WATER RIGHT LICENSE

License of Water Right No. 37-7631 Priority June 16, 1977 Amount 0.04 cfs

THIS IS TO CERTIFY, that Fern Pothier
of Hagerman, Idaho, has complied with the terms and conditions of Permit
No. 37-7631 issued pursuant to Application for Permit dated June 16, 1977,
and has submitted proof to the Department of Water Resources on June 8, 1982,
that he has applied water to a beneficial use; an examination by the Department indicates that the works have a
capacity for the diversion of 0.04 cfs of water from springs (2),
tributary to Snake River, and that the permit holder has applied to a beneficial use and
established a right to use water as follows:

Beneficial Use	Period of Use	Rate of Diversion	Annual Volume
Irrigation	from April 1 to November 1	at 0.02 cfs and	1.5 acre feet
Domestic (2 Units)	from January 1 to December 31	at 0.04 cfs and	1.2 acre feet
Aesthetics	from January 1 to December 31	at 0.04 cfs and	N/A

(both dates inclusive)

Subject, however, to the condition that no more than 0.04 cfs of water be diverted at any one time, and
that the amount of water so diverted and to which such right is entitled and confirmed is for the purpose
aforementioned and is limited to the amount which can actually be beneficially used and shall not exceed
2.7 acre feet per year, said waters to be diverted within the NW $\frac{1}{4}$ NW $\frac{1}{4}$ Section 27,
Twp 6S, Rge 13E in the County of Gooding

RE: Water Right No. 37-07631

Dear Water Right Holder(s):

Department water right records show that you divert water from the Snake River or its tributaries under a water right that has a priority date later than December 29, 1976. This is the priority of the established minimum stream flow of the Snake River at the Weiser Gage (Weiser) in the amount of 4,750 cubic feet per second.

Because of the continuing drought conditions in the Snake River Basin, department hydrologists project that during 1992, there could be periods when the required minimum flow will not be satisfied due to low flows of the Snake River. The department urges you to not divert at a higher rate than authorized by your water right and to not use your right in any manner different than authorized. In addition, when the minimum flow will not be satisfied or is not being satisfied, you are required to cease diverting water under your water right, because your right is of later priority than the minimum stream flow at Weiser.

If the department determines the minimum flow will not be satisfied, the department will advise you and will provide as much lead time as possible in requiring that you temporarily cease your diversion of water. The greatest likelihood for this to occur is during a period from mid-June to late June.

While the department expects good cooperation from junior water right holders, water users should be aware that Section 42-352, Idaho Code, provides for penalties of up to \$100 per day for unauthorized diversions of water.

The department has contacted both the Idaho Power Company and the U.S. Bureau of Reclamation with respect to the timing of storage releases from upstream reservoirs for flow enhancement purposes. This type of coordination could minimize the impact on

existing water users and reduce the need to curtail diversions.

The department has scheduled public information meetings relative to this potential regulation as follows:

Mountain Home - June 4, 1992 - 10:00 a.m. - gymnasium at
North Elementary School, 290 E. 12th N.

Caldwell - June 4, 1992 - 7:00 p.m. - Ballroom in the
Student Union Building, Albertson College of Idaho,
2112 Cleveland

If you have questions concerning this letter or wish to provide the name of a different contact person or address to receive department correspondence, please contact the department.

Re: Permit No. 37-7631

Dear Mrs. Pothier:

We acknowledge receipt of the affidavit submitted as proof of beneficial use for the above referenced permit.

Before a license can be issued, a field examination must be made by a representative of this Department. We cannot tell just when this examination will be made, but our examiner will try to contact you at the time he makes the examination so that you may show him the system.

Field examinations must be done while the system is in operation. For this reason we concentrate on irrigation permits during the summer months and do examinations on permits for other uses during the non-irrigating months.

If you have any questions regarding the field examination, please contact our office.

Sincerely,

Gary L. Funderburg
Sr. Water Resource Agent

Dear Mr. Pothier:

One of the conditions of approval of your water permit No. 37-7631 was that evidence of the extent of development must be submitted to this office on or before August 1, 1982. (See last page of your approved permit). Enclosed is a postcard which may be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted. A request for extension of time form is enclosed for your convenience. Please note that a fee of \$15.00 must be submitted with this form.

Either the beneficial use postcard or a request for an extension of time must be received by this department on or before the above-mentioned date, otherwise, the permit will lapse and be of no further force or effect within sixty days.

Sincerely,

RITA I. FLECK
Sr. Secretary

SUBJECT Pre-Permit Exam for Fern Pothier, Application # 37-7631

I have on this date examined the point of diversion, place of use, and water source as described in water-permit application 37-7631, by which Fern Pothier proposes to divert .04 cfs from an unnamed spring for domestic, aesthetic, & irrigation purposes. There appears to be sufficient water available for ^{all} this application and downstream users. Other aspects of the permit appear to be as specified in the application.
