RE: Applic. 37-8182

Dear Mr. Castle:

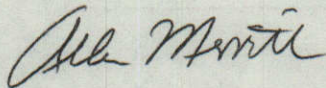

Our office has reviewed your application for permit and has found that your proposed project may utilize a dam which may be under the jurisdiction of the Department and subject to the rules and regulations adopted pursuant to Chapter 17, Section 42-1714 of the IDAHO CODE.

Please find enclosed a booklet which lists the rules and regulations you may be subject to and the appropriate application form for constructing a dam, the size of which you described in your application for permit. Please note that I have indicated by red marker which particular rules in the booklet you should note.

Please review the booklet and make plans for complying with all rules and regulations described therein.

If you have any questions please don't hesitate to contact our office.

Sincerely,

ALLEN MERRITT
Senior Water Resource Analyst

RE: PERMIT NO. 37-08182

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water, and that it meets the permitted beneficial use.

Be advised that Section 42-248, Idaho Code requires you or the owner of this water right to maintain current ownership and address records on file with the department. Forms to file a change of ownership of a water right and/or a change in the address of the water right owner are available from any department office.

If you have questions concerning the field examination, please contact the **Southern** Regional Office of the department in Twin Falls at (208) 736-3033.

Dear Permit Holder(s):

The department acknowledges receipt of correspondence changing ownership of the above referenced permit to you. The department has modified its records to reflect the change in ownership and has enclosed a computer-generated report for your records. The extra paperwork that was sent is being returned with this letter to you as it is not required for an ownership change of a permit.

Please note that as of July 1, 1996, water right owners are required to report any change of water right ownership and any change of mailing address of the owner of a water right to the department. Notice of the change must be provided to the department within 120 days of the change. Change reporting forms are available from any office of the department.

Please feel free to contact the department if you have questions.

RE: PERMIT NO. 37-08182

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before August 1, 2000.

(See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

RE: Permit No. 37-08182

Dear Permit Holder:

Enclosed is a copy of the approved request for extension of time submitted in connection with the above referenced permit which extends the time within which to submit proof of beneficial use to **August 1, 2000**. Please note that the department granted this extension due to circumstances beyond your control which kept you from developing the permit. It is important that you work diligently toward the completion of this project during the construction period allowed since the department **will not** be able to grant additional extension requests.

Be advised that since the extension request was received after the proof due date, it was necessary for the department to reinstate the permit and advance the date of priority to **August 2, 1984**.

Section 42-248, Idaho Code, which became effective on July 1, 1996, requires you or the owner of this water right to maintain current ownership and address records on file with the department. Please contact any office of the department for the proper form to file a change of ownership of a water right and/or a change in the address of the owner.

Please contact me at (208)327-7953, if you have any questions regarding this matter

STATE OF IDAHO)
) ss. AFFIDAVIT
County of Twin Falls)

JOHN R. COLEMAN, being first duly sworn, deposes and says:

1. That he is an attorney residing in Twin Falls, Idaho, duly licensed to practice law in the State of Idaho.

2. That he was acquainted with and represented Willis Castle on various business matters from 1985 until the date of his death on February 10, 1997.

3. I had a considerable amount of contact with Mr. Castle on a real estate transaction involving the sale of farm property near Picabo, Idaho, and represented him in litigation matters pertaining to that sale from the Spring of 1992, until the lawsuit was settled in November of 1996.

4. Mr. Castle suffered poor health from bronchial and lung ailments to such an extent that during the last 2½ years of his life he was confined to his home when not in the hospital for extended stays, and could not attend to matters pertaining to the development of his water distribution system as proposed in his Application for a Permit to appropriate water, which Permit is designated Permit Number 37-08182.

5. A considerable amount of work has been done up to and including the Summer of 1992 to develop the irrigation system in connection with Permit Number 37-08182, but from the Summer of 1992 forward, Mr. Castle was unable to work with this matter.

6. As Personal Representative of his estate, I have been made aware of the property and the development work which has been done in connection with this water right. I am aware of the fact that he has expended in excess of \$10,000.00 for construction work on the project, which expenditure was made prior to July 1992.

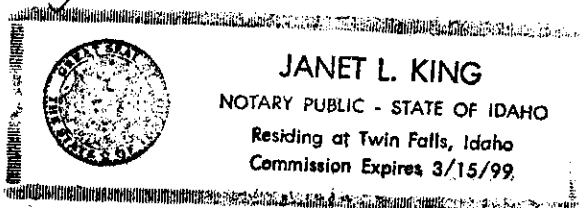

7. Under the provisions of the Will of Mr. Castle, the property subject to Permit Number 37-08182 will be transferred to his son, James Castle, who intends to complete the irrigation project.

8. Based upon the foregoing reasons and the fact of Mr. Willis Castle's poor health situation, request is made for an extension of time for completion of the work and proof of beneficial use of the water subject to Permit Number 37-08182.

9. Request is made for a two-year extension of the time to complete this matter, extending the completion time to August 1, 2000.

Re: Permit No. 37-08182

Dear Mr. Saxton:

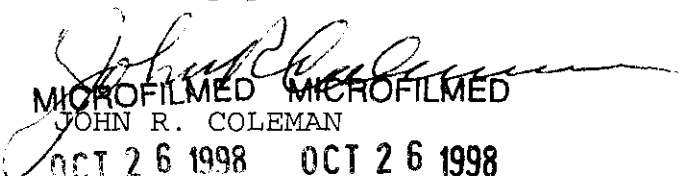

I talked with you a few weeks ago regarding the above Permit and the need and possibility of obtaining an extension of time to submit proof of completion of works and application of beneficial use.

