NOTICE OF APPLICATION FOR WATER PERMIT

Notice is hereby given that Lynn E. Stevenson, Rt. 1, Box 45, Gooding, ID has on April 2, 1973 submitted Application No. 37-7216 for a permit to appropriate 4.0 cubic feet per second of water from an Un-named Springs, tributary of Snake River by means of pipeline, pump, and sprinkler system within the SW $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 8; NE $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 17, T. 6S, R. 13E, B.M., Gooding County to be used from Jan. 1 to Dec. 31 for fish propagation and from March 15 to Nov. 15 for the irrigation of 206 acres within the NW $\frac{1}{4}$, N $\frac{1}{2}$ SW $\frac{1}{4}$, Sec. 17; SW $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 8; NE $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 18; SE $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 7, T. 6S, R. 13E, B.M.

If issued, this permit will be subject to all prior water rights. Protests against the granting of the permit must be filed with the Idaho Department of Water Administration, 1041 Blue Lakes Boulevard North, Twin Falls, Idaho, 83301 on or before April 30, 1973.

Dear Bob:

We are enclosing a copy of the above referenced applications for permit, which may be of interest to your agency.

Please review the applications and if you have any comments, please submit them to our department as soon as possible.

We normally complete the processing of an application within a six (6) week period and we are required to take final action shortly thereafter.

If we may be of any assistance to you in the meantime, please do not hesitate to contact this Department.

Sincerely,

Bob Maynes
District Engineer
Southern District

Gentlemen:

Enclosed you will find a legal notice which we wish to have published once a week for two consecutive weekly issues of your newspaper. We have inserted the publication dates allowing ample time for you to submit us a galley proof for review before publication.

After sending us a galley proof, proceed with the publication on the dates we have inserted, assuming the notice is correct. If we have any corrections, we will notify you before the first publication. If you cannot publish the notice on the proposed dates, please contact us immediately.

An affidavit of publication must be submitted to the Department along with the publication bill. In order to receive payment, the following certification must appear on the bill:

"I hereby certify that the foregoing account is just and correct, that the amount claimed is legally due, after allowing all just credits, and that no part of the same has been paid."

(signature of claimant)

Very truly yours,

Bob Haynes

RE: Permit Nos. 37-7216 & 37-7712

NOTICE OF PENDING ORDER VOIDING PERMITS

Dear Mr. Stevenson:

The above referenced permits were filed for fish propagation and irrigation purposes. Water delivery systems for these purposes were established and field inspections were made.

On January 13, 1992, the Department sent you a notice that your permits must be amended to correspond with the findings of the Department's field examiner before they can be licensed. The original permits identified points of diversion located within the SW $\frac{1}{4}$ SW $\frac{1}{4}$, Section 8; and the NE $\frac{1}{4}$ NW $\frac{1}{4}$, Section 17; Twp 6S, Rge 13E. The points of diversion verified by the examiner are within the SW $\frac{1}{4}$ SW $\frac{1}{4}$, Section 8 and the NW $\frac{1}{4}$ NW $\frac{1}{4}$, Section 17. Further, the place of use under each right included 40-acre tracts not originally identified on the permits.

The purpose of this letter is to request that you sign the amendments and return them with the \$20.00 filing fee per amendment within thirty (30) days of the date of mailing of this letter. If you fail to respond to this notice, the Department will act to void your permits. The permits will be voided for failure of the holder to comply with the conditions of the permits. One of the conditions of each permit was that the point of diversion and/or place of use would be developed as indicated

MICROFILMED

MAY 18 1992

Page 2

on the permit. The only process for changing those locations is by means of an amendment, thus, failure to submit the amendments is cause for the director to void the permits. Subsequently, diversion of water without a valid water right is cause for the Department to issue a cease and desist order.

If you have any questions in regard to this matter, please feel free to contact our office.

Sincerely,

JIM JOHNSON
Water Rights Supervisor

RE: Permit Nos. 37-7216 & 37-7712

Lynn E. Stevenson
Star Rt., Box 3
Bliss, ID 83314

Dear Mr. Stevenson:

We have attempted on several occasions during the past few years to obtain amendments for the above referenced permits in order to issue licenses on the rights. These attempts have been unsuccessful.

