INSTRUCTIONS

This form has been prepared to assist new owners of property to comply with the requirements of Sections 42-248 and 42-1409(6), Idaho Code. Section 42-248 requires certain property holders to notify the Department of Water Resources (IDWR) of any change in mailing address or ownership of all or part of a water right record on file with IDWR. Section 42-1409(6) provides that new property owners must notify IDWR of any change in ownership of a water right during an adjudication of water rights, and, if a required claim for the water right has not been filed, to file the needed claim.

Separate brochures are available from IDWR describing the adjudication of water rights and the requirement to notify IDWR of changes in ownership. If you would like any of these brochures, or if you have questions about completing this form, please contact your nearest IDWR office or call 1-800-451-4129.

If you need additional space to describe or explain any of the items on the form, please attach additional sheets to the form as you may require.

1. If there are water rights associated with the property, the seller should be able to provide you with the water right or adjudication claim number(s). Please enter these number(s) at **Item 1**. If you or the seller believe there are water rights for the property but the numbers are unknown, you may wish to call IDWR or come into an office of IDWR for assistance in identifying the water rights for the property in question. If claims for the rights are required, and have not been filed, IDWR will so advise you.
2. The information described at **Item 2** is required, since IDWR cannot process the requested change without documentation of ownership. The preferred types of documentation are shown; contact IDWR if you have difficulty obtaining this information. Do not obtain a new survey for purposes of this form before contacting IDWR.
3. Please provide the name and address of the former owner of the water right and/or adjudication claim at **Item 3**.
4. The name, mailing address, and telephone number of the new owner(s) is entered at **Item 4**. Please indicate the relationship between multiple owners by using the connector "and", "or" or "and/or". If an "and" is used, all parties must sign this form. If an "and/or" or "or" is used, all parties may sign, however only one of the named parties is required to sign.
5. At **Item 5**, please provide the date the property in question was acquired. This may be the date of "closing" in the case of a real estate transaction or the date of court order for other types of ownership changes.
6. If the property you have purchased is only a portion of the property owned by the former owner/seller, you may be purchasing only a portion of the total water right held by the seller. This means the water right held by the seller may be "split" to provide your share of the right in question. Be sure to include a description of the portion of the water right you have purchased at **Item 6**.

Please provide as much detail as possible concerning your water right: include the number of homes, irrigated acreage if more than 1/2 acre is irrigated, type and number of stock if your right is for stockwater, etc. In the absence of information to the contrary, IDWR will assume the intent is to split the rights *proportionately*.

7. The new owner(s) must sign the form in the space(s) provided at **Item 7**. Corporations and other organizations must submit a list of directors or officers demonstrating the authority of the director or officer to sign the form.
8. There is no filing fee. When complete, you should retain a copy and return the original of the form to the IDWR office nearest you:

He came in to submit the necessary items to accomplish an ownership change. See Jim's letter dated 08 January 1997. I copied his 1996 tax records depicting the portions of land in Sections 28 and Section 29. I said he may need to submit a death certificate of his father, Delbert, who died in 1985. He said if he needs to get a copy of the death certificate to let him know. Also, he would like some record of the change once it has been completed.

WHEREAS, the former condition required the permit holder to purchase and install a measuring device or hire a professional engineer to certify the rate of diversion; and,

WHEREAS, the measuring device condition effective July 1, 1978, requires less capital expenditure by the permit holder; and,

WHEREAS, to be equitable to holders of permits issued prior to July 1, 1978, the new condition should be retroactive;

NOW THEREFORE, it is hereby ordered that the condition of approval of this permit related to water measurement is hereby changed as follows:

"The permit holder shall either install a measuring device or provide a certified measurement by a professional engineer or install an access port or other device as specified by the Department".

