DATE: November 7, 2000

I met with David Coates and his son on August 4, 2000. David's son showed me around the house and corrals in Gooding. David met us later in Fairfield for another field exam. David is the son of Everett Coates, who was the original owner of the permit. Everett Coates is now deceased.

The well pertaining to this permit is located in the SWNW ¼ of Sec 25, Twn 06S, Rng 14E. This well has a 2 horsepower pump, and is connected to the house, barn, and corrals. I took a bucket and stopwatch measurement from one of the spigots near the barn. The measurement came to 0.03cfs. I checked it against the theoretical, which came to 0.04cfs. I calculated the volume by calculating the number of cattle and horses with gallons they drink per day. From November 1st to May 1st there are 600 head of cattle and 20 horses using the water. During the rest of the year there are only 10 horses on the property. The volume came to 4.22afa for the stockwater, and 1.2afa for the house and lawn.

My recommendation is as follows:

Stockwater	0.04cfs	4.22afa
Domestic	0.04cfs	1.2afa
Total	0.04cfs	5.42afa

Theoretical $\rightarrow \frac{8.8(2)(.7)}{200 + (60.231)} = \frac{12.32}{838.6} = 0.04 \text{ cfs}$

$V = \text{Smaller of } V_{I.R} \text{ and } V_{D.R} = \underline{\hspace{2cm}}$

2. Volume Calculations for Other Uses:

Stockwater from $11/1$ to $5/1$ $\rightarrow 620 \text{ stock } (12 \text{ gpd} \times 182 \text{ days}) / 325850 = 4.15$

Stockwater from $5/1$ to $11/1$ $\rightarrow 10 \text{ stock } (12 \text{ gpd} \times 184 \text{ days}) / 325850 = 0.07$

FROM: Gary Spackman *G.S.*

RE: Permit Nos. 37-7547 and 37-7549

DATE: October 9, 1986

Fee letters were sent to the permit holder, Everett Coates, on the two permits listed above via certified mail. The certified letters were not returned and Mr. Coates apparently received the letters.

Steve Miller, son-in-law of Mr. Coates, called me on October 3, 1986 and asked what additional action was necessary to perfect the water rights. I informed Mr. Miller that an examination fee would be required for Permit No. 37-7549, which permits irrigation use, but that an examination fee would not be required for Permit No. 37-7547 because the permit calls for only single domestic and stockwater use.

I mailed a copy of the fee examination letter to Mr. Miller accompanied by a fee information form and a fee schedule. I informed Mr. Miller that should he have any questions, he should contact Southern Region. His address is:

Re: Permit Nos. 37-7547 and 37-7549

Dear Mr. Miller:

Enclosed is an examination fee information sheet and payment schedule that must be completed and returned for Permit No. 37-7549, which permits the diversion of four (4) cfs for irrigation. A fee is not required for Permit No. 37-7547 because single domestic use and stockwater use is exempt from the fee requirement.

Please be advised that on April 30, 1986, the original of the enclosed examination fee notice was mailed, by certified mail, to Everett Coates, P.O. Box 327, Fairfield, Idaho 83327, and the letter has not been returned to this office. The Department assumes that Mr. Coates received the letter.

You will note that failure to pay the fee within sixty (60) days after the mailing of the notice results in a loss of one day of priority for every day the fee is late. I would suggest that the fee for Permit No. 37-7549 be submitted as soon as possible to avoid additional loss of priority.

You stated in our telephone conversation that you did not have copies of the permits in your possession. I have enclosed copies for your reference.

Although you are processing the permits, please write the current address of your father-in-law, Everett Coates, on the fee information sheet. We must maintain a mailing address for license processing.

Sincerely,

GARY SPACKMAN

CERTIFIED MAIL

EXAMINATION FEE NOTICE

Dear Permit Holder:

Department records show that proof of beneficial use has been submitted for the above-referenced permit, but that a field examination has not yet been conducted to determine the extent of beneficial use of the water for licensing purposes.

House Bill 671 (effective April 4, 1986) enacted by the 1986 Idaho Legislature requires the payment of a fee before this department can conduct the field examination needed to issue a license confirming use of water under the permit. This letter is notification that the license examination fee is due within sixty (60) days of the date of this letter. The examination fee information sheet (enclosed) must be returned with the fee.

As an alternative to submitting the fee, the department will accept a field examination report completed by a certified water right examiner from the private sector. If you choose to have the examination done by a certified water right examiner, you need not submit the license examination fee to the department, but you must within sixty (60) days of the date of this letter return to the department, the examination fee information sheet showing appropriate information together with a statement from the certified examiner to verify that you have retained a certified examiner to conduct the field examination. If you choose this alternative, a completed field examination report must be submitted within one year of the date of this letter. You cannot later change your decision to use this alternative and submit the fee needed for the department to conduct the field examination, but you may change to another certified examiner.

Certified water right examiners are licensed engineers, geologists, or land surveyors certified by the department to conduct water right examinations. The procedure for certifying examiners results from the recently enacted HB 571 and is being developed at this time. A listing

JUN 11 2002

of certified water right examiners will be available from this department when examiners have been certified.

If your permitted use, in fact, has already been examined by the department and you have not asked to have the examination repeated, the fee requirement is not applicable to your permit. If you believe this is the case, please contact the department.

The license examination fee is to be based on the amount of water you indicate you have developed, as listed in item 6 on the examination fee information sheet. The amount of water on which the examination fee is based can be less than the permitted amount, if less water has been diverted and beneficially used. The licensed amount of water, however, will not exceed the amount you claim on the examination fee information sheet. The enclosed license examination fee schedule shows a listing of applicable fees.

FAILURE TO SUBMIT WITHIN THE SIXTY (60) DAY PERIOD, THE FEE OR THE STATEMENT THAT A CERTIFIED EXAMINER HAS BEEN RETAINED TO MAKE THE FIELD EXAMINATION, WILL BE CAUSE TO ADVANCE THE PRIORITY OF THE PERMIT ONE DAY FOR EACH DAY THAT THE FEE SUBMITTAL IS LATE.

FAILURE TO SUBMIT THE FEE OR THE COMPLETED FIELD EXAMINATION REPORT WITHIN A YEAR WILL BE CAUSE TO CONSIDER THE PROOF OF BENEFICIAL USE TO BE INCOMPLETE AND TO LAPSE THE PERMIT.

The attached examination fee information sheet and the fee may be submitted to the following department offices.

Re: Permit No. 37-7547

Dear Mr. Coates:

We acknowledge receipt of the affidavit submitted as proof of beneficial use for the above referenced permit.

Before a license can be issued, a field examination must be made by a representative of this Department. We cannot tell just when this examination will be made, but our examiner will try to contact you at the time he makes the examination so that you may show him the system.

Field examinations must be done while the system is in operation. For this reason we concentrate on irrigation permits during the summer months and do examinations on permits for other uses during the non-irrigating months.

If you have any questions regarding the field examination, please contact our office.

Sincerely,
