Dear Mr. Koonce:

In regard to your Application for Permit to Appropriate Waters of the State of Idaho, on Jan. 3, 1973 I wrote you advising it would be necessary to obtain a special use permit from the United States Forest Service to develop the water. To date we have received no reply. In order to complete the requirements of this permit, it will be necessary to submit this information within 30 days or we will begin processing to cancel this permit.

If you have any questions, don't hesitate to contact us.

Very truly yours,

Dear Mike: I am still waiting on the Forest Service. I have no idea why it is taking so long. I hope my application is not necessary to cancel my application because I definitely want to follow through with it and the delay is not my fault. Thank you.

Dear Mr. Koonce:

One of the conditions of approval of your water Permit No. 37-7175 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before September 1, 1978. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise, the permit will lapse and be of no further force or effect.

Dear Mr. Steele:

Mr. Koonce has made application for a special use permit to develop a spring on National Forest land. We are processing Mr. Koonce's application at this time. The spring in question is located on the Ketchum Ranger District just outside the National Recreation Area's boundary.

Our concern at this time is how the transmission line will be installed and what effect it will have upon the land. We will need to work this out with Mr. Koonce.

If you need more information, please let us know.
