Dear Mr. Gorman:

Re: Permit No. 37-8006

The department received the proof of beneficial use form submitted in response to the department's letter dated November 21, 1990.

The next step is for the department to conduct the field inspection to confirm and determine the extent of beneficial use. I cannot tell just when the representative from our Southern Regional office will conduct the exam, but he will try to contact you or your representative prior to being in the area.

If you have questions, please contact me.

Sincerely,

RITA I. FLECK

Ladies/Gentlemen:

Department of Water Resources

Please be advised that I only use this well, pump and sprinklers during the summer months. We have about $1\frac{1}{2}$ acres under fence, and irrigation water rights from a nearby canal. The main house at the front of the property is on city water. The old house at the back of the property is hooked up to the well, and we water several horses which are pastured there during the summer. The primary use for this well is for supplemental sprinkler irrigation water when flood irrigation water is simply not available from the canal. The last several years, sprinkler irrigation has been rarely used since we have had adequate flood irrigation water. Please also be advised that I am now retired and we spend our winter months in the southern states. This winter we are in Florida at the below address. We expect ~~to be back~~ in Hailey in May or June.

PS: Please correct our P.O. Box Number in Hailey; it should be P.O. Box 2232, not 1184. Tx

PSS: One additional point to be made here is that since we have water rights for flood irrigation, we do not use the sprinklers unless absolutely necessary to conserve electricity to the pump, and also it conserves ground water.

RE: PERMIT NO. 37-8006

Dear Mr. Gorman:

On April 21, 1987, you submitted a request for an extension of time (extension request) in which to submit the proof of beneficial use for the above referenced permit. The permit authorized the diversion of 0.03 cfs of water from a well to be used for irrigation purposes.

On May 26, 1987, the department corresponded with you and advised that we would hold the extension request without action until the permit was reprocessed as required by Section 42-203D, Idaho Code. This reprocessing was a direct result of the Swan Falls water right controversy which is now essentially resolved.

As it turns out, your permit is not subject to reprocessing under Section 42-203D, Idaho Code. For this reason, the extension request can now be further processed.

Please contact me soon in connection with the pending extension request including the amount of additional time needed, if any. If your project is complete, it is appropriate for you to file the proof of beneficial use in order to complete the filing requirements associated with the permit.

Enclosed is a proof of beneficial use form together with instructions which you should file if your project is complete. If the project is not complete, please advise me and the department will act on the pending extension request. If you have questions, feel free to call me at 327-7953.

Sincerely,

RITA I. FLECK
