AFFIDAVIT of PUBLICATION

RECEIVED

State of Idaho, }
County of Gooding } SS.

MAY 22 1978

Kim R. Crompton being first duly sworn,
deposes and says that he is the printer (publisher) of the Gooding
County Leader, a newspaper published every week in Gooding, County
of Gooding, State of Idaho, that said newspaper has been continuous-
ly and uninterruptedly published for a period of seventy-eight consecu-
tive weeks prior to the first publication of the annexed notice, and is
a newspaper qualified to publish legal notices as provided by act of
the 1919 session of the legislature of the State of Idaho, known as
House Bill 145; that the annexed advertisement was published once

each week for 2 consecutive issues in said newspaper
proper and not in a supplement; that the date of the first publication

of said advertisement was on the 11 day of May

19 78, and the date of the last publication was on the 18

day of May, 19 78.

Subscribed and sworn to before me this 18

day of May, 19 78.

NOTICE OF APPLICATION FOR WATER PERMIT

Notice is hereby given
that Lynn E. Stevenson,
Bliss, Idaho 83314 has on
4/27/78 submitted Applica-
tion No. 37-7712 for a permit
to appropriate 2.00 cubic feet
per second of water from 2
unnamed springs tributary
to Snake River by means of
existing pipe from springs to
ditch, then to five existing
dirt ponds, ditch to Snake
River within the SW $\frac{1}{4}$ SW $\frac{1}{4}$,
Sec. 8; NE $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 17,
Twp. 6S, Rge. 13E, B.M.
Gooding County to be used
from Jan. 1 to Dec. 31 for
fish propagation purposes
within the SE $\frac{1}{4}$ NE $\frac{1}{4}$, Sec.
18, NW $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 17 Twp.
6S, Rge. 13, B.M.

If issued, this permit will
be subject to all prior water
rights. Protests against the
granting of the permit must
be filed with the Idaho De-
partment of Water Re-
sources, 1041 Blue Lakes
Blvd., North, Twin Falls,
Idaho, 83301 on or before
May 29, 1978.

Subj: RE: Lynn Stevenson's Rights (37-7216 & 37-7712)

Sharla,

My file indicates the amendments came to light during housecleaning in Oct, 1991. The file had made a tour of the office and wound up back on my desk with notes from various agents about unsuccessful attempts to hand deliver the amendments.

I sent a memo to Glen Saxton dated Oct 31, 1991 documenting this and suggested one more attempt at service by mail followed by action to void the permits if there was no response.

Stevenson has filed SRBA claims A37-7216 & A37-7712 based on these permits. The claims contain his most current address.

The operative statutes appear to be 42-219 and 42-224, both of which provide for appeal of any adverse action, so it isn't like this is the end of the road if he ignores all notices up to the final voiding order.

We can try another run at hand delivery if you think that's the way to go, but I personally don't think any more agonizing is warranted when it is apparent that Mr. Stevenson has better things to do than read his mail.

RE: Permit Nos. 37-7216 & 37-7712

NOTICE OF PENDING ORDER VOIDING PERMITS

Dear Mr. Stevenson:

The above referenced permits were filed for fish propagation and irrigation purposes. Water delivery systems for these purposes were established and field inspections were made.

On January 13, 1992, the Department sent you a notice that your permits must be amended to correspond with the findings of the Department's field examiner before they can be licensed. The original permits identified points of diversion located within the SW $\frac{1}{4}$ SW $\frac{1}{4}$, Section 8; and the NE $\frac{1}{4}$ NW $\frac{1}{4}$, Section 17; Twp 6S, Rge 13E. The points of diversion verified by the examiner are within the SW $\frac{1}{4}$ SW $\frac{1}{4}$, Section 8 and the NW $\frac{1}{4}$ NW $\frac{1}{4}$, Section 17. Further, the place of use under each right included 40-acre tracts not originally identified on the permits.

The purpose of this letter is to request that you sign the amendments and return them with the \$20.00 filing fee per amendment within thirty (30) days of the date of mailing of this letter. If you fail to respond to this notice, the Department will act to void your permits. The permits will be voided for failure of the holder to comply with the conditions of the permits. One of the conditions of each permit was that the point of diversion and/or place of use would be developed as indicated

MICROFILMED

MAY 18 1992

Page 2

on the permit. The only process for changing those locations is by means of an amendment, thus, failure to submit the amendments is cause for the director to void the permits. Subsequently, diversion of water without a valid water right is cause for the Department to issue a cease and desist order.

