The sprinkler heads are Rainbird 30WS.

REMARKS:

Mr. Remaklus was present during exam.

When the diesel pump is diverting water it only supplies enough water for 60 sprinkler heads at an average pressure of 40 psi.

Dear Mr. Allred:

I am the owner of Water Permit No. 37-7083 under which I use the water from three springs to irrigate 25 acres of ground in Gooding County. My system is designed in such a way that there is no single point at which all the water is used could be measured. Also, my permit is for 0.5 cfs and I understand that amounts of less than 1 cfs no longer require measuring devices.

I, therefore, request that the measuring device requirement on my permit be waived.
