EXAMINATION FEE NOTICE

Dear Permit Holder:

Department records show that proof of beneficial use has been submitted for the above-referenced permit, but that a field examination has not yet been conducted to determine the extent of beneficial use of the water for licensing purposes.

House Bill 671 (effective April 4, 1986) enacted by the 1986 Idaho Legislature requires the payment of a fee before this department can conduct the field examination needed to issue a license confirming use of water under the permit. This letter is notification that the license examination fee is due within sixty (60) days of the date of this letter. The examination fee information sheet (enclosed) must be returned with the fee.

As an alternative to submitting the fee, the department will accept a field examination report completed by a certified water right examiner from the private sector. If you choose to have the examination done by a certified water right examiner, you need not submit the license examination fee to the department, but you must within sixty (60) days of the date of this letter return to the department, the examination fee information sheet showing appropriate information together with a statement from the certified examiner to verify that you have retained a certified examiner to conduct the field examination. If you choose this alternative, a completed field examination report must be submitted within one year of the date of this letter. You cannot later change your decision to use this alternative and submit the fee needed for the department to conduct the field examination, but you may change to another certified examiner.

Certified water right examiners are licensed engineers, geologists, or land surveyors certified by the department to conduct water right examinations. The procedure for certifying examiners results from the recently enacted HB 671 and is being developed at this time. A listing

MAR 10 1986

of certified water right examiners will be available from this department when examiners have been certified.

If your permitted use, in fact, has already been examined by the department and you have not asked to have the examination repeated, the fee requirement is not applicable to your permit. If you believe this is the case, please contact the department.

The license examination fee is to be based on the amount of water you indicate you have developed, as listed in item 6 on the examination fee information sheet. The amount of water on which the examination fee is based can be less than the permitted amount, if less water has been diverted and beneficially used. The licensed amount of water, however, will not exceed the amount you claim on the examination fee information sheet. The enclosed license examination fee schedule shows a listing of applicable fees.

FAILURE TO SUBMIT WITHIN THE SIXTY (60) DAY PERIOD, THE FEE OR THE STATEMENT THAT A CERTIFIED EXAMINER HAS BEEN RETAINED TO MAKE THE FIELD EXAMINATION, WILL BE CAUSE TO ADVANCE THE PRIORITY OF THE PERMIT ONE DAY FOR EACH DAY THAT THE FEE SUBMITTAL IS LATE.

FAILURE TO SUBMIT THE FEE OR THE COMPLETED FIELD EXAMINATION REPORT WITHIN A YEAR WILL BE CAUSE TO CONSIDER THE PROOF OF BENEFICIAL USE TO BE INCOMPLETE AND TO LAPSE THE PERMIT.

The attached examination fee information sheet and the fee may be submitted to the following department offices.

Dear Matt:

In response to your letter dated January 12, 1982, we have researched our records and found the following information:

1. The only water right that we find in the name of Larry Strickland is Permit No. 37-7438, copy attached.
2. The only water right that our records show to be appurtenant to the NE $\frac{1}{4}$ Sec. 28 T6S R14E or the S $\frac{1}{2}$ SW $\frac{1}{4}$ Sec. 22 T6S R14E is No. 37-7438. It is possible that the Big Wood Canal Company delivers water to these lands. We do not have a listing of acres irrigated by the company because their lands irrigated exceed the statutory cutoff of 25,000 acres.
3. Water distributed by the Big Wood Canal Company is titled in the name of the Big Wood Canal Company, not by the ultimate users of the water.
4. Pursuant to a conversation between Roberta Garrett and Reid Newby, each share in the Big Wood Canal Company represents 5/8 miners inches, so 70 shares would represent 43.75 miners inches or .875 cubic feet per second (cfs).
5. American Falls Reservoir District #2 holds title to a permit for 20.0 cfs for power purposes from the Snake River diverted at Milner (Permit No. 01-7022). The District also holds title to water in Milner Reservoir for irrigation purposes. The best quantification of this right can be obtained from Mr. Leon Grieve, Manager of the District. I called Mr. Grieve's office at 886-2331, but he was not in today. In the interest of a timely response, I will not delay the letter until Mr. Grieve returns, but instead suggest that you give him a call, Matt.

If you wish to keep the copy of Permit No. 37-7438, please remit \$1.00 to this office. If not, just return it. I hope this information is what you are looking for.

Dear Dave:

Would you please be kind enough to examine the records of the Department of Water Resources and advise me in writing as soon as possible concerning the following questions:

37-7438 1. Whether or not there are any water rights of record in the name of Larry Strickland of Gooding, Idaho?

37-7438 2. Whether or not there is any water of record appurtenant to the NE4 Section 28 T6S R14E or the south half SW4 Section 22 T6S R14E?

in name
3. Whether the water distributed by the Big Wood Canal Company is titled in the Big Wood Canal Company or in the ultimate users of the water?

Reid Kenley
5/8" per share
4. If your records show how much water is represented by 70 shares of stock in the Big Wood Canal Company?

5. Whether or not the American Falls Reservoir District #2 holds title to water out of Milner?

Dear Mr. Strickland:

One of the conditions of approval of your water Permit No. 37-7438 was that evidence of the extent of development must be submitted to this office on or before June 1, 1980. (See last page of your approved permit). Enclosed is a post card which may be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use post card or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise, the permit will lapse and be of no further force or effect within 60 days.

Sincerely,

RITA FLECK
