.

Irrigation use under this permit is authorized only in connection with a domestic use.

Prior to the diversion of water under this permit a flow measurement port or other device as specified by the Department shall be installed to provide for the installation of measuring equipment and the determination of the rate of diversion by the Department.

Use of water under this permit is subject to control by the watermaster of State Water District No. 37, Big Wood River.

Witness my hand this 1st day of July, 1986.

E. NARRATIVE/REMARKS/COMMENTS

Well & pump, mainline to Ketchum/Sun Valley water system. System has six wells. This is one of the 3 primary wells, operating nearly continuously. The variable-speed motor allows the well to deliver a variety of flow rates to meet changing water needs. ~~full~~
This well has been operated by the city since its first use in March of 1988; it was never used for the limited purposes stated on the permit. Therefore, recommend usage be changed to municipal, with flow and volume amounts reflecting the historic use of the well. Although no volume will be licensed, city records show between 357 million and 475 million gallons a year from 1989 thru 1993 (1101.7 to 1457.7 AFA). Well was used some before March of '88, but has been fully on line since then.

This well was intended to be included under Permit 37-7682, but problems with the developer prevented that. So the developer obtained his own permit for this well, but then assigned the permit to the city before proof was filed. So the "Northwood Well" is recommended for licensing here rather than under 7682.

Photos & pump data were obtained by Dallas Tryon while conducting licensing exam for 37-8202.

P/U is the cities of Ketchum & Sun Valley, plus surrounding areas served by this system.

The well licensed under 37-08202 is 30' or so NE of the 8269 well. The two wells are not connected, & are used for different purposes.

Have conditions of permit approval been met? ☒ yes ☐ no

RE: WATER RIGHTS - CITY OF KETCHUM

Dear Mr. Ballard:

I have reviewed your letter dated February 14, 1994 in connection with the above referenced matter. Our meeting on February 10, 1994 primarily dealt with lapsed Permit No. 37-08269 and pending Application No. 37-08195.

With respect to the other water rights identified in your letter, I checked to determine whether Snake River Basin Adjudication (SRBA) claims have been filed. I determined that claims have been filed on the rights you have shown as 37-04413, 37-04414, 37-04415, 37-04416, 37-07150 and 37-07682. Beyond this checking, however, I did not further review these rights. Adjudication claims have not been filed on Permit No. 37-08202, lapsed Permit No. 37-08269 nor pending Application No. 37-08195.

As I indicated to you during our February 10 meeting, the department needs to take the following actions with respect to lapsed permit no. 37-08269:

- a) Reinstate the permit since the permit inadvertently lapsed due to a filing error by the department. Enclosed is an order reinstating the permit and advancing the priority, since the proof was submitted late to the department.
- b) The department should refund \$25 of the \$225 license examination fee submitted by the city, since the fee submitted was based on 5.8 cfs rather than the permitted rate of 5.0 cfs. The department will send this refund to you under separate cover.
- c) The department will change its records to show the assignment of the permit to the city of Ketchum by Northwood.
- d) After the department conducts a field examination to determine the extent of beneficial use under this permit, the department may request amendment of the permit to show

JUN 29 1994

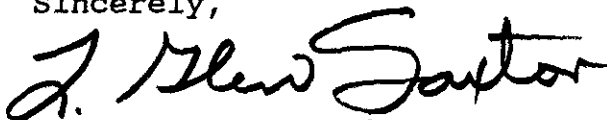

"municipal" use.

The department needs to further review pending Application No. 37-08195 relative to the "municipal" use shown on the amended application and relative to the issuance of a permit.

It is my understanding that future correspondence in connection with lapsed Permit No. 37-08269 and pending Application No. 37-08195 should be directed to you rather than to the city of Ketchum.

You should contact our Twin Falls office in you have questions relative to the SRBA adjudication claims.

Sincerely,

A handwritten signature in black ink, appearing to read "L. Glen Saxton". The signature is fluid and cursive, with the first name "L." being small and the last name "Saxton" being larger and more prominent.

RE: Permit #37-8269

Dear Rita:

As the result of a recent agreement between Northwood Inc. and the City of Ketchum, we would like to file for beneficial use on permit #37-8269. I have attached for your review, copies of our agreement regarding this matter along with a check for the license examination fee. Please let me know if you need any additional information. My telephone number is 726-7825. Thank you.

