IN THE MATTER OF CHANGING THE MEASURING
DEVICE REQUIREMENT FOR PERMIT NO. 37-7102

ORDER

WHEREAS, the above numbered permit was approved with the condition that a measuring device of a type approved by the Department be permanently installed and maintained as part of the diverting works; and,

WHEREAS, on July 1, 1978, the Department adopted a new water measurement condition which states: "An access port or other device as specified by the Department shall be installed by the permit holder to provide for the installation of measuring equipment and the determination of the rate of diversion by the Department"; and,

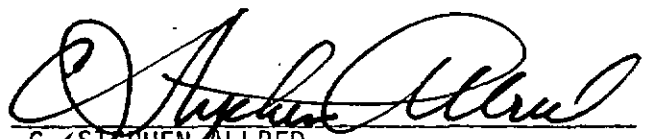

WHEREAS, the former condition required the permit holder to purchase and install a measuring device or hire a professional engineer to certify the rate of diversion; and,

WHEREAS, the measuring device condition effective July 1, 1978, requires less capital expenditure by the permit holder; and,

WHEREAS, to be equitable to holders of permits issued prior to July 1, 1978, the new condition should be retroactive;

NOW THEREFORE, it is hereby ordered that the condition of approval of this permit related to water measurement is hereby changed as follows: "The permit holder shall either install a measuring device or provide a certified measurement by a professional engineer or install an access port or other device as specified by the Department".

CONSENT AND EASEMENT AGREEMENT

The undersigned does hereby consent to Sun Valley Company Inc. conducting water drilling tests on certain of his real property described below, it being understood by the undersigned that the purpose of the drilling is to establish with certainty the availability or unavailability of water on the said real property sufficient to satisfy the water needs of the Elkhorn Valley.

The undersigned understands that if the drilling and the tests prove satisfactory, that Sun Valley Company Inc. will then want to enter into negotiations with the undersigned to establish permanent easements and/or the sale of certain portions of the undersigned's real property so that the water needs of the Elkhorn Valley can be satisfied from the wells to be constructed.

The permission granted here is subject to the condition that the drilling will not materially damage the freehold.

The undersigned does further grant to Sun Valley Company Inc. an easement across his real property from U. S. Highway 93, said easement to be for the purpose of conducting the drilling that is the subject matter of this consent.

The real property of the undersigned to which the consent applies is that certain property located in Blaine County, Idaho and more particularly lying between the Union Pacific Railroad Tracks and the Big Wood River, approximately 700 feet to 800 feet south of the existing sewage treatment plant, which property is located in the SW $\frac{1}{4}$ SE $\frac{1}{4}$ Section 19, Township 4 North, Range 18 East, Boise Meridian.

The intent will be to have the easements and the location that will not intrude upon the aesthetics of the area. The building will be of minimum size with shake and shingle construction.

Re: Permit No. 37-7102

Dear Loren:

Please find enclosed the postcard to initiate proof of beneficial use for the above numbered permit for Sun Valley Water and Sewer District. Also enclosed is the District's Power of Attorney authorizing me to sign the card.

I am advised that four wells were drilled pursuant to this permit, but only three are in operation. However, the three will presumably test to the 9 c/f/s total.

It is the District's intention to perhaps put a natural gas or turbine pump on the fourth well and use it as back-up in the event of electrical power failures.

THE MANAGER OF THE DISTRICT ADVISES THAT PROBABLY the wells could be best tested during the summer to determine their capacities. However, we would like all four wells to be licensed, even though the fourth well presently has no pump. Data is available on the testing of that well in 1977, as well as the other three.

Do not hesitate to also advise me of any information needed to proceed to proof of beneficial use in regard to this permit.

Thanks for your cooperation.

Sincerely,

John A. Rosholt

RE: PERMIT NO. 37-7102

Jim

DEAR MR. JOHNSON:

THE ABOVE PERMIT WAS ORIGINALLY GRANTED TO SUN VALLEY COMPANY IN 1971 AND WAS SUBSEQUENTLY ASSIGNED TO THE SUN VALLEY WATER AND SEWER DISTRICT.

IN JULY, 1976, A FIVE-YEAR-EXTENSION WAS REQUESTED FROM, AND GRANTED BY THE DEPARTMENT OF WATER RESOURCES.

WE NOW FIND OURSELVES FACED WITH THE EXTENSION DEADLINE OF AUGUST 1, 1981, WITH ONE WELL NOT YET IN SERVICE.

AS A MATTER OF ORDERLY DEVELOPMENT SINCE THE EXTENSION IN 1976, WE HAVE DRILLED TWO HIGH-CAPACITY WELLS, BRINGING THE TOTAL IN THIS WELL FIELD TO FOUR, CONSTRUCTED AN ADDITIONAL 400,000 GALLONS OF STORAGE, AND INTER-TIED THE ELKHORN AND SUN VALLEY DISTRIBUTION AND RESERVOIR SYSTEMS.

HOWEVER, THE FOURTH WELL HAS NOT BEEN DEVELOPED AS WE HAVE NOT YET EXPERIENCED THE NEED. THE PLAN FOR THE FOURTH WELL IS CONSTRUCTION WITH EITHER GAS OR DIESEL POWER RATHER THAN ELECTRICITY. TO MAKE THIS APPROACH FULLY OPERABLE TWO BOOSTER STATIONS MUST BE RETRO-FITTED WITH DIESEL BACK UP. THE IMMEDIATE ALTERNATIVE IS TO PROVIDE MORE STORAGE RATHER THAN DEVELOPMENT OF THE FOURTH WELL.

