Dear Mr. Wick:

One of the conditions of approval of your water Permit No. 37-7100 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before September 1, 1975. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Dear Mr. Wick:

We are returning your application for permit and personal check #19-100, in the amount of \$10.00. We find in reviewing this application that there are several questions that need clarification before we could process it.

Item #3a should list the point of diversion as to the nearest 40 acre subdivision, section, township and range that it lies within. We also wish to advise you that under item #4, you could request a quantity of 0.02 cubic feet per second of water per family unit. As you have further indicated in the application that your water system will serve approximately 35 families, we could approve up to 0.7 of a cubic foot per second under item #4. We also wish to advise you that item #8a should list the place of use as to the nearest 40 acre subdivision, section, township and range that it lies within. You should also complete item #9a and b of the application.

If you should have any questions in reference to this matter, please do not hesitate to contact this office.

Very truly yours,

Dorian Clay