Sincerely,

Steven A. Hansen

Attn: Jim Johnson
Re: 37-8195; 37-7682; and 37-8269

Gentlemen:

Enclosed please find completed Trust Water Information Questionnaires as regards application for permit No. 37-8195 and permit No. 37-7682. If you have further inquiry in these matters, kindly contact Steve Hansen at 726-7825.

Please note that as regards application No. 37-8195, corrections should be made to the amended application, at line 5, to show that total quantity to be appropriated is 2.75 cfs. instead of 1.5 cfs. Mr. Johnson has previously spoken with Mr. Hansen as regards this correction.

Finally, this is to inquire as to the status of permit No. 37-8269. It is my understanding that there has been a problem with changing the nature of use under this permit from a mixed use to one that is municipal only. Your advice as to the status of this permit would be appreciated.

Very truly yours,

LAWSON & PEEBLES

RE: PERMIT NO. 37-08269 LAPSE NOTICE

Dear Permit Holder:

You are hereby notified that under the provisions of Section 42-218A, Idaho Code, the above referenced water permit has lapsed. This office did not receive either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time. You were provided the proper form in our proof due notice to you dated July 31, 1988.

Your permit cannot be reinstated unless you submit proof of beneficial use or submit an extension of time request showing reasonable cause for delay. Either the completed proof of beneficial use submittal (including the examination fee or a completed field examination report) or the extension request form together with the \$15 fee must be received by this lapse notice or the permit will no longer be of any force of effect.

A proof of beneficial use form and a request for extension of time form are again enclosed for your use. Please note that only one extension of time can be granted unless the project has not been completed because of lack of a necessary approval by a governmental agency or by litigation which might bring title to the water in question.

PROOF DUE NOTICE

RE: Permit No. 37-8269

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before August 1, 1988. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a completed field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this Department on or before the above described proof due date, or the permit will no longer be of any force nor effect.

Sincerely,

RYA FLECK
Secretary/Records Manager

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 37-8264

DEAR PERMIT HOLDER:

ENCLOSED IS A COPY OF YOUR APPROVED APPLICATION FOR PERMIT. WE DIRECT YOUR ATTENTION TO THE CONDITIONS OF APPROVAL ON THE FOURTH PAGE.

BE SURE TO NOTE THE SPECIAL CONDITION REQUIRING YOU TO INSTALL A MEASURING DEVICE, OR A FLOW MEASUREMENT PORT TO PROVIDE FOR THE INSTALLATION OF MEASURING EQUIPMENT BY THE DEPARTMENT. ENCLOSED PLEASE FIND A LIST OF MEASURING DEVICE OPTIONS, AND SPECIFICATIONS FOR THE INSTALLATION OF THE FLOW MEASUREMENT PORT.

PLEASE NOTE THAT ONE OF THE CONDITIONS OF APPROVAL IS THAT THE DIVERSION OF WATER UNDER THIS PERMIT IS SUBJECT TO THE CONTROL OF A STATE WATERMASTER. THE REASON FOR THIS IS THAT SOME HYDROLOGIC STUDIES OF RIVERS IN THE STATE INDICATE THAT WELLS CONSTRUCTED IN THE SAND AND GRAVEL AQUIFERS OF THE RIVER AREAS MAY INTERCEPT WATER THAT OTHERWISE WOULD HAVE ENTERED THE RIVER. HOWEVER, THE EXTENT OF THE ALLUVIAL MATERIAL THICKNESS IS NOT KNOWN NOR IS THE PRECISE DEGREE OF INTERFERENCE OF WELLS WITH SURFACE WATER FLOWS. STUDIES DO INDICATE THAT AS MUCH AS 50% OF THE WATER DIVERTED FROM A WELL LOCATED ONE MILE FROM THE RIVER WOULD HAVE REACHED THE RIVER IF IMPERMEABLE LAYERS OF CLAY OR HARD ROCK DO NOT SEPARATE THE RIVER FROM THE AQUIFER FROM WHICH THE WELL IS PRODUCING.

