Gentlemen:

With regard to your application for a well permit in the SW $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 21, Twp. 15S, Rge. 21E., B.M., there is some information I must have before your application can be processed further. Repeated attempts to obtain this information by phone have not been successful.

I need to know, by legal description, the quarter-quarter section where your well will pump into the Little Wood River West Canal. Also, where will this water be rediverted out of the canal system for use on the two parcels of land described in the application. What route does this water take between the West Canal and the 200 acres in Sections 5 & 8? Also, what percent of water loss will be deducted from your total to allow for seepage loss?

Please provide this information as soon as possible to avoid further delays in processing your application.

Sincerely,

James E. Stanton