The amendments are needed to reflect the two points of diversion in the NWNW, S17, T6S, R13E.

This is a final request for you to submit the enclosed amendments along with the filing fees (\$20.00 each).

If we do not receive the licensing amendments in this office within 30 days from the date of mailing of this letter, licenses will be issued to reflect only two points of diversion rather than the three actually used. The Department may also issue an order requiring you to cease using water from the third point of diversion.

If you have any questions, please give me a call.

Sincerely,

SHARLA CURTIS
Water Resource Agent

SUBJECT

37-7712 + 37-7216

Let's discuss. I cannot see that the license has been reduced except to leave off several p.d.'s. Does the Field exam support 6 cfs coming from the one p.d. in SW SW of 8? Are we willing to order the use of the other p.d.'s to be stopped once this license is issued. Probably better to work to issue an accurate license than to fight that problem.

Jim -

You want to write the memo to Norm explaining that after reading entire letter of 12/12, we reduced the licenses since the holder did not return the amendments. In this case, the amt. of wtr. & p.d. were fine - the P.d.'s were reduced to only SWSW.

SE

Glen

How are we avoiding the need for amendment (see letter of 12/12/86)?

Jim,

Let's print amendments for these two & ask region to hand carry to Stevenson. Gary.

MEMORANDUM

TO: LOREN HOLMES

FROM: JIM JOHNSON

RE: LICENSING OF PEREMITS 37-7216 & 37-7712

DATE: 3-20-88

Attached are two amendments for the aboved referenced rights. Gary has requested that you hand carry the amendments to Lynn Stevenson in an attempt to get his signature and fee so that we can complete the licensing of his permits.

If you have any questions you might want to give Gary a call.

RE: Permit No. 37-7216

Lynn E. Stevenson
Star Rt., Box 3
Bliss, ID 83314

Dear Permit Holder:

On October 8, 1986, we forwarded to you an Amendment for Water Permit so that you could amend your permit to correspond with the findings of the Department's field examiner.

As of this date, we have not received this amendment.

If we do not receive the amendment within fifteen (15) days, we will issue a Water Right License which reduces the amount that could have been allowable to you.

Since the license will be a permanent water right your prompt attention to this matter will be appreciated.

If you have any questions please contact us as soon as possible.

Sincerely,

JIM JOHNSON
Water Rights Supervisor

Dear Permit Holder(s):

The above referenced water right is in the process of being licensed. However, before a license can be issued, your permit must be amended to correspond with the findings of the Department's field examiner.

The enclosed application for amendment contains all of the information that will be included on the license when it is issued. Please review carefully and if you concur, sign the amendment and return with the \$20.00 filing fee within 30 days.

If you do not concur with these findings or if you have any questions, please contact us within the 30-day period.

Sincerely,

JIM JOHNSON
Water Rights Supervisor

INTER-DEPARTMENT MEMO — 1

DATE 11-7-85

FROM Jim S.

TO Jim Johnson

Department of Water Resources

SUBJECT Field Exam, Permit 37-7216, Lynn Stevenson

In answer to your letter concerning this exam, Mr. Stevenson told me that his pumps supply eight $\frac{1}{4}$ -mile wheel lines (264 heads) with 11/64" nozzles operating at 60 psi. The Rainbird book shows this to produce 6.56 gpm per head, or 3.84 cfs. The upper pump is well below the upper weir, so does not affect flow over the weir. The lower weir is just below the pump inlet; the pump was off during the measurement. The full 4 cfs is available for fish propagation all year, as the water runs thru the pond before reaching the pump.

MEMORANDUM

TO: Loren Holmes

FROM: Jim Johnson

DATE: September 24, 1984

RE: Field Exams on Lynn Stevenson's System

I have reviewed 4 permits filed by Stevenson and the field exams which cover his system.

His system appears to use water from three major spring locations. Permits 37-7216 and 37-7712 identify two springs located within the SW $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 8 and NW $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 17, Twp 6S, Rge 13E.

Permit 37-7216 includes irrigation as well as fish propagation. According to the field exam, two locations are used to pump water for irrigation. The exam does not include calculations to determine if pumps can supply the amounts recommended for irrigation. This should be shown.

