License of Water Right No. 37-7766 Priority February 21, 1979 Amount 0.71 cfs

THIS IS TO CERTIFY, that CAREY WATER DISTRICT
of Carey, Idaho, has complied with the terms and conditions of Permit
No. 37-7766 issued pursuant to Application for Permit dated February 21, 1979,
and has submitted proof to the Department of Water Resources on March 28, 1979,
that he has applied water to a beneficial use; an examination by the Department indicates that the works have a
capacity for the diversion of 0.71 cfs of water from a groundwater source,
tributary to _____, and that the permit holder has applied to a beneficial use and
established a right to use water as follows:

Beneficial Use	Period of Use	Rate of Diversion	Annual Volume

ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that I have examined Application for Permit to appropriate the public waters of the State of Idaho No. 37-7766, and said application is hereby APPROVED.

1. Approval of said application is subject to the following limitations and conditions:

- a. SUBJECT TO ALL PRIOR WATER RIGHTS.
- b. Proof of construction of works and application of water to beneficial use shall be submitted on or before May 1, 19 80.
- c. The rate of diversion, if water is to be used for irrigation under this permit, when combined with all other water rights for the same land shall not exceed 0.02 cubic feet per second for each acre of land.
- d. Other: (1) An access port or other device as specified by the Department shall be installed by the permit holder to provide for the installation of measuring equipment and the determination of the rate of diversion by the Department.
(2) The issuance of this permit in no way grants any right-of-way or easement across the land of another.

Witness my hand this 16th day of April, 19 79.

RE: Transfer No.: 68997 - Water Right 37-7766 - Transfer Approval Notice

Dear Water Right Holder:

The Department of Water Resources has issued the enclosed approved Transfer of Water Right(s). Please be sure to thoroughly review the conditions of approval and remarks listed on the approval document.

The Transfer of Water Right(s) is a PRELIMINARY ORDER issued by the Department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action by the Department unless the APPLICANT petitions for reconsideration or files an exception and/or brief within fourteen (14) days of the service date as described in the enclosed information sheet.

ANY PERSON aggrieved by any decision, determination, order or action of the Department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Department and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

Please note that water right owners are required to report any change of water right ownership and/or mailing address to the Department within 120 days of the change. Failure to report these changes could result in a \$100 late filing fee. Contact any office of the Department or visit the Department's homepage on the Internet to obtain the proper forms and instructions.

If you have any questions, please contact me at 208-327-7940.

**EXPLANATORY INFORMATION
TO ACCOMPANY A
PRELIMINARY ORDER**

The accompanying order or approved document is a "**Preliminary Order**" issued by the department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action of the Department of Water Resources (department) unless a party petitions for reconsideration, files an exception and brief, or requests a hearing as further described below:

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding with the Director. Otherwise, this preliminary order will become a final order of the agency.

REQUEST FOR HEARING

Unless a right to a hearing before the department or the Idaho Water Resource Board (Board) is otherwise provided by statute, any person aggrieved by any final decision, determination, order or action of the Director of the department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Director and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with IDAPA Rules 37.01.01302 and 37.01.01303 (Rules of Procedure 302 and 303).

FINAL ORDER

The Director will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) the petition for reconsideration is disposed of; or
- (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

In the name of: **Carey Water and Sewer District**

SUBJECT: Review and Recommendation

The transfer adds a new well to the water system covered under 37-07766.

The application for permit is for additional municipal use capacity for Carey Water and Sewer District (a municipal provider). The application is located in the ESPA Moratorium Area and was processed pursuant to the exceptions of the order allowing domestic type uses to be developed.

Both applications were processed without protest.

Recommendation

I recommend that these applications be approved subject to the following conditions:

- A measuring device with totalizing meter be maintained on the new well and also on the old well.
- Use is subject to measuring and reporting to the department through the West ESPA Measurement District.
- The place of use is limited to within the service area of the Carey Water & Sewer District.
- Irrigation of large projects such as parks, golf courses, or athletic fields is not authorized under this permit.
- Uses authorized under this permit must be for fire protection or uses which individually meet the definition for domestic use provided in 42-111, Idaho Code.
- The new well authorized under this permit must comply with the drilling permit (42-235) requirement and meet IDWR well construction standards and DEQ health requirements for Public Water Supply Systems.
- Subject to all county, state & federal permits that may be required.
- When permit 37-20384 and license 37-07766 are combined they are limited to an instantaneous diversion rate of 1.41 cfs.