RE: WATER RIGHT 37-07692

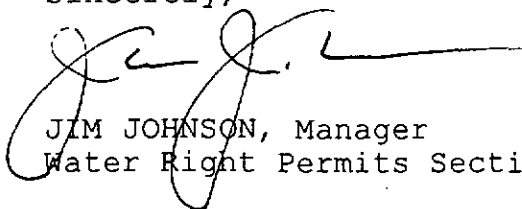

Dear Mr. Sweet:

The Department is in receipt of the correspondence changing ownership of the above referenced water right to you. We have modified our records to reflect this change in ownership and a computer generated report is enclosed.

Just a reminder, because of a law that went into effect July 1, 1996, all water right owners are required to report change of address or ownership to the department within 120 days of the change. Failure to report these changes could result in a \$100 late filing fee to the water right owner. If you have other water rights that haven't had the ownership updated please contact the department as soon as possible.

If you have any questions regarding this matter, please feel free to contact me at (208) 327-7947.

Sincerely,

RE: Telephone Conversation with Mr. Sweet on 8-10-98

=====

Mr. Sweet provided additional information about the circumstances for adjusting the names listed on the water right license.

I explained to Mr. Sweet that it was not necessary to file a change of water right ownership form to remove his deceased father, Delbert, from the water right because all names were originally listed as "and/or".

It was his preference to go ahead and remove his fathers name from the water right, which we will do with the information he has provided.

RE: Acres Irrigated

The examiner recommends 40 acres to be licensed within the NENW, S28. However, because this is the location of corrals and the home, it is impossible that 40 acres are irrigated. Using the aerial photo attached to the field exam, it was determined that the total number of acres to be licensed within the NENW is 36 (removal of 4 acres for home and corrals).

Gentlemen:

Re: Permit No. 37-7692

This office acknowledges receipt of the proof of beneficial use form. Note that the proof had been misplaced and consequently, the permit lapsed. The permit is now in order. The enclosed order reinstates the permit with no advance in priority.

The next step is for the department to conduct the field examination. I cannot tell just when this exam will take place, the department representative will try to contact you to schedule a convenient time.

If you have any questions concerning this matter, please feel free to contact this office.

Sincerely,

RITA I. FLECK
Secretary/Records Manager

MEMORANDUM

RE: SWAN FALLS PROCESSING
PERMIT NO. 37-7692

DATE: 3-17-89

=====

Mr. Delbert Sweet visited the office on March 15, 1989 in response to the Department's trust water questionnaire and letter dated January 30, 1989.

As per my memo of January 30, 1989, there was evidence in the file indicating that at least 140 of the 200 acres described in the permit had been developed prior to July 1, 1985. The purpose of Mr. Sweet's visit was to provide us with sufficient evidence that the full 200 acres had been developed. This evidence includes:

- 1) A signed statement from an Idaho Power representative that Mr. Sweet has continually irrigated up to 200 acres since 1978, the year in which Idaho Power first provided service for the well described in the permit;
- 2) three affidavits from persons who reside in the area and have worked on the farm attesting that 160 acres of grain and hay have been irrigated since 1978 and that an additional 40 acres of pasture were irrigated since 1984;
- 3) copies of aerial photos and a June '84 ASCS aerial slide clearly showing irrigation of the 160 acres and the approximate 40 acres of irrigated pasture.

The above documentation is sufficient evidence of pre-development and therefore the permit should be exempt from any further review under Section 42-203D and be removed from the Swan Falls process list. The Department can proceed with the normal field examination and licensing process. Mr Sweet would like the examination to be done this year when his system is operating at full capacity.

To Whom It May Concern:

