

State of Idaho
Department of Water Resources

WATER RIGHT LICENSE

License of Water Right No. 37-7058 Priority Feb. 4, 1970 Amount 4.0 cfs

THIS IS TO CERTIFY, that Norman S. Standal
of Bliss, Idaho, has complied with the terms and conditions of Permit
No. 37-7058 issued pursuant to Application for Permit dated Jan. 26, 1970,
and has submitted proof to the Department of Water Resources on Nov. 12, 1976,
that he has applied water to a beneficial use; an examination by the Department indicates that the works have a
capacity for the diversion of 4.23 cfs of water from un-named stream,
tributary to Snake River, and that the permit holder has applied to a beneficial use and
established a right to use water as follows:

Beneficial Use	Period of Use	Rate of Diversion	Annual Volume
Fish Culture	from Jan. 1 to Dec. 31	at 4.0 cfs and	
	from to	at cfs and	
	from to	at cfs and	

(both dates inclusive)

Subject, however, to the condition that no more than 4.0 cfs of water be diverted at any one time, and
that the amount of water so diverted and to which such right is entitled and confirmed is for the purpose
aforementioned and is limited to the amount which can actually be beneficially used and shall not exceed
acre feet per year, said waters to be diverted within the Government Lot 1, Sec. 28,
Twp. 6S, Rge. 13E, B. M. in the County of Gooding

Description and location of place of use:

Twp.	Range	Sec.	NE¼				NW¼				SW¼				SE¼				Totals
			NE¼	NW¼	SW¼	SE¼	NE¼	NW¼	SW¼	SE¼	NE¼	NW¼	SW¼	SE¼	NE¼	NW¼	SW¼	SE¼	
6S	13E	28	Lot XX	1															

Total number of acres irrigated _____

A measuring device of a type approved by this Department shall be maintained as
part of the diverting works.

NOTE: Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho
Code, or the applicable Idaho Law. This right may be forfeited by five years of non-use.

The right to the use of the water hereby confirmed is restricted and appurtenant to the lands or place of use
herein described, as provided by the laws of Idaho.

Witness the seal and signature of the Director, affixed at Boise, Idaho, this 20 day of
December, 19 77.

Director

State of Idaho)

County of Gooding)

Permit No. 37 7058

Norman S. Standel of Star Rt. Bliss
(name) (address)

State of Idaho, being first duly sworn, upon his oath deposes and says:

That he is the holder, or the duly authorized agent of the holder *, of Permit to
Appropriate the Public Waters of the State of Idaho No. 37 7058.

That under the terms and conditions of said permit, work thereunder was required
to be completed on or before July 1, 1976.

That he has heretofore performed the following work described under said permit:

Finalized structure designs, surveyed
area and staked facilities and obtained
a stream channel alteration permit

Costing \$ 200.00

That he is unable to complete the remainder of the work within the required time for
the following reasons, to-wit: the site for these ponds

were under litigation in Idaho district
& supreme courts from early 1971 to
Dec 1975 when it was awarded in my favor

Wherefore, he asks that the Department of Water Resources extend the time for the
completion of obligations under said permit to July 1, 1978.

Case # 14464

MYB

BEFORE THE DEPARTMENT OF WATER ADMINISTRATION
OF THE
STATE OF IDAHO

IN THE MATTER OF APPLICATION FOR PERMIT NO.)
37-7058 in the name of NORMAN S. STANDAL)
_____)

MEMORANDUM DECISION

Application for Permit No. 37-7058 was filed with the Department of Water Administration (formerly the Department of Reclamation) on January 26, 1970. The application seeks to divert four (4) cubic feet per second of water from an unnamed stream, tributary to the Snake River, within the NE $\frac{1}{4}$ NW $\frac{1}{4}$ of Sec. 28, T. 6S, R. 13E, B.M., Gooding County, for fish culture purposes from January 1 to December 31 of each year. The place of use is listed as the NE $\frac{1}{4}$ NW $\frac{1}{4}$ and NE $\frac{1}{4}$ NE $\frac{1}{4}$ of Sec. 28, T. 6S, R. 13E, B.M. Notice of the proposed appropriation was published in the Gooding County Leader on May 7th and May 14th, 1970.

Protests against the issuance of the permit were received from Juan N. and Joyce C. Menchacca, Sheldon E. Condit and Leona C. Storer, Rex Barlogi and Dale Schoth, Laura McAnulty, Archie B. and Patricia Teater and eighteen others who signed a single protest petition. The protest by Laura McAnulty was withdrawn by her letter of September 22, 1970.

