Dear Mr. Diggins:

One of the conditions of approval of the above referenced water right permit was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before August 1, 1978. The enclosed affidavit form is the document you must complete and submit as the proof of application of water to beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Re: Permit No. 37-7244/Diggins

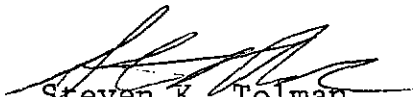

Dear Ms. Grover:

The basis of the lawsuit involving Mr. Diggins' water rights centered around the transfer of surface water rights with the purchase of his property. A suit was filed by the seller, James Harris, in the District Court of the Fifth Judicial District, case No. 7432, on February 26, 1976 to quiet title to those water rights. The suit was concluded on April 1, 1977 with Mr. Harris gaining title to said water rights.

Dear Mr. Allred:

I would like to ask for an extension of time on my permit. My land consists of 5 acres, and there was a court decision for our subdivision's water rights. It was against the landowners so it will take a great deal of money to complete my project to cover the entire 5 acres. If possible, I would like an extension of two years.

Dear Mr. Higginson,

I would like to request an extension of my Permit # 37-7244 for at least one more year. My well is completed, and underground pipe has been put in with rain birds in the area around my home. This is approximately 305' x 200', and this should be finished by the first of Sept.. The other four acres has ditches, and the water rights to a nearby canal is in litigation. This should be brought before a judge in the near future. If the decision is favorable to me and the other property owners in my subdivision, I would not have to put in more lines to this area of irrigation from my Pump. This would allow me to complete my system by next Summer.
