RE: Permit No. 37-08220

Dear Permit Holder:

I am in receipt of the Proof of Beneficial Use and \$150.00 license examination fee you submitted in connection with the above referenced water right. Proof of Beneficial Use (copy enclosed) was filed on September 14, 1994, and no further documentation needs to be filed by you concerning this permit. Therefore, you are entitled to a refund of the \$150.00 license examination fee.

I have initiated the process to refund the \$150.00 fee. You should receive the refund within seven (7) and ten (10) days under separate cover.

Please be advised that Section 42-248, Idaho Code, which became affective on July 1, 1996, requires you or the owner of this water right to maintain current ownership and address records on file with the department. Please contact any office of the department for the proper form to file a change of ownership of a water right and/or a change in the address of the owner. Failure to maintain current records with the department could result in the assessment of a monetary penalty.

If you have any questions regarding this matter, please contact me at (208)327-7953.

Sincerely,

JULIE L. YARBROUGH

RE: Permit No. 37-08220

I am returning your Proof of Beneficial Use submitted in connection with the above referenced permit. Before I can complete processing the proof, additional information is required.

A drilling permit is required for all wells drilled, deepened or enlarged after July 1, 1987 (Section 42-235, Idaho Code). You have not indicated either the well driller or when the well was drilled and I have not been able to locate a drilling permit or a well log for the well.

If your well was drilled after July 1, 1987, please submit a copy of the drilling permit. The well log should have been submitted by the driller within 30 days of the completion of the well. If you have a copy of the well log, please submit that also. If you do not, please contact your driller and ask that he submit a copy. If the well was drilled prior to 1987, please just indicate that on the proof form.

Please return the requested information, and resubmit the original returned proof of beneficial use within 30 days of receipt of this mailing.

If you have any questions or if I can be of any further assistance, please feel free to contact me at (208)327-7953.

LAPSE NOTICE

RE: PERMIT NO. 37-08220

Dear Permit Holder:

You are hereby notified that under the provisions of Section 42-218A, Idaho Code, the above referenced permit has lapsed and is of no further force nor effect. The department provided the proper forms to you in our proof due notice dated March 31, 1994. No further construction or additional development is authorized under this permit unless it is reinstated.

The permit can only be reinstated if you submit an acceptable proof of beneficial use or an acceptable request for extension of time to the department within sixty (60) days of the mailing of this lapse notice. An acceptable proof of beneficial use submittal must include the examination fee or a completed field examination report. A request for extension of time must be accompanied by a fifteen dollar (\$15) fee.

Enclosed again for your use are a proof of beneficial use form and a request for extension of time form. Please note that only one extension of time can be granted unless the project has not been completed because of lack of a necessary approval by a government agency or by litigation which may bring title to the water in question.

PROOF DUE NOTICE

RE: PERMIT NO. 37-08220

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before June 1, 1994. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

RE: PERMIT NO. P37-08220

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

You should be aware that the groundwater you propose to divert is located within a drainage basin where surface waters are regulated during the months of low flow. It is possible that diversion of groundwater may have an adverse impact on these surface water flows. Information available to us at this time does not warrant refusing to issue permits in your area, but we do caution that diversions of groundwater are not allowed to deplete flows available for surface water users with earlier priority dates. Siting your well as far from surface sources as possible and casing out upper water producing zones may reduce the potential of interference.

Section 42-235, Idaho Code, requires that a "drilling permit" must be obtained from the department for all wells constructed after July 1, 1987. A drilling permit is a separate permit that must be issued in addition to your permit to appropriate water. Commencement of well construction or diversion of water under your permit to appropriate water is prohibited unless a drilling permit is obtained.

Be sure to note the special condition requiring you to install a measuring device, or a flow measurement port to provide for the installation of measuring equipment by the Department. Enclosed please find a list of measuring device options, and specifications for the installation of the flow measurement port.

Re: Heatherlands Homeowners Water Permit
Application No. 378220

Gentlemen:

Pursuant to recent telephone conversations with Terry Blau, this is to advise you that the amount of 2.68 CFS, as set forth in paragraph 5 of the application, is at such amount because of State code requirements that there be at least a 500 gallon per minute flow capability in a fire hydrant system used for the purposes of fire protection. This capability is, of course, a year-round requirement.

If you would require anything further, please do not hesitate to contact this office.

Thank you.

LAWSON & PEEBLES

Re: Heatherlands Homeowners Water Permit Application

Gentlemen:

Enclosed please find an application and our check in the amount of \$85.00 for application fees.

As directed by Loren Holmes in telephone conversation of June 17, 1985, it is brought to your attention that paragraph 10 contains a remark to the effect that water in this project was put to beneficial use prior to October of 1984, so as to avoid subordination to Idaho Power as provided by the Swan Falls Agreement.

If there are any questions or if we may be of any assistance, please do not hesitate to contact me.

Very truly yours,
