Dear Sirs,

A representative of this Department made an examination of the works covered by your Permit No. 37-7147 on June 2, 1977, and has found the following:

Amount of water that can be recognized as beneficially used under
Idaho law: 0.15 cfs Source: groundwater

The maximum quantity diverted shall not exceed 108 acre feet
per year.

Point of diversion: NE $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 24, Twp. 4N, Rge. 17E, B.M.

Beneficial use: Domestic use within the NE $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 24, Twp. 4N, Rge. 17E.

Also within the SW $\frac{1}{4}$ SW $\frac{1}{4}$, SE $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 23, Twp. 4N, Rge. 17E, B.M.

Priority date established: May 23, 1972

In order for the Department to issue the above license, it will be necessary for you to amend the permit to correspond with the findings of the field examiner. We are enclosing a partially completed amendment form for your use in this matter.

Please sign the amendment application and return it to this office along with a \$20.00 filing fee within 30 days in order that we might issue your license as set forth above. If you do not concur with these findings or have any questions, please contact us within the 30-day period.

Gentlemen:

One of the conditions of approval of your water Permit No. 37-7147 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before July 1, 1977. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Dear Mr. Stewart:

We received your December 28, 1972, letter and it appears that satisfactory progress is being made on the water system.

Your letter is sufficient for making the changes you mentioned in the size of the pump and the correction in the size of the building.

When you give the well to the Sun Valley Water and Sewer District, please complete the enclosed assignment so that all future correspondence will be sent to them.

Thank you for letting us know of your progress.

Dear Sirs:

Attached please find a copy of your letter dated July 21, 1972, regarding the approval application for Permit No. 37-7147, and also a copy of the approved application for a permit.

We have installed under direction of Keith Anderson of Anderson & Kelly, a displacement or propeller meter as checked under (a) of Commercial Types on Page Two.

We have made some changes on the copies of the application which evidently are in error. Please note that a 5 HP submersible pump was used instead of a 20 HP. On the next page, please note that when our Baldy Mountain restaurant is completed, it will be approximately 10,000 square feet instead of 1,000.

Would you please advise of what we should do to see that these corrections are made. The water was used for the domestic water supply for customer use at the Restaurant as of December 16, 1972. We had used some water previous to this in testing, filling, flushing and sterilizing the system.

As soon as we can do this, we wish to give the well to the Sun Valley Water and Sewer District as per verbal instruction from Keith Anderson.

If there is any further information needed, Mr. Kelly or Mr. Anderson can be reached at Boise, phone number 375-9220, or at 6700 Emerald Street, Boise, Idaho 83704.

Dear Wateruser:

The Department of Water Administration approves the use of any standard device for which information is readily available. The type selected will depend upon the particular conditions at your diversion point. Any of the following standard types may be used:

Weirs

- a. rectangular
- b. cipolletti
- c. v-notch

Orifices

Flumes

- a. parshall flume
- b. trapezoidal flume

Commercial Types

- ✓ a. displacement or propeller meter
- b. cox flow meter or collins flow meter
- c. venturi meter
- d. deflection meter
- e. meter gates

Regardless of the type used, the device must be properly installed to insure standard conditions. Other types may be approved upon written application to the Department stating the description of the device and how you intend to use it. If the device that you install is not a standard type, you should obtain an extra copy of the rating table for this office.