THE INFORMATION AVAILABLE TO US AT THIS TIME DOES NOT WARRANT REFUSING TO ISSUE YOU A PERMIT BUT DOES MERIT CAUTIONING YOU THAT ANY PERMIT ISSUED BY THE DEPARTMENT CANNOT DEPRIVE WATER USERS, WITH EARLIER RIGHTS, OF THEIR WATER SUPPLY.

WEL PERMIT NO. 17-47589

2

THE REASON FOR CONDITIONING THE PERMIT AND EXPLAINING THE POTENTIAL INTERFERENCE PROBLEM IS TO MAKE YOU AWARE THAT FUTURE TESTS MAY DEFINITELY SHOW THAT DIVERSION OF WATER FROM YOUR WELL SHOULD BE ADMINISTERED TOGETHER WITH THE OLDER SURFACE WATER PRIORITIES OF THE RIVER AND ITS TRIBUTARIES. IF THIS WERE TO OCCUR, IT WOULD ESSENTIALLY MEAN THAT THERE WOULD NOT BE WATER AVAILABLE FOR A DIVERSION FROM YOUR WELL SINCE THE SURFACE WATER SYSTEM IS FULLY APPROPRIATED. BY LOCATING YOUR WELL AS FAR FROM THE RIVER AS POSSIBLE AND BY CASING OUT DEEPER WATER PRODUCING ZONES AS THE WELL IS CONSTRUCTED, YOU MAY BE ABLE TO REDUCE THE AMOUNT OF INTERFERENCE WITH THE RIVER.

PLEASE NOTE THE REQUIREMENT THAT AS A PERMIT HOLDER YOU MUST COMMENCE THE EXCAVATION OR CONSTRUCTION OF DIVERTING WORKS WITHIN ONE YEAR OF THE DATE THE PERMIT WAS ISSUED, AND YOU MUST PROCEED DILIGENTLY UNTIL THE PROJECT IS COMPLETED. THE ENCLOSED WORK CARD MUST BE COMPLETED AND RETURNED TO THIS OFFICE AS SOON AS YOU COMMENCE CONSTRUCTION, NO LATER THAN ONE YEAR FROM THE DATE THE PERMIT WAS APPROVED.

WE HAVE ENCLOSED A FORM ENTITLED "INSTRUCTIONS FOR PROOF OF BENEFICIAL USE". PLEASE READ THE INSTRUCTIONS CAREFULLY SINCE YOU MUST TAKE FURTHER ACTION TO DEVELOP THIS PERMIT INTO A LICENSE.

