Dear Mr. Adams:

One of the conditions of approval of your water Permit No. 37-7078 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before March 1, 1973. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. Dear Mr. Adams:

We are returning your application for permit as we find in reviewing this application that it is incomplete.

Please note that under item 2 you have neglected to list your source of water supply. Under item 4, you will be required to list the quantity of water that you are intending to appropriate in cubic feet/second for each use, and a period of use for each use. If the water is to be used for irrigational purposes, you should also complete the grid under item 8b on page two. You should also draw a map under item 11 and sign the application.

There will be a filing fee for this application. This fee is based upon the quantity of water that you are intending to appropriate. It can be determined from page three of the enclosed instructions.

Very truly yours,

Dorian Clay,
Appropriation Examiner
