Seattle, Washington 98108

Gentlemen:

One of the conditions of approval of your water Permit No. 37-7507 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before November 1, 1977. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Gentlemen:

We are in receipt of your letter of August 5, 1976 asking for several corrections to our original application for a water resources permit. We are therefore enclosing the following:

1. Corrected point of diversion to the NW quarter of NW quarter of Section 14
2. Redesign inlet structure to prevent scouring
3. Enclosed with this permit legal description of the lots served

We believe this corrects all deficiencies noted in your letter with regard to our original application. We therefore anticipate that you now will be able to process this application in your normal manner. If you have any further questions, please feel free to call.

Very truly yours,