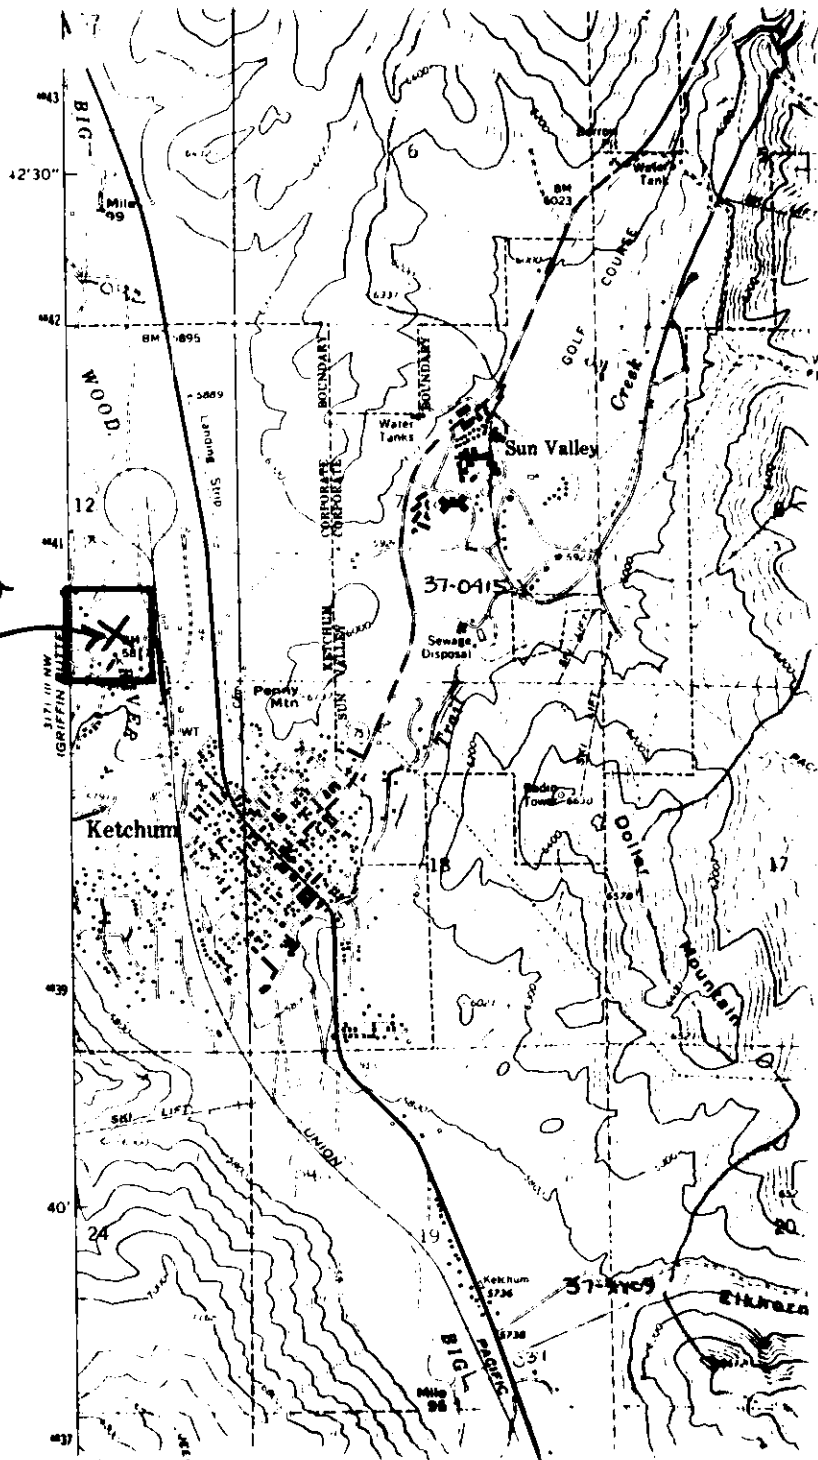

SINCERELY,

DAVID M. TUTTILL, JR., P.E.

INTER-DEPARTMENT MEMO — 1

FROM Kay Walker

DATE 6-24-86

TO Application for Permit No. 37-8269

SUBJECT Watermaster Control Recommendation

Pursuant to review of this application, I recommend that it be subject to watermaster control because of the close proximity of the well to the river and the shallowness of the well itself (52')

Re: Application for Permit No. 37-8269

Gentlemen:

The Department of Water Resources acknowledges receipt of your water right application for permit. The application has been assigned identification No. 37-8269. Please refer to this number in all further correspondence.

This office is currently in the process of advertising the application in the Wood River Journal. The advertisement will be published for two weeks, and a period of ten days following the second publication will be allowed for the submittal of protests.

If the application is protested, you will be sent a copy of the protest. The protest must be resolved before the application is approved or denied. If the protest is not resolved voluntarily, this Department will conduct a conference and/or hearing on the matter.

If the application is not protested, it will be forwarded to our state office in about five weeks. State office personnel will conduct a complete review prior to final processing of the application and will notify you of the outcome of this review. When a permit is issued, you will be sent a copy. A typical processing time for an unprotested application is about eight weeks.

Enclosed please find your receipt no. 40066_ for the amount of \$125.00.

Please feel free to contact this office if you have any questions regarding this procedure.

Very truly yours,

Loren D. Holmes, P. E.
Southern Region Supervisor

Hailey, ID 83333

Gentlemen:

Enclosed you will find a legal notice which we wish to have published on the dates indicated (once a week for two consecutive weekly issues) in your newspaper. We have allowed ample time for you to submit a galley proof to this office for review before the first publication date. If you cannot publish the notice on the proposed dates, please contact us immediately.

An affidavit of publication must be submitted to the Department along with the publication bill. Your cooperation is appreciated.

Please send the affidavit of publication and publication billing to this office before MAY 19, 1986.

Yours truly,

Mary A. Newby
Secretary
