Dear Mr. Davis:

One of the conditions of approval of your water Permit No. 37-7230 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before July 1, 1974. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Dear Mr. Davis:

I have taken this application for permit and transferred the information from your claim to a water right which you brought into the office. In some cases, I inserted information that is required on this form, but not on the claim. Please look this over carefully and if everything is satisfactory, please sign it and return it with a check for \$10.00 filing fee or stop in our office.

Please note that the amount of water is only .03 c.f.s. This is normally the rate our Department will license you for on this number of cattle. It is certainly much more water than is needed for their use.

If you have any questions, please feel free to contact us.