Also, the field exam does not state if the pump(s) were in operation when the flow across the weir was measured, nor does it state if the weir is located above or below the pump(s).

The amount of water available for the fish ponds located in Sec. 18 would vary depending on the irrigation season. Therefore, the amount for fish propagation for this period should be listed.

The aerial photo attached to the field exam shows two weirs, one at the lower end of the Montana Mining Ditch in Sec. 17. Neither of these weirs match the description of the weir found on the Montana Mining Ditch identified on the field exam done on permit 37-7217, which describes a re-diversion on Montana Mining Ditch as 4.33'. This should be cleared up.

Permit 37-7217 also shows water from springs located in the SE $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 17 used for two ponds located in Sec. 18. There is no method made of overlap analysis of same source on the field exams. This should be done.

Re: Water Permits 37-7216; 37-7217; 37-7218; & My Letter of November 08, 1979

Dear Mr. Stevenson:

Since this is the third field season since you filed proof on these permits, I feel it is necessary for these exams to be completed this year. As I discussed in my letter of November 8, 1979, measuring devices need to be installed before the field work can be completed. Once this is done, we should discuss my findings to be sure that I have interpreted your diversion systems and water usage correctly.

Please contact me when you are ready to complete these exams. Unless this is done in 1980, I will have to recommend that the permits be cancelled due to lack of cooperation and failure to comply with requirements.

Sincerely,

James E. Stanton
Senior Water Resource Agent

Re: Water Permits 37-7216, 37-7217, 37-7218

Dear Lynn:

I've done as much of the field work as I could on these permits, and 37-7216 should be ready for licensing if you concur with my findings. Additional measuring devices need to be installed before the other two license exams can be completed. A weir plate needs to be installed at your main diversion from the Montana Mining Ditch for 37-7217 and 7218. The water that enters the two ponds in the SE 1/4, Sec. 8 from the Montana Mining Ditch also needs to be measured; a weir at the inlet or outlet of these ponds should suffice, or you may wish to install a flume in the Montana Ditch itself.

Since the number of irrigated acres I found is much less than what was filed on, I would like to meet with you to discuss this. Perhaps we could do this and complete the remaining field exams at the same time.

Sincerely,

James E. Stanton
Senior Water Resource Agent

INTER-DEPARTMENT MEMO — 1

FROM Jim Stanton

DATE 6-22-79

TO Whom It May Concern

SUBJECT Request For Waiver Of Inlet Measuring Device For Permit 37-7216

I have examined the water source and delivery system developed for the above permit. The two springs arise on the permit holder's land, flowing through his land until they enter the Snake River; said springs are not available to other potential or actual water users. The springs flow in short ditches and pipelines until they join at the upper end of 3 fish ponds. ~~Except for the irrigation diversion (part of said permit) from~~ There is little chance for water loss to this point. There is a weir at the end of the last pond; water is diverted for irrigation below the weir. There is about $\frac{1}{2}$ mile of open ditch to two more fish ponds, which are also fed by water from another source. I told Mr. Stevenson that measuring devices would be needed above and below the lower set of ponds, but suggested that he request a waiver of the inlet measuring device for this permit. Although not at the diversion points, the weir below the first set of ponds should provide an accurate flow measurement; due to the system design, this is the most practical place for a measurement. Suggest waiver be granted.

Dear Mr. Stevenson:

One of the conditions of approval of your water Permit No. 37-7217, 37-7216 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before May 1, 1978. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Gentlemen:

Enclosed you will find a legal notice which we wish to have published once a week for two consecutive weekly issues of your newspaper. We have inserted the publication dates allowing ample time for you to submit us a galley proof for review before publication.

After sending us a galley proof, proceed with the publication on the dates we have inserted, assuming the notice is correct. If we have any corrections, we will notify you before the first publication. If you cannot publish the notice on the proposed dates, please contact us immediately.

An affidavit of publication must be submitted to the Department along with the publication bill. In order to receive payment, the following certification must appear on the bill:

"I hereby certify that the foregoing account is just and correct, that the amount claimed is legally due, after allowing all just credits, and that no part of the same has been paid."

(signature of claimant)

Very truly yours,

Bob Haynes
District Engineer