Dear Mr. Patterson:

The Department of Water Resources acknowledges receipt of your two applications. Please refer to the above referenced numbers in all future correspondence regarding these applications.

A legal notice of the applications has been prepared and is scheduled for publication in the Wood River Journal on 5/2 & 5/9/01. Submittal of protests will be allowed for a period ending ten days after the second publication. (May 21, 2001)

If the application is protested you will be sent a copy of the protest(s). All protests must be resolved before the application can be considered for approval. If the protest(s) cannot be resolved voluntarily, the Department will conduct a conference and/or hearing on the matter.

If an application is not protested, it will be forwarded to our State Office in Boise for final processing after Regional review has been completed. The State Office will notify you of any action taken on an application and will send you a copy if approved.

Please feel free to contact this office if you have any questions regarding this procedure.

Dear Mr. Adamson:

We acknowledge receipt of the affidavit submitted as proof of beneficial use for the above referenced permit.

Before a license can be issued, a field examination must be made by a representative of this Department. We cannot tell just when this examination will be made, but our examiner will try to contact you at the time he makes the examination so that you may show him the system.

If you have any questions regarding the field examination, please contact our regional office in Twin Falls.

RE: Proof of Application of Water to Beneficial Use -
Carey Water District

Dear Mr. Holmes:

As per our telephone conversation on Friday, May 11, 1979 I am
returning the above-mentioned "Proof" with the following explanation:

The original flow measurements taken during the pump test were
performed by a professional engineer using a calibrated orifice plate
and piezometer tube. This is shown under section 5.(c) of the "Proof".
However, this temporary equipment was removed and a permanent measuring
device installed. This device is the 4" mainline tube meter (0-600 gpm)
presented under section 7.(b) of the "Proof". Therefore, we believe
that we have accurately fulfilled the requirements of the form.

According to our conversation this explanation should suffice.
Please contact us if you have any questions.

Very truly yours,

Re: Application for Permit No. 37-7766 - Carey Water District

Dear Mr. Adamson:

I must return you Proof of Application of Water to Beneficial Use for the following reasons.

1. Since you indicated on the proof that the water was measured by a professional engineer in lieu of installing a permanent measuring device, the engineer's report of the measurement and his findings must accompany the proof.
2. Your proof was filed before an approved permit had been issued. Handling of your application at the regional level has been completed and the application has been forwarded to the State Office for final action. You should be receiving an approved permit in the near future.

If you have any questions about the permit or filing proof of beneficial use, please do not hesitate to contact me.

Very truly yours,

Gentlemen:

Enclosed is a copy of your approved Application for Permit. We direct your attention to the conditions of approval on the fourth page.

Be sure to note the special condition requiring you to install an access port or other device to provide for the installation of measuring equipment by the Department. Enclosed are specifications for the installation of the access port, as well as a list of measuring device options.

The exercise of this permit may also be affected by the court's determination of water rights in the case of Idaho Power Company v. State of Idaho, et al., Civil No. 62237, currently pending before the District Court of Ada County.

Idaho Power officials tell us that because of Case No. U-1006-124 filed before the Idaho Public Utilities Commission, Idaho Power Company is asking the District Court of Ada County to determine whether the Power Company's water rights on the Snake River are protected against subsequent upstream appropriations in the waters of the Snake River and surface and subterranean tributaries between Milner Dam and Hells Canyon.

Since the use of water under your permit may affect the flows in this reach of the Snake River, the final decision in Idaho Power Company v. State of Idaho, et al. (Ada County Civil No. 62237) may determine to what extent the exercise of your permit may be subject to the water rights of Idaho Power.

While the Ada County court is examining this question, Idaho Power Company has not filed a specific protest to your permit. However, the Department of Water Resources has been advised that the Power Company is not waiving any of its rights to contest or limit the exercise of your permit or a subsequent license or water right.

If you have any questions, please let us know.

Sincerely,

David R. Tuthill, Jr.
