CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. This right when combined with all other rights shall provide no more than .02 cfs per acre nor more than 3.0 afa per acre for the lands above.

G. VOLUME CALCULATIONS

1. Volume Calculations for Irrigation:

$$V_{I.R.} = (\text{Acres Irrigated}) \times (\text{Irrigation Requirement}) = 17(3.0) = 51$$

$$V_{D.R.} = [\text{Diversion Rate (cfs)}] \times (\text{Days in Irrigation Season}) \times 1.9835 = .20(215)(1.9835) = 85.3$$

$$V = \text{Smaller of } V_{I.R.} \text{ and } V_{D.R.} = 51 \text{ at } 1 \text{ in.}$$

RE: PERMIT NO. P37-08143

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

You should be aware that the groundwater you propose to divert is located within a drainage basin where surface waters are regulated during the months of low flow. It is possible that diversion of groundwater may have an adverse impact on these surface water flows. Information available to us at this time does not warrant refusing to issue permits in your area, but we do caution that diversions of groundwater are not allowed to deplete flows available for surface water users with earlier priority dates. Siting your well as far from surface sources as possible and casing out upper water producing zones may reduce the potential of interference.

Section 42-235, Idaho Code, requires that a "drilling permit" must be obtained from the department for all wells constructed after July 1, 1987. A drilling permit is a separate permit that must be issued in addition to your permit to appropriate water. Commencement of well construction or diversion of water under your permit to appropriate water is prohibited unless a drilling permit is obtained.

We have enclosed a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit. Also enclosed for your convenience is a form entitled "Proof of

Beneficial Use" that must be submitted to the Department when your project is completed. If development is complete, you may submit proof of beneficial use immediately.

Re: Application for Permit No. 37-08143

Dear Applicant(s):

The Department is now beginning the processing of applications which have been held as a result of the Swan Falls controversy. In connection with this processing, the Department requests the information described below.

Additional information required before final regional review of the application includes evidence of development prior to October 1, 1984 such as ASCS area photos predating 1984 with a signed statement from an ASCS agent or power bills predated October 1, 1984 for meter specifically servicing well.

From the Department's review of the above referenced water right application, it appears the application is only subject to the usual water right processing described in Section 42-203A, Idaho Code, and is not subject to the public interest criteria processing required of some applications in the Swan Falls settlement.

Please feel free to contact the Department if you have questions.

Very truly yours,

James E. Stanton
Sr. Water Resource Agent

FROM: TIM LUKE

RE: SWAN FALLS PROCESSING

DATE: 11-2-89

The applicant has returned the trust water questionnaire and claims that the source was developed and used prior to October of 1984. The application was filed in June, 1983. The application states that the well under this application was completed in approximately 1976 for domestic use and deepend in 1982.

The department's 1986 remote sensing data for this tract was classified as irrigated by IDWR staff. The irrigation use therefore appears to have been in place by at least 1986. The 1974 7.5 min orthophoto does not show that this tract was irrigated at that time. Based on this available information and the applicants response to the questionnaire, I recommend that the department approve the application as a non-trust water use. The application should be exempt from further review requirements of Section 42-203C.

The file is being returned to the regional office for advertising. I do not believe any special language is required for the advertising.

IF YOU WISH TO HAVE THE APPLICATION PROCESSED, PLEASE ANSWER THE FOLLOWING QUESTIONS AS THOROUGHLY AS POSSIBLE. FAILURE TO RETURN EITHER THE WITHDRAWAL FORM OR QUESTIONNAIRE IS CAUSE FOR THE DEPARTMENT TO VOID THE APPLICATION.

1a. Are you the current owner of the land or place of use described under this application? Yes ☒ No ☐

b. If you are not the property owner, please describe the arrangement enabling you to develop the proposed project.

2a. Has the source of water listed on this application been used to irrigate any of the land described under this same application prior to October 1, 1984? Yes ☒ No ☐

b. If yes, please describe the extent of development and number of acres irrigated. (Note: Uses developed after October, 1984 are considered trust water diversions and may be subject to certain restrictions and/or conditions. You may be asked to verify uses established prior to October, 1984.)

18 ACRES Fenced + maintained Horse Pasture

3. Please state the number of acres you have irrigated under this application since October 1, 1984. 18 acres

4. If you have not irrigated lands under this application, please state the number of acres you plan to complete.

5. If the permit is a supplemental filing please identify other water rights which are used on the same land.

Use the reverse side of this form if you wish to add any comments. You may mark changes on the enclosed application to designate any proposed amendments. (Note: Proposed changes which result in an expansion of use will not be considered by the department.)

I hereby assert that the responses provided above are true to the best of my knowledge. I understand that any willful misrepresentations may result in voiding of the application.

RE: APPLICATION FOR PERMIT NO. 37-8143

DEAR APPLICANT:

Due to the Swan Falls litigation, Department approval of the enclosed application may have been delayed. The Department is presently reviewing your application and may authorize the proposed development.

The purpose of this letter is to determine: (1) if you are still interested in developing the project, and (2) the extent of development if any, that has already occurred under your application.

Enclosed are two forms requesting information which will help the Department expedite the processing of the application.

1. If you have abandoned or have no interest in continuing with your plans for development of the project, please complete the enclosed withdrawal form and return it to the Department. If you request a withdrawal of the application and the application was not previously advertised, the department will refund your original filing fee.

2. If you wish to continue with your proposed development plans, or have completed all or a portion of the proposed development before October 1, 1984, the department asks that you complete and return the enclosed questionnaire. You may use the questionnaire and enclosed application to make any comments and/or amendments concerning the application. Your completion of the questionnaire will expedite processing and help the department determine if the water diverted under the application is public water or trust water.

Approved trust water applications may be subject to additional conditions.

Failure to return either of the above forms within thirty (30) days of the date of this letter is cause for the department to void the application.

William H. and Helen B. Evans

Dear Loren:

The above-referenced Application for Permit was filed with the Department on June 9, 1983. It has since sat in the "Swan Falls Hold File." At your earliest convenience, would you please write a letter bringing me up to date on the status of this Application.

Thank you.

Sincerely yours,

HOGUE, SPECK & AANESTAD