I am writing in regards to a ground-water permit No. 37-7692 that was filed by Delbert Sweet of Dietrich, Idaho, in the fall of 1977. My farm is across the road to the North and adjoins a field to the East of the Sweet farm. I have worked on and around the Sweet farm for nearly 50 years, and am very familiar with it. Just prior to the purchase of the Sweets farm from John Millard, I was leasing it from Mr. Millard. When Delbert Sweet asked me to farm the place for them as soon as they purchased it from the Millards, I informed him that it was too costly for me to operate it due to the many small fields. It was for this reason that Mr. Sweet decided to drill the well and further develop the farm. I was asked to make all the necessary arrangements. I contacted Elsing well drillers from the Twin Falls and Filer area and started them to drilling the well. In the spring of 1978 I leveled out the old fields and took up a fence to make the farm larger and more feasible to operate. I installed a portable main line and had the pump connected to it. I planted grain and beans on approximately 160 acres in that year and used the new well to produce the water for irrigation. During the year 1979, the farm was leased to the L. D. S. Church Welfare System. I was chairman of the Stake committee and was responsible for the work performed on the Sweet farm for that year. It was planted to grain that year. Since that year Sweets have leased the farm to other neighbors and have also farmed it themselves and had me and neighbors help with the tractor work, planting, and harvesting. Other neighbors involved in the past years are: McCowans, Huysers, Tabers.

The well located in the N E corner of SE $\frac{1}{4}$ NW $\frac{1}{4}$ Sec. 28, T 6 S, R 18 E. has irrigated the farm every year since 1978. Approximate acres under cultivation from 1978 thru 1982 or 1983 is 160. As I remember additional acres were added to the irrigation well in 1983 or 1984 consisting of approximately 40 acres which was left in native grass. These additional acres added were in S E $\frac{1}{4}$ N E $\frac{1}{4}$ Sec. 29, T 6 S, R 18 E. All the acres intended for irrigation under this well application was completed prior to 1984.

If I may be of further assistance, please feel free to write to me or give me a call. My telephone number is (208) 544-2488.

To Whom It May Concern,

I have planted grain, swathed hay, and baled hay on the Bill Sweet farm for many years since 1980. I am familiar with the irrigation system and the irrigated acres on this farm and have observed its operation each year that I have planted and harvested crops on this farm. I know that there are approximately 160 acres each year in grain and hay, and an additional 40 acres which are irrigated for additional pasture for livestock.

To Whom It May Concern,

I have performed various types of work on the Bill Sweet farm since 1979, and have observed and worked with the irrigation system from time to time. Each year that I have been involved with the crops on this farm, I have observed that all the ground was irrigated with one well and pump which supplied the water to 3 inch hand lines. The farm under irrigation consists of approximately 160 acres which is usually planted to grain or hay every year, and approximately 40 acres of native grass pasture.

RE: PERMIT 37-7692

DATE: 1/30/89

=====

Mr. Sweet phoned today in response to our Swan Falls letter of 1/30/89. In addition to seeking clarification of the letter, Mr. Sweet stated that all of the land had been developed and irrigated before 7/1/85.

The file does in fact indicate that at least 140 of the 200 acres were irrigated prior to January of 1983. This was so noted on the Extension of Time Request filed by Mr. Sweet at that time. I explained that this was sufficient evidence as to the 140 acres, but that further evidence would be needed in regard to the remaining 60 acres.

Mr. Sweet stated he would try to get evidence to show that all of the land was under irrigation prior to 7/1/85. He felt obtaining aerials would be difficult and would attempt to get affidavits, power records and other information relative to irrigation equipment purchases etc... This information will be sent within the specified time period.

Hold further action on this file until completing evaluation of the additional information.

RE: PERMIT NO. _____

Dear PERMIT HOLDER:

Due to the Swan Falls litigation, development proposed by the enclosed permit may have been delayed. The Department is presently reviewing the permit and may authorize completion of development proposed under the permit.

The purpose of this letter is to determine: (1) the extent of development under the permit, and (2) your continued interest in developing or completing development under the permit.

Enclosed are two forms which will help the Department expedite the reprocessing of the permit.

Please complete and return the enclosed questionnaire if you wish to continue with your plans of development or have completed all or a portion of your development before July 1, 1985.

Please complete the enclosed relinquishment form and return it to the Department if you have abandoned or have no interest in continuing with your plans for development of the project.

If the entire project was not completed prior to July 1, 1985, and you still wish to proceed with your plans of development, then you must submit a \$20.00 re-advertisement fee to the Department as required by Water Appropriation Rule 4,2,3. and Section 42-221F, Idaho Code.

