CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to reflect cropping patterns or acceptable standards of water delivery efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.

Dear Mr. Peterson:

I have received your letter of October 10, 1989 in which you inquire as to the status of your water right for Big Wood River water. I have checked our computer and find that the water right in question is a Snake River Adjudication Claim, No. A37-00353. This right is in good standing and presumably will be included in the final decree when it goes to court several years down the road at the end of the Adjudication.

If you have further questions concerning the adjudication claim, I suggest that you contact one of our adjudication agents here in this office or at our Southern Regional Office in Twin Falls.

Dear Mr. Peterson:

I have reviewed your Draft License as well as your April correspondence to Mr. Johnson of this office. I hope to answer your concerns.

Your original permit was granted for the irrigation of 5.0 acres. However, a license is written for only those acres under irrigation at the time of the field exam. Our examiner visited your home on May 29, 1984 and determined that 4.5 acres were actually irrigated at that time.

Department guidelines allow a diversion rate of 0.03 cfs per acre for small rights such as your own. This limits the irrigation diversion rate to 0.14 cfs. I would like to point out, however, that the total volume of water allowed is unchanged under this right. You should have plenty of water for your needs.

Please feel free to contact us if you have further questions.

Sincerely,

Re: Permit 37-8012

Dear Mr. & Mrs. Peterson:

We acknowledge receipt of the affidavit submitted as proof of beneficial use for the above referenced permit.

Before a license can be issued, a field examination must be made by a representative of this Department. We cannot tell just when this examination will be made, but our examiner will try to contact you at the time he makes the examination so that you may show him the system.

Field examinations must be done while the system is in operation. For this reason we concentrate on irrigation permits during the summer months and do examinations on permits for other uses during the non-irrigating months.

If you have any questions regarding the field examination, please contact our office.
