RE: PERMIT NO. 37-07782

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before August 1, 1989. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

Dear Mr. and Mrs. Young:

Re: Permit No. 37-7782

Enclosed is a copy of the approved request for extension of time. The time within which to submit the statement of beneficial use postcard is extended to August 1, 1989..

In connection with the development of a water right under this permit, the Department wishes to call to your attention an Idaho Supreme Court decision issued in November 1982 which likely could affect your future use of water.

The decision in the case of Idaho Power Company vs the State of Idaho, et al stated in part that Idaho Power Company's use of water for power generation purposes at the Swan Falls dam on the Snake River is not subordinated to upstream depletion by later-in-time uses. The question of whether Idaho Power's 8,400 cfs water right at Swan Falls dam has been diminished by subsequent development, however, was remanded back to district court for determination. The findings of the district court could restrict water availability or require compensation to Idaho Power Company for uses developed later in time than Idaho Power Company's water right at Swan Falls dam.

Sincerely,

RITA I. FLECK
Secretary/Records Manager

Dear Mr. & Mrs. Young,

RE: Permit No. 37-7782

Enclosed is a copy of your approved Application for Permit. We direct your attention to the conditions of approval on the fourth page.

The exercise of this permit may also be affected by the court's determination of water rights in the case of Idaho Power Company v. State of Idaho, et al., Civil No. 62237, currently pending before the District Court of Ada County.

Idaho Power officials tell us that because of Case No. U-1006-124 filed before the Idaho Public Utilities Commission, Idaho Power Company is asking the District Court of Ada County to determine whether the Power Company's water rights on the Snake River are protected against subsequent upstream appropriations in the waters of the Snake River and surface and subterranean tributaries between Milner Dam and Hells Canyon.

Since the use of water under your permit may affect the flows in this reach of the Snake River, the final decision in Idaho Power Company v. State of Idaho, et al. (Ada County Civil No. 62237) may determine to what extent the exercise of your permit may be subject to the water rights of Idaho Power.

While the Ada County court is examining this question, Idaho Power Company has not filed a specific protest to your permit. However, the Department of Water Resources has been advised that the Power Company is not waiving any of its rights to contest or limit the exercise of your permit or a subsequent license or water right.

If you have any questions, please let us know.

Sincerely,

David R. Tuthill Jr.
