Dear Ms. Sorensen:

Thank you for your letter dated March 21, 1983, and the licensing amendment along with the \$20.00 filing fee. However, in reviewing the permit I find that it is in the name of Monte Sorensen only. In Idaho, a water right permit is considered personal property and can only be acquired when the permit holder assigns all or part of the permit to another party. In your case, where Mr. Sorensen has passed away, we must request that you send us a copy of the legal documentation which appointed you executrix or personal representative of the estate.

After we are in receipt of this type of legal documentation, we will be able to accept your signature on the licensing amendment and issue the license.

If you have any questions, please contact me at 334-4123.

Sincerely,

Re: Permit No. 37-7189

Dear Mr. Sorensen:

We acknowledge receipt of the affidavit submitted as proof of beneficial use for the above referenced permit.

Before a license can be issued, a field examination must be made by a representative of this Department. We cannot tell just when this examination will be made, but our examiner will try to contact you at the time he makes the examination so that you may show him the system.

Field examinations must be done while the system is in operation. For this reason we concentrate on irrigation permits during the summer months and do examinations on permits for other uses during the non-irrigating months.

If you have any questions regarding the field examination, please contact our office.

Gary L. Funderburg

Dear Mr. Sorensen:

One of the conditions of approval of your water Permit No. 37-7189 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before March 1, 1978. If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Dear Mr. Sorensen:

In reference to your Application No. 37-7189, there has been a delay in processing the application due to advertising difficulties. A legal notice was sent to the Lincoln County Journal on December 29, 1972 to be advertised in their paper on January 4 and January 11, 1973. Due to change over of management, the legal notice was published only in the January 4th issue. We made arrangements for the second publication to be advertised on February 1, 1973 which has been done. Upon receiving the affidavit of publication on February 2, 1973, we have discovered that the legal notices were advertised incorrectly as to the place of use. A notice of correction must now be published once a week for two consecutive weekly issues of the Lincoln County Journal. The notice of correction will be published on February 15 and February 22, 1973. As soon as we receive the affidavit of publication for the notice of correction, we will finish processing the application.

We regret any inconvenience that this delay may have caused you.
