RE: Application for Permit 37-08852

Dear Mr. Longley:

A recent examination of pending applications in our office revealed that Application for Permit 37-08852, filed in the name of Hulen Meadows Water System, is still pending. This particular application was filed in October of 1995.

During the review of application for permit 37-08852, it was discovered that several older existing water rights were already appurtenant to the Hulen Meadows Subdivision. In addition, a water right permit, 37-08601, was pending licensing for the subdivision. It was decided to delay action on application for permit 37-08852 until permit 37-08601 was licensed.

During the licensing of water right 37-08601, it was determined that the existing water rights that were appurtenant to Hulen Meadows when combined with water right 37-08601 covered all the water uses for the subdivision. Therefore, the application that you filed in October of 1995 was not necessary.

Our Department, and the subdivision, need to address the pending application for permit 37-08852, filed in October of 1995. Since the application for permit is no longer necessary due to the existing water rights covering the subdivision's water use(s). Our Department can process, and eventually deny, the application, or you can withdraw the application. Since this particular application has not been advertised yet, you may be able to obtain a refund of your \$100.00 application filing fee (if requested). I have enclosed a partially completed form that would enable the subdivision to withdraw the application.

MICROFILMED

APR 25 2000

October 1, 1997

As you recall, all the existing water rights, except recently licensed water right 37-08601, for the subdivision do not reflect the actual point of diversion (well) locations. In addition, the Snake River Basin Adjudication claims filed for the subdivision do not reflect the current point of diversion locations. This is partially due to the abandonment of the well located along Sorrel Lane and the addition of the new well along Hulen Way. Representatives of the Department have discussed with you the need for the filing of a water right transfer application to correctly record the existing well locations.

I encourage you, and the subdivision, to file an application for transfer to properly record all the current well locations on all of the subdivision's existing water rights. If you, or the subdivision, need assistance in this process feel free to contact me. The filing fee for an application for transfer is \$100.00, so if you obtain a refund from withdrawing application for Permit 37-08852, you could use this money to file the transfer application.

If you have any questions, or if I can be of any assistance, feel free to contact me at your convenience.

Sincerely,

Corey Skinner, EIT

TO: File No. 37-02734, 37-07011, 37-07290, & 37-08601
FROM: Cindy Zimmerman 
RE: Transfer Required

During the review of the beneficial use examination on 37-08601, I noted that the legal description of the points of diversion for licenses 37-02734, 37-07011, and 37-07290 required correction to add the backup well drilled in 1992.

I spoke with Marc Longley, manager of Hulen Meadows Subdivision on 9/26/96 about filing a transfer to make the p/d corrections. Mr. Longley understood and agreed to the corrections and will file a transfer.

Application for permit 37-08852 filed by Mr. Longley to cover any additional water use not covered by existing rights. The licensing of 37-08601 covered all remaining uses of water for the subdivision. Therefore, the new application is unnecessary. Mr. Longley plans to withdraw the application when he files the transfer and apply the permit application fee against the transfer filing fee. As of this date, we have not received either the transfer application or the request to withdraw the permit application at this office.

Today Corey Skinner called in follow-up to this situation. I explained the above to him. Corey volunteered to pursue the disposition of the permit application and transfer.

Dear Sirs,

A representative of this Department made an examination of the works covered by your Permit No. 37-7290 on April 5, 1978, and has found the following:

Amount of water that can be recognized as beneficially used under
Idaho law: 1.11 cfs Source: groundwater

The maximum quantity diverted shall not exceed 68.4 acre feet
per year.

Point of diversion: NW $\frac{1}{4}$ SW $\frac{1}{4}$, SW $\frac{1}{4}$ SW $\frac{1}{4}$, SE $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 36, Twp. 5N, Rge. 17E, B.M.

Beneficial use: Domestic use for 57 homes within the W $\frac{1}{2}$ SW $\frac{1}{4}$, Sec. 36, Twp. 5N,
Rge. 17E; NW $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 1, Twp. 4N, Rge. 17E.

Priority date established: October 11, 1973.

In order for the Department to issue the above license, it will be necessary for you to amend the permit to correspond with the findings of the field examiner. We are enclosing a partially completed amendment form for your use in this matter.

Please sign the amendment application and return it to this office along with a \$20.00 filing fee within 30 days in order that we might issue your license as set forth above. If you do not concur with these findings or have any questions, please contact us within the 30-day period.

Gentlemen:

One of the conditions of approval of your water Permit No. 37-7290 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before December 1, 1976. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Attn: Mr. R. Keith Higginson Re: Permit #37-7290

Dear Mr. Higginson:

I wish to get an extension on the above permit proof affidavit which was due in your office by December 1, 1974.

We had one delay after another on the delivery of the pump and the three phase wiring to said pump. To date we still do not have either the pump or the wiring to the site. I had hoped to have it in by the middle of November at the latest and to get the proof affidavit sent to you by the 1st of December.

As of this date the pump company is still waiting for one part to the pump to arrive so I may not get delivery for a nother month. I therefore would like to get an extension of time.