IS IT POSSIBLE TO APPLY FOR AN ADDITIONAL EXTENSION? IF WE DID NOT MEET THE DEADLINE, DO WE ENDANGER THE BENEFICIAL USE OF THE OTHER THREE WELLS? CAN WE PLEAD INTENT AS WE HAVE DRILLED THE FOURTH WELL, BUT NOT YET DEVELOPED IT?

WOULD YOU PLEASE PROVIDE US WITH SOME GUIDANCE IN THIS MATTER.

THANK YOU.

RE: Permit No. 37-7102

Dear Mr. Higginson:

We wish to request a five-year extension of time for completion and submission of proof of beneficial use on the above permit.

The permit was originally granted to the Sun Valley Company, Inc. and has subsequently been assigned to the Sun Valley Water and Sewer District. The assignment is enclosed for your files.

The reason for the District making this request is that we are presently planning on construction of the third well within the next year, to be followed a year later by the fourth well. As you realize, development of a municipal supply has to be staged over a period of time to meet growth needs, and we are anxious to do our complete development under this one permit.

To date we have completed two high capacity wells which have been in service for nearly five years. The main distribution system and storage associated with the project is complete. Total metered production from the wells has been almost 500 million gallons. Additional information on the works completed thus far can be supplied by our consultants, Anderson & Kelly, 6700 Emerald Street, Boise, if you need them.

Sincerely,

Gentlemen:

One of the conditions of approval of your water Permit No. 37-7102 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before AUGUST 1, 1976. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Dear Mr. Kelly:

We are returning the application for permit and check #92-309 in the amount of \$60.00, submitted in the behalf of Sun Valley Co., Inc.

The Department feels, in reviewing this application that item 8a(1) and 8b should be completed, describing the place of use for domestic needs and the lands to be irrigated. You have indicated in the application that at this stage of planning it would be very difficult to describe specific areas of use. Perhaps you could describe the entire project or potential development under each of the items. The extent of beneficial use at the time the project is completed would determine the amount of water and number of acres that would be included in the water right license.

We also wish to advise you that the filing fee for 9.0 cfs of water will be \$105.00. We are enclosing our new fee schedule for your reference.

If we may be of any assistance in this matter, please advise.

Very truly yours,

Dorian Clay

Attention: Mr. Stephen Allred

Dear Steve:

Enclosed is the water right application for Sun Valley Company's Elkhorn Development that we discussed by telephone. To confirm that conversation, it was my understanding that the application must be filed prior to test drilling, even though complete development plans are not available. Consequently, it is difficult, if not impossible, to locate specific areas of proposed use at this time. However, upon completion of the test drilling program, or shortly thereafter, the applicant will be able to delineate these areas.

We realize that this is not the usual procedure in filing applications, or in water development, but it is more logical than most. We believe the owners should be commended for their approach and not penalized for not supplying detailed information. We are confident that you will agree and recommend approval. We would appreciate receiving copies of all correspondence sent to the applicant.

If you have any questions, please direct them to this office.

With best personal regards, we are

Sincerely,

ANDERSON & KELLY

Dear Keith,

Your request for a waiver of the provisions of the Idaho Minimum Well Construction Standards requiring installation of an access port for water level measurement on a well drilled by Smith Drilling and Pump Company, Jerome, Idaho, covered under water right application #37-7102 is hereby granted. The granting of this waiver is with the understanding that the access port will be installed when the well is put into production as covered in your letter of August 20, 1971.

Re: Waiver of Minimum Standards

Gentlemen:

This letter is to request a waiver of the provisions of the Idaho Minimum Well Construction Standards requiring installation of an access port for water level measurement, on the test well drilled recently adjacent to the Big Wood River by Smith Drilling and Pump Co., Jerome, Idaho.

This 12-inch test well, drilled under water right application #37-7102, has been completed and tested. It is the intention of the owner that ultimately this well will be incorporated as one of a series of water supply wells under the application.

It will be some time before final construction of additional wells and pumping equipment can be accomplished. The well as completed by the drilling contractor has met all provisions of the minimum standards, including the surface seal, as well as requirements of the Idaho Department of Health --with the exception of the provision of an access port.

We are requesting a waiver of this one provision in the standards since we feel that we cannot risk the liability of vandalism if such a port were provided at this time. This request is made with the specific understanding that an approved access port will be included as a part of the pump installation at the time that the test well is converted to a production well. The well is protected at the present time with a solid steel plate welded over the top of the inner casing.

Sincerely,

ANDERSON & KELLY

Re: 37-7102

Dear Steve:

Enclosed is an executed Power of Attorney relative to the above application number. Please see that correspondence regarding this file is directed to us with copy to the applicant.

You are authorized, as agreed in our recent telephone conversation, to change the first line of item 4 of the application to read "municipal" instead of "domestic" if that will satisfy all the points raised in Mr. Dorian Clay's letter of June 29 to the applicant.

We believe that the entries under 8 (4) and 8 (5), together with the rather lengthy explanation under "Remarks" should be sufficient to establish the applicant's wishes and intentions.

Please let us know what the last advertising date will be on this application.

Sincerely,

Gentlemen:

In reviewing your application for permit, the Department has some questions as to the natures of use as described under Items 4 and 8a(5). Item 4 lists the nature of use as being domestic and irrigation. If, in fact, the water is also being used as fire protection and commercial uses in a restaurant, then these also must be listed under Item 4. This would have to be done by amending the original application by submitting a new one to replace it. We are enclosing a new application and a copy of the original for your consideration in this matter.

If you should have any questions in reference to this matter, please feel free to contact us.

Very truly yours,
