PROOF DUE NOTICE

RE: PERMIT NO. 37-08157

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before June 1, 1991. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Rita Fleck

Re: Application for Permit No.s 37-8157 & 37-8158

Dear Mr. Dumke:

Pursuant to our conversation from this morning, I reviewed additional aerial photography at the state Soil Conservation Service office in Boise.

Based upon my review of the aerial photo, I would conclude that the 30 acres under application no. 37-8157 were irrigated at that time. This application therefore is exempt from the Swan Falls trust water public interest criteria and may be approved without trust water conditions.

However, the 25 acres described under application no. 37-8158 (located in the NWNW quarter-quarter section of section 16), did not appear to be irrigated in 1984. Furthermore, the small reservoir shown in the same NWNW quarter section of the map accompanying your original application 37-~~8~~158 was not visible in the 1984 photo (the other two reservoirs shown on the map with application no. 37-~~8~~157 were visible). Also, the aerial photo does not clearly show a spring matching the location of the spring drawn on your map for application 37-~~8~~158. As I matched your map (copies enclosed) with the aerial photo, I wondered perhaps if a mistake had been made in describing the place of use legal description.

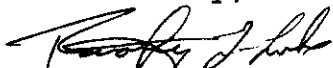

As application 37-~~8~~158 is presently recorded, I must conclude that the use described under that filing was not completed prior to October of 1984. This application can be approved but will include the trust water conditions discussed in my previous correspondence.

I hope you understand that the Department is not trying to single you out and scrutinize your applications in particular. This process of determining irrigation development prior to October of 1984 applies to many applications and permits which were backlogged as a result of the Swan Falls litigation and moratorium. The Department's scrutiny of these applications is made in order to properly document records as well as your application files. This process may prevent you from being included in future litigation.

Re: Application for Permit No.s 37-8157 & 37-8158

Dear Mr. Dumke:

I have received the trust water information questionnaires for the above referenced applications. I appreciate your cooperation in returning the questionnaires to the Department.

You listed on both questionnaires that the source of water under the applications have been used to irrigate the lands described under the same applications prior to October of 1984. Review of aerial photography from both 1974 and 1986 indicates that the lands under your applications were not irrigated in either of those years. Since the Department has no other data available which might confirm prior beneficial use of water on these lands, I must ask that you provide documentation if you wish to support your statements concerning prior use. Your local ASCS office may be the best source of documentation since they do have aerial photography from 1984.

Based on the data available to the Department at this time, I must assume that the projects described under the applications have not been completed. The applications therefore will be advertised as trust water rights. This means that the applications are subject to additional public interest criteria resulting from the settlement of the Swan Falls litigation. Several conditions concerning the Department's jurisdiction over these rights will be added at the time the application is approved to permit. Advertising of the applications will made during the third and fourth weeks of April. Approval may be given some three to four weeks after advertising.

Please feel free to contact me directly at this office if you have questions concerning this matter.

Sincerely,

Tim Luke
Sr. Water Resource Agent

INSTRUCTIONS: IF YOU ARE NOT INTERESTED IN HAVING THE APPLICATION PROCESSED, PLEASE COMPLETE AND RETURN THE ENCLOSED WITHDRAWAL FORM.

IF YOU WISH TO HAVE THE APPLICATION PROCESSED, PLEASE ANSWER THE FOLLOWING QUESTIONS AS THOROUGHLY AS POSSIBLE. FAILURE TO RETURN EITHER THE WITHDRAWAL FORM OR QUESTIONNAIRE IS CAUSE FOR THE DEPARTMENT TO VOID THE APPLICATION.

1a. Are you the current owner of the land or place of use described under this application? Yes X No

b. If you are not the propoerty owner, please descibe the arrangement enabling you to develop the proposed project.

2a. Has the source of water listed on this application been used to irrigate any of the land described under this same application prior to October 1, 1984? Yes X No

b. If yes, please describe the extent of development and number of acres irrigated. (Note: Uses developed after October, 1984 are considered trust water diversions and may be subject to certain restrictions and/or conditions. You may be asked to verify uses established prior to October, 1984.)

3. Please state the number of acres you have irrigated under this application since October 1, 1984. Same as original application 30 acres

4. If you have not irrigated lands under this application, please state the number of acres you plan to complete.

5. If the permit is a supplemental filing please identify other water rights which are used on the same land.

Use the reverse side of this form if you wish to add any comments. You may mark changes on the enclosed application to designate any proposed amendments. (Note: Proposed changes which result in an expansion of use will not be considered by the department.)

I hereby assert that the responses provided above are true to the best of my knowledge. I understand that any willful misrepresentations may result in voiding of the application.

Re: Application for Permit No. 37-8157

Dear Applicant(s):

NOTICE OF PENDING ORDER VOIDING APPLICATION

On June 30, 1983, you filed with the Department of Water Resources (Department) Application for Permit No. 37-8157 which proposed the diversion of 0.13 cubic feet per second from springs for the irrigation of 30 acres.

The Department mailed a letter and questionnaire to you on February 20, 1990 in connection with the application. The letter provided notice that the Department was reviewing the application in connection with development which was not complete prior to October 1, 1984.

This letter also requested that you return the Department's questionnaire concerning your present possessory interest in the place of use, any prior development under the application and/or your plans for pursuing completion of the proposed project. The letter notified you that failure to complete and return the questionnaire within thirty (30) days of the date of the letter was cause for the Department to void the application.

The purpose of this letter is to provide a second and final opportunity for you to submit the requested information. If you fail to respond to this inquiry within fifteen (15) days of the date of this letter, the Department will issue an order voiding the application pursuant to Water Appropriation Rule 4,5,1.

If no development has been completed as proposed by the application, and you are no longer interested in pursuing the development, please complete and return the enclosed withdrawal form. Please note, if you are using water without an approved permit, the Department may issue an order requiring you to cease diverting the water.

Please feel free to contact me if you have any questions concerning this matter.

Sincerely,

TIM LUKE

Sr. Water Resource Agent

RE: APPLICATION FOR PERMIT NO. 37-8157

Dear APPLICANT:

Due to the Swan Falls litigation, Department approval of the enclosed application may have been delayed. The Department is presently reviewing your application and may authorize the proposed development.

The purpose of this letter is to determine: (1) if you are still interested in developing the project, and (2) the extent of development, if any, that has already occurred under the application. Enclosed are two forms requesting information which will help the Department expedite the processing of the application.

If you have abandoned or have no interest in continuing with your plans for development of the project, please complete the enclosed withdrawal form and return it to the Department. If you request a withdrawal of the application and the application was not previously advertised, the department will refund your original filing fee.

If you wish to continue with your proposed development plans, or have completed all or a portion of the proposed development before October 1, 1984, then you must complete and return the enclosed questionnaire. You may use the questionnaire and enclosed application to make any comments &/or amendments concerning the application. Your completion of the questionnaire will expedite processing and help the department determine if the water diverted under the application is public water or trust water. Approved trust water applications may be subject to additional conditions.

Failure to return either of the above forms within thirty (30) days of the date of this letter is cause for the Department to void the application.
