Re: Permit No. 37-7144 - Tikura Well, 4290

Dear Mr. Higginson:

I am resubmitting "Proof of Application of Water to Beneficial Use" for Permit No. 37-7144- Tikura Well, 4290. The original Proof of Application was mailed June 13, 1973.

We assumed everything was in order as Mr. Savaria, of this office, had discussed with Mr. Gary Thunderberg, of your Twin Falls office, the necessary examination of the well. Mr. Thunderberg said he would arrange to make the examination soon after he received the permit.

This well is vital to the management of the Tikura Cattle Allotment; therefore if this permit cannot be reinstated please let us know what must be done to obtain a permit. Final installation on the well was completed and the well put into production June 13, 1973.

Permit No. 36-7231- Van Noy Pond, 4322 has lapsed. This was a cooperative project which, since filing the application for permit, the cooperator has decided against building the pond. Because it was for his use only the Bureau has no interest in completing the project.

I hope the above explanation will suffice, and you will consider the attached Proof of Application of Water to Beneficial Use.
