Bishop Murdock:

We are herewith returning your application for permit, as we find in reviewing this application that we need some additional information.

Please note that item 3a should be completed, listing the 40-acre tract, section, township, and range that your point of diversion is located within. Item 4 should list the amount of water that you are intending to appropriate in cubic feet/second and its period of use. Item 5 should also be completed, listing the total quantity that you are intending to appropriate. Item 8b should indicate the 40-acre tract in which your three acres is located.

We are also enclosing a set of instructions for your use in this matter. Please note the fee schedule on page three of the instructions.

If we can be of further assistance in this matter, please feel free to contact us.

Very truly yours,

Devian Clay,

BEFORE THE DEPARTMENT OF WATER RESOURCES
OF THE
STATE OF IDAHO

IN THE MATTER OF PERMIT)
NO. 37-7076 IN THE NAME OF)
CHURCH OF JESUS CHRIST -)
LATTER DAY SAINTS)

ORDER OF REINSTATEMENT

This matter having come before the Idaho Department of Water Resources (Department) the Department finds as follows:

FINDINGS OF FACT

1. On October 22, 1970 the Director of the Department of Water Resources issued Permit No. 37-7076 with a condition of approval that proof of construction of works and application of water to beneficial use be submitted on or before November 1, 1972.

2. On September 1, 1972 the Department sent a proof due notice to the permit holders.

3. On November 6, 1972 the Department sent a lapse notice to the permit holders since neither proof of beneficial use nor a request for extension of time had been received from the permit holders.

4. On October 24, 1988, the Department received a proof of beneficial use statement from the permit holders.

5. Section 42-218a, Idaho Code, authorizes the Department to reinstate a lapsed permit, with the priority date advanced to the date that proof of beneficial use was received, upon submittal of evidence

MICROFILMED

JUN 13 1989

clearly establishing the extent of beneficial use prior to the proof due date and a showing of reasonable cause why the proof was submitted late.

6. The permit holders submitted evidence to confirm that water has been put to beneficial use. These documents include: 1) an affidavit from Mr. Darwin Parke, a long time church member and Carey resident, stating that a well was drilled and water put to beneficial use in 1971; and 2) a well drillers report showing that the well was completed in 1971.

7. The permit holders stated that they overlooked submitting the proof on time as a result of miscommunication between the well driller, local church officials and the main church real estate department in Salt Lake City. The church was unaware that the permit had lapsed.

CONCLUSIONS OF LAW

1. The permit holders have submitted proof of beneficial use along with supporting evidence which establishes that water was in fact beneficially used as identified on the permit.

2. The permit holders have shown sufficient cause why the proof of beneficial use was not submitted in a timely manner.

3. The permit can be reinstated with the date of priority advanced to the date proof of beneficial use was received by the Department.

ORDER

IT IS HEREBY ORDERED that Permit No. 37-7076 is reinstated.

IT IS FURTHER ORDERED that the date of priority of this permit is advanced to October 24, 1988.

SUBJECT

Reinstatement of Lapsed Permit / Statement of Late Submittal

Mr. Glen Nielson of the LDS church visited the office today on another matter but also provided a statement for why proof was submitted late on this permit. Mr. Nielson explained that the matter was overlooked at the time due to poor communication channels between the local church officials, well drillers and the main church real estate department in Salt Lake City. Mr. Nielson's initials are below.

Dear Permit Holder(s):

Enclosed is a copy of the November 14, 1988 letter from the Department informing you of the steps needed to be taken in order to reinstate the above referenced permit.

Our records show that we have not received any correspondence from you concerning this matter. I will keep this file on hold for another 30 days to provide you an additional opportunity to submit the required information. Failure to submit the information within this time period will be cause for the Department to refund your exam fee and take no further action toward reinstating the permit.

Please do not hesitate to call me if you have any questions concerning this matter.

Sincerely,

Dear Permit Holder(s):

The Department received your proof of beneficial use statement for the above referenced permit on October 28, 1987. The permit lapsed ~~December 21, 1988~~ so the 60-day late period during which the permit can be readily reinstated has passed.

Pursuant to Section 42-218a, Idaho Code, (copy enclosed) the permit can now be reinstated only if you submit the following:

- a) Evidence to show that beneficial use of the water did commence and to show the extent of the use of water during the authorized permit period from the time the permit was issued until the proof due date.
- b) Reasonable cause why the proof of beneficial use was filed late.

Your proof of beneficial use statement along with any information which may have been submitted with it will remain on file in this office for 60 days to allow you an opportunity to assemble and submit the additional required information.

Please feel free to contact this office if you have additional questions.

Sincerely,

Gentlemen:

One of the conditions of approval of your water Permit No. 37-7076 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before November 1, 1972. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

TO APPROPRIATE THE PUBLIC WATERS OF THE STATE OF IDAHO

Notice is hereby given that the Carey Ward, Church of Jesus Christ of
Latter Day Saints, Carey, Idaho, has on September 2, 1970,
submitted Application No. 37-7076 to appropriate the public waters of
a ground water source
The proposed uses are domestic (.06 cfs) from Jan. 1 to Dec. 31 and irrigation
(.04 cfs) from April 1 to Oct. 1

The application proposes a maximum diversion and appropriation of 0.1
cubic feet per second ~~acre feet~~ of water to be diverted by well, pump and
pipe within the SW 1/4 Sec. 27,
T. 1S, R. 21E, B.M., Blaine County,

and is to be used within the SW 1/4 Sec. 27, T. 1S, R. 21E, B.M.

Any permit issued pursuant to this application will be subject to ALL PRIOR
WATER RIGHTS and subject to the CONTROL OF A STATE WATERMASTER. Any protest
against this application must be filed with the Idaho Department of Water Adminis-
tration on or before October 12, 1970.

ATTENTION: T. Ward-Murdoch, Bishop

Bishop Murdoch:

We are once again in receipt of your application for permit, and have begun its processing.

However, we have made a few changes. Under item 4 of your application, you have listed 0.5 cubic feet/second of water for domestic purposes, which seems to be an excessive amount of water. The maximum amount of water that the Department could consider would be .06 c.f.s. for domestic use and .04 c.f.s. for irrigation, totaling .1 c.f.s. Since you have listed more than one-half ($\frac{1}{2}$) acre for irrigation, we have added irrigation on your application with a period of use from April 1 to October 1.

If we do not hear from you within 10 days, we will continue with the processing of the application.