If you have any questions in regard to this matter, please feel free to contact our office.

Sincerely,

JIM JOHNSON
Water Rights Supervisor

RE: Permit Nos. 37-7216 & 37-7712

Lynn E. Stevenson
Star Rt., Box 3
Bliss, ID 83314

Dear Mr. Stevenson:

We have attempted on several occasions during the past few years to obtain amendments for the above referenced permits in order to issue licenses on the rights. These attempts have been unsuccessful.

The amendments are needed to reflect the two points of diversion in the NWNW, S17, T6S, R13E.

This is a final request for you to submit the enclosed amendments along with the filing fees (\$20.00 each).

If we do not receive the licensing amendments in this office within 30 days from the date of mailing of this letter, licenses will be issued to reflect only two points of diversion rather than the three actually used. The Department may also issue an order requiring you to cease using water from the third point of diversion.

If you have any questions, please give me a call.

Sincerely,

SHARLA CURTIS
Water Resource Agent

RE: Permit No. 37-7712

Lynn E. Stevenson
Star Rt., Box 3
Bliss, ID 83314

Dear Permit Holder(s):

The above referenced water right is in the process of being licensed. However, before a license can be issued, your permit must be amended to correspond with the findings of the Department's field examiner.

The enclosed application for amendment contains all of the information that will be included on the license when it is issued. Please review carefully and if you concur, sign the amendment and return with the \$20.00 filing fee within 30 days.

If you do not concur with these findings or if you have any questions, please contact us within the 30-day period.

Sincerely,

JIM JOHNSON
Water Rights Supervisor

MEMORANDUM

TO: Loren Holmes

FROM: Jim Johnson

DATE: September 24, 1984

RE: Field Exams on Lynn Stevenson's System

I have reviewed 4 permits filed by Stevenson and the field exams which cover his system.

His system appears to use water from three major spring locations. Permits 37-7216 and 37-7712 identify two springs located within the SW $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 8 and NW $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 17, Twp 6S, Rge 13E.

Permit 37-7216 includes irrigation as well as fish propagation. According to the field exam, two locations are used to pump water for irrigation. The exam does not include calculations to determine if pumps can supply the amounts recommended for irrigation. This should be shown.

Also, the field exam does not state if the pump(s) were in operation when the flow across the weir was measured, nor does it state if the weir is located above or below the pump(s).

The amount of water available for the fish ponds located in Sec. 18 would vary depending on the irrigation season. Therefore, the amount for fish propagation for this period should be listed.

The aerial photo attached to the field exam shows two weirs, one at the lower end of the Montana Mining Ditch in Sec. 17. Neither of these weirs match the description of the weir found on the Montana Mining Ditch identified on the field exam done on permit 37-7217, which describes a re-diversion on Montana Mining Ditch as 4.33'. This should be cleared up.

Permit 37-7217 also shows water from springs located in the SE $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 17 used for two ponds located in Sec. 18. There is no method made of overlap analysis of same source on the field exams. This should be done.

Re: Permit No. 37-7712

Dear Mr. Stevenson:

We acknowledge receipt of the affidavit submitted as proof of beneficial use for the above referenced permit.

Before a license can be issued, a field examination must be made by a representative of this Department. We cannot tell just when this examination will be made, but our examiner will try to contact you at the time he makes the examination so that you may show him the system.

Field examinations must be done while the system is in operation. For this reason we concentrate on irrigation permits during the summer months and do examinations on permits for other uses during the non-irrigating months.

If you have any questions regarding the field examination, please contact our office.

Sincerely,

Gary Funderburg
Senior Water Resource Agent

SIGNATURE

INTER-DEPARTMENT MEMO — 1

FROM Jim Stanton

DATE 6-22-79

TO File

SUBJECT Memo From Jim Johnson, 5-11-79

In answer to the above memo, this water is the same water now diverted under 37-7216. Application 37-7712 is for re-use of this water in additional fish ponds. There is little, if any, additional water in the springs that can be appropriated. The water entering the new ponds comes from two different sources, so both sources need to be measured for correct licensing of this right.

Re: Application for Permit No. 37-7712

Dear Mr. Stevenson:

On all fish propagation applications a proof of ownership of the place of use, a detailed construction plan of the facility, and a financial statement must accompany the application. These items have not yet been received from you for inclusion in the file. All other Regional office processing of the application is complete.

Please forward the requested information at your earliest convenience so that your application may be forwarded for final action. If you have any questions, please contact us.

Very truly yours,

Loren O. Holmes