Failure to return the questionnaire and pay any required re-advertisement fee within thirty (30) days of the date of this letter is cause for the Department to cancel the permit.

If the incomplete portion of your project is for irrigation of more than 200 acres, the Department will issue a notice requesting additional information as required by Water Appropriation Rule 4.5. (copy enclosed).

SUBJECT Lapsed Permit 37-7692, William Sweet

Mr. Sweet filed proof of beneficial use at this office on 2-5-88, and paid the exam fee. Somehow the proof went into the regional permit file without being sent to Boise. You recently sent him a lapse notice on this permit. He called today to complain about this. After checking with Cheryl in the Vault, it was plain why the lapse notice was sent. I called Mr. Sweet back and apologized for our error. I told him that you would reinstate the permit once you received the ~~proof~~ proof form, which is attached. Please reinstate the permit as soon as possible, as it is obvious that he did his part to meet the permit requirements. somebody here messed up. Note the correct names and address of the permittees on the proof form. Delbert Sweet is now deceased. Thanks.

LAPSE NOTICE

You are hereby notified that under the provisions of Section 42-218a of the Idaho Code, the above referenced permit has lapsed. This office did not receive either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time. You were provided the proper forms in our proof due notice to you dated December 31, 1987.

Either the completed proof of beneficial use submittal including the examination fee or a completed field examination report or the extension request form together with the \$15 fee must be received by this department within sixty days of the date of mailing of this lapse notice or the permit will no longer be of any force or effect.

A proof of beneficial use form and a request for extension of time form are again enclosed for your use. Please note that only one extension of time can be granted unless the project has not been completed because of lack of a necessary approval by a governmental agency or by litigation which brings title to the water in question.

Re: Permit No. 37-7692

Enclosed is a copy of the approved request for extension of time. The time within which to submit the statement of beneficial use postcard is extended to March 1, 1983.

The decision in the case of Idaho Power Company vs the State of Idaho, et al stated in part that Idaho Power Company's use of water for power generation purposes at the Swan Falls dam on the Snake River is not subordinated to upstream depletion by later in time uses. The question of whether Idaho Power's 8,400 cfs water right at Swan Falls dam has been diminished by subsequent development, however, was remanded back to district court for determination. The findings of the district court could restrict water availability or require compensation to Idaho Power Company for uses developed later in time than Idaho Power Company's water right at Swan Falls dam.

Re: Permit No. 37-7692

Delbert Sweet
Box 73
Dietrich, ID 83324

Dear Mr. Sweet:

Your approved copy of Application for Permit No. 37-7692 is enclosed and we direct your attention to the conditions of approval on the fourth page.

Please note that a special condition requiring you to install and maintain a measuring device at your point of diversion has been placed upon your permit. Enclosed is a letter describing the different types of measuring devices accepted by this Department.

The exercise of this permit may also be affected by the court's determination of water rights in the case of Idaho Power Company v. State of Idaho, et al., Civil No. 62237, currently pending before the District Court of Ada County.

Idaho Power officials tell us that because of Case No. U-1006-124 filed before the Idaho Public Utilities Commission, Idaho Power Company is asking the District Court of Ada County to determine whether the Power Company's water rights on the Snake River are protected against subsequent upstream appropriations in the waters of the Snake River and surface and subterranean tributaries between Milner Dam and Hells Canyon.

Since the use of water under your permit may affect the flows in this reach of the Snake River, the final decision in Idaho Power Company v. State of Idaho, et al. (Ada County Civil No. 62237) may determine to what extent the exercise of your permit may be subject to the water rights of Idaho Power.

While the Ada County court is examining this question, Idaho Power Company has not filed a specific protest to your permit.

MICROFILMED

However, the Department of Water Resources has been advised that the Power Company is not waiving any of its rights to contest or limit the exercise of your permit or a subsequent license or water right.

If you have any questions, please let us know.

Sincerely,

A handwritten signature in cursive script, reading "L. Glen Saxton".