I have been trying to obtain the checks for the work which was done on this project by Mr. Castle in the Summer of 1992. I was aware of expenditures which he made that year, but have been unable to locate the checks. I have contacted his account, who is reviewing his records to obtain payment information for me. To avoid further time passing, I am sending the Request for an Extension of Time, together with a \$50.00 filing fee check and an affidavit of my personal knowledge of the surrounding circumstances regarding Mr. Castle, his condition, and this matter.

If further information is needed to grant an extension, please feel free to contact me so that I might furnish whatever additional information is available.

Your consideration of this matter is greatly appreciated.

Sincerely yours,

LAPSE NOTICE

RE: PERMIT NO. 37-08182

Dear Permit Holder:

You are hereby notified that under the provisions of Section 42-218A, Idaho Code, the above referenced permit has lapsed and is of no further force nor effect. The department provided the proper forms to you in our proof due notice dated May 31, 1998. No further construction or additional development is authorized under this permit unless it is reinstated.

The permit can only be reinstated if you submit an acceptable proof of beneficial use or an acceptable request for extension of time to the department within sixty (60) days of the mailing of this lapse notice. An acceptable proof of beneficial use submittal must include the examination fee or a completed field examination report. A request for extension of time must be accompanied by a fifty dollar (\$50.00) fee.

Enclosed again for your use are a proof of beneficial use form and a request for extension of time form. Please note that only one extension of time can be granted unless the project has not been completed because of lack of a necessary approval by a government agency or by litigation which may bring title to the water in question.

From: L. Glen Saxton, P.E. *WZ*
RE: TELEPHONE CONVERSATION
Date: July 27, 1998

On this date, John Coleman, attorney for the permit holder who is deceased, called in connection with the proof due notice. Coleman wanted to know about the source of water and whether an additional extension of time could be granted.

I reviewed the file and determined that the source of water on the permit is Tom Gooding Spring. The extension approved on October 27, 1995 assumed the source of water for the permit was a well. Hence, I advised Coleman that the department could consider issuing an order correcting the source of water and granting some additional time if the permit holder's successor-in-interest can demonstrate that some development was conducted on Tom Gooding Spring prior to the proof due date of August 1, 1995.

PROOF DUE NOTICE

RE: PERMIT NO. 37-08182

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before August 1, 1998.

(See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

Dear Permit Holder:

Enclosed is a copy of the approved request for extension of time. The time within which to submit proof of beneficial use is extended to **August 1, 1998**. Please note that the department has granted this extension based on due diligence. It is important that you work diligently toward the completion of this project during the construction period allowed. The department will not be able to grant additional requests based on due diligence.

Please be advised that since the extension was received after the proof due date of August 1, 1995, it was necessary for the department to reinstate your permit and advance your priority date to July 6, 1984. Additionally, please note the condition stating that this permit shall not be assigned by the permit holder without prior approval from the department.

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

If the diversion dam is 10 feet or more in height, or has an impounding capacity of 50 acre-feet or more, certain dam safety requirements must be met. Please contact the regional office nearest you for details.

Please note the requirement that as a permit holder you must commence the excavation or construction of diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The enclosed blue card must be completed and returned to this office as soon as you commence construction, no later than one year from the date the permit was approved.

We have enclosed a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit into a license.

I am of the opinion that the source may not be tributary to Magic Reservoir all year. If this is true then water would be available under this appropriation when it can be demonstrated that the water if not diverted sinks prior to reaching Magic.

I would suggest that you call Reid Newby. If he has no objections or does not feel that it would injure existing rights if the water was diverted then we should proceed.

RE: APPLICATION FOR PERMIT NO. 37-8182

Dear APPLICANT:

Due to the Swan Falls litigation, Department approval of the enclosed application may have been delayed. The Department is presently reviewing your application and may authorize the proposed development.

The purpose of this letter is to determine: (1) if you are still interested in developing the project, and (2) the extent of development if any, that has already occurred under the application. Enclosed are two forms requesting information which will help the Department expedite the processing of the application.

1. If you have abandoned or have no interest in continuing with your plans for development of the project, please complete the enclosed withdrawal form and return it to the Department. If you request a withdrawal of the application and the application was not previously advertised, the department will refund your original filing fee.

2. If you wish to continue with your proposed development plans, or have completed all or a portion of the proposed development before October 1, 1984, then you must complete and return the enclosed questionnaire. You may use the questionnaire and enclosed application to make any comments &/or amendments concerning the application. Your completion of the questionnaire will expedite processing and help the department determine if the water diverted under the application is public water or trust water. Approved trust water applications may be subject to additional conditions.

Failure to return either of the above forms within thirty (30) days of the date of this letter is cause for the Department to void the application.

Please be further advised that if any undeveloped portion of your proposed project is greater than 200 acres, the Department will issue a notice requesting additional information as required by Water Appropriation Rule 4,5. (in particular, Rules 4,5,3. thru 4,5,3,5, apply to your project if it is more than 200 acres).

RE: Applic. 37-8182

Dear Mr. Castle:

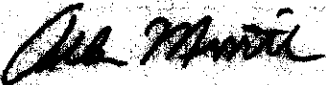

Our office has reviewed your application for permit and has found that your proposed project may utilize a dam which may be under the jurisdiction of the Department and subject to the rules and regulations adopted pursuant to Chapter 17, Section 42-1714 of the IDAHO CODE.

Please find enclosed a booklet which lists the rules and regulations you may be subject to and the appropriate application form for constructing a dam, the size of which you described in your application for permit. Please note that I have indicated by red marker which particular rules in the booklet you should note.

Please review the booklet and make plans for complying with all rules and regulations described therein.

If you have any questions please don't hesitate to contact our office.

Sincerely,

ALLEN MERRITT
Senior Water Resource Analyst
