Dear Mr. Piotroski:

We acknowledge receipt of the affidavit submitted as proof of beneficial use for the above referenced permit.

Before a license can be issued, a field examination must be made by a representative of this Department. We cannot tell just when this examination will be made, but our examiner will try to contact you at the time he makes the examination so that you may show him the system.

If you have any questions regarding the field examination, please contact our District Office in Twin Falls.

Dear Mr. Piotroski:

One of the conditions of approval of your water Permit No. 37-7121 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before April 1, 1976. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Dear Mr. Piotroski:

We have reviewed your application for permit and find that additional information is needed in order for us to accept your application. We are returning this application and money order #15-119, in the amount of \$10.00 and ask that you complete the following numbered items relating to the application.

Item #2 must name the source of water supply and whether it is from an underground well or a surface system. If it is from a stream, enter its name and the River to which it is a tributary. Under item #3, the source of water supply needs to be described to at least the 40 acre government survey subdivision, by filling in the blanks under this item. Item #4 must include the amount, purpose and period of use of the water. I might suggest 0.03 cubic feet per second for domestic purposes, to be used from January 1 through December 31, if it is used all year. Item #5 requests the total of amounts appropriated for all the uses listed in item #4 and in the instance of only one use would be the same amount as item #4. Item #6 should describe the method of diverting the water from the source of supply to the point of use. Item #7 should indicate the number of years to complete the works and put the water to a beneficial use. A five (5) year period of development is the maximum length of time that can be allowed. Item #9b must give the owner of the land where the water is to be beneficially used. Also, we will require a map of the works, showing the point of diversion and the place of use, drawn on the grid on the third page of the application form.

As soon as you have completed the items and returned the application to this office, we will begin its processing.

If you should have any questions regarding this matter, please let us know.

2. Construction or occupancy and use under this permit shall begin when completed months, and construction, if any, shall be completed within months, from the date of the permit. The use shall be actually exercised at least 30 days each year, unless otherwise authorized in writing.

3. Development plans; layout plans; construction, reconstruction, or alteration of improvements; or revision of layout or construction plans for this area must be approved in advance and in writing by the forest supervisor. Trees or shrubbery on the permitted area may be removed or destroyed only after the forest officer in charge has approved, and has marked or otherwise designated that which may be removed or destroyed. Timber cut or destroyed will be paid for by the permittee as follows: Merchantable timber at appraised value; young-growth timber below merchantable size at current damage appraisal value; *provided* that the Forest Service reserves the right to dispose of the merchantable timber to others than the permittee at no stumpage cost to the permittee. Trees, shrubs, and other plants may be planted in such manner and in such places about the premises as may be approved by the forest officer in charge.

4. The permittee shall maintain the improvements and premises to standards of repair, orderliness, neatness, sanitation, and safety acceptable to the forest officer in charge.

5. This permit is subject to all valid claims.

6. The permittee, in exercising the privileges granted by this permit, shall comply with the regulations of the Department of Agriculture and all Federal, State, county, and municipal laws, ordinances, or regulations which are applicable to the area or operations covered by this permit.

7. The permittee shall take all reasonable precautions to prevent and suppress forest fires. No material shall be disposed of by burning in open fires during the closed season established by law or regulation without a written permit from the forest officer in charge or his authorized agent.

8. The permittee shall exercise diligence in protecting from damage the land and property of the United States covered by and used in connection with this permit, and shall pay the United States for any damage resulting from negligence or from the violation of the terms of this permit or of any law or regulation applicable to the national forests by the permittee, or by any agents or employees of the permittee acting within the scope of their agency or employment.

9. The permittee shall fully repair all damage, other than ordinary wear and tear, to national forest roads and trails caused by the permittee in the exercise of the privilege granted by this permit.

10. No Member of or Delegate to Congress or Resident Commissioner shall be admitted to any share or part of this agreement or to any benefit that may arise herefrom unless it is made with a corporation for its general benefit.

11. Upon abandonment, termination, revocation, or cancellation of this permit, the permittee shall remove within a reasonable time all structures and improvements except those owned by the United States, and shall restore the site, unless otherwise agreed upon in writing or in this permit. If the permittee fails to remove all such structures or improvements within a reasonable period, they shall become the property of the United States, but that will not relieve the permittee of liability for the cost of their removal and restoration of the site.

12. This permit is not transferable. If the permittee through voluntary sale or transfer, or through enforcement of contract, foreclosure, tax sale, or other valid legal proceeding shall cease to be the owner of the physical improvements other than those owned by the United States situated on the land described in this permit and is unable to furnish adequate proof of ability to redeem or otherwise reestablish title to said improvements, this permit shall be subject to cancellation. But if the person to whom title to said improvements shall have been transferred in either manner above provided is qualified as a permittee and is willing that his future occupancy of the premises shall be subject to such new conditions and stipulations as existing or prospective circumstances may warrant, his continued occupancy of the premises may be authorized by permit to him if, in the opinion of the issuing officer or his successor, issuance of a permit is desirable and in the public interest.

13. In case of change of address, the permittee shall immediately notify the forest supervisor.

14. The temporary use and occupancy of the premises and improvements herein described may be sublet by the permittee to third parties only with the prior written approval of the forest supervisor but the permittee shall continue to be responsible for compliance with all conditions of this permit by persons to whom such premises may be sublet.

15. This permit may be terminated upon breach of any of the conditions herein or at the discretion of the regional forester or the Chief, Forest Service.

16. In the event of any conflict between any of the preceding printed clauses or any provision thereof and any of the following clauses or any provisions thereof, the preceding printed clauses will control.

17. This permit is accepted subject to the conditions set forth above and to conditions 18 to 19 attached hereto and made a part of this permit.

Dear Sir:

In my letter to you of June 7, 1967, I advised that fees charged for summer home lots of this National Forest were being reviewed. I explained that annual fees would be based upon a percentage of the fair market land value of the lot occupied by your home.

The study is complete. Careful consideration was given the many factors involved in arriving at an equitable basis for summer home fees at the various locations. Land values of the National Forest summer home lots were calculated by relating sales prices of comparable privately owned tracts of land to these lots. The annual fees are based on approximately five percent of the calculated lot values. Adjustments were made to reflect differences in access, development costs, and locations.

The study results establish an annual fee of \$50 for your lot. Unless there are major changes in land values, it will remain in effect for the 1968 - 1972 period. This letter is a part of, and an amendment to, your special use permit, the terms of which otherwise remain unchanged. If you have questions concerning the study or the fee, please let me know.

Our statement billing you for the 1968 fee is enclosed.

Sincerely yours,

Dear Mr. Plotroski:

Periodically, we review the rates being charged for various types of Special Use Permits. The purpose of the review is to determine that the rates represent a fair return to the Government for the use of the land. The rates charged should be comparable to private rentals for similar property.

We have recently made an analysis of rates for all the summer home lots under permit on this Forest. The analysis indicates the annual rental for lots on the Spruce Creek Summer Home Area should be adjusted to \$45.00 per year. We plan to make this change effective in 1963. We would be happy to answer any questions that you have concerning this adjustment.

This letter should be considered a part of, and an amendment to, your special use permit, the terms of which otherwise remain unchanged.

Sincerely yours,