The Department held an informal conference on October 6, 1970 at Twin Falls, Idaho to discuss the application and the protests. As a result, the protestants present, which included all of those named above, agreed that if the application were approved subject to all prior rights, they would not object.

On December 7, 1970, the protestants who appeared at the conference were sent a letter setting forth the agreement reached at the conference and allowing the protestants ten (10) days to respond to that agreement.

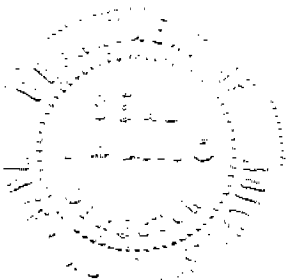

A letter was received from Archie B. and Patricia Teater on April 27, 1971, requesting consideration of their protest since they had not received the Department's December 7, 1970 letter. The contents of that letter does not indicate any additional rights that will be injured other than those discussed at the conference in Twin Falls.

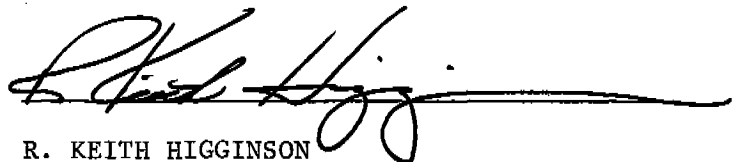

37-7058

The Director of the Department of Water Administration, therefore, enters the following decision:

1. That the protests of Archie B. and Patricia Teater, Juan N. and Joyce C. Menchacca, Sheldon E. Condit and Leona C. Storer, Rex Barlogi and Dale Schoth, and Laura McAnulty be set aside.
2. That the protests of those protestants who did not appear at the conference be dismissed.
3. That the application should be approved subject to the following conditions:
 - a. That use of water under this permit shall be subject to and subordinate to all prior existing water rights of any sort which have been or may be recognized by the law of this State.
 - b. This permit is specifically granted upon the condition that it not be assigned nor sold to another party without written concurrence from the Department of Water Administration. Failure to received such concurrence from the Department will be deemed as an admission that the permit was obtained for the purpose of speculation or delay, and will be cause for immediate cancellation of the permit.
 - c. The applicant shall install permanent measuring devices of the type approved by the Department of Water Administration to measure the water diverted from the unnamed stream and the water returned to the Snake River.

Dated this 2nd day of July, 1971.

R. KEITH HIGGINSON
Director

BDF/bb

Dear Sirs:

This letter is to protest an Application for Permit to appropriate the public waters of the State of Idaho No. 37-7058. This application is in the name of Norman S. Standal.

Mr. Standal proposes to divert by a dam, pipe, and canal, 4.0 c.f.s. of water from an unnamed stream tributary to Snake River located within the NE $\frac{1}{4}$ NW $\frac{1}{4}$ Sec. 28, T. 6 S., R. 13 E., B.M., Gooding County.

We are protesting because according to our calculations there is at no time 4.0 c.f.s. of water flowing in this stream. Since our developments are all upstream from this proposed diversion, this 4.0 c.f.s. of water could only be obtained from our long existing water rights.

Very truly yours,

Ray Barlogi

Dear Sirs:

I want to make a protest against granting of the applications 37-7058 and 36-7121 by George Lemmon to build fish ponds and raceways and use water from Springs now known as "Thousand Springs". Having been in the area, I know that there could be such ponds built and placed in such a way that the water would go back into the original channel and hence over the falls as before. However, if it is diverted into new ways and taken to ponds below, we will loose the rest of our most famous tourist attraction in Idaho. There should be at least some regulation on use of the water to prevent complete destruction.

I was told by an Idaho Power Employee who should know that this parcel of land was offered to the State for a possible park when Idaho Power decided they had no further use for it. However, the State was not even interested enough to amke a token offer on it and now we are about to loose the rest of what Idaho Power has not already used up.

Sincerely,

Mrs Laura M. Anulty

STUDIO OF ARCHIE AND PATRICIA TEATER

BLISS IDAHO 83314 U S A

15 May 1970

Mr. R. Keith Higginson, State Reclamation Engineer
Department of Reclamation, State House Annex #2
Boise, Idaho

Dear Mr. Higginson:

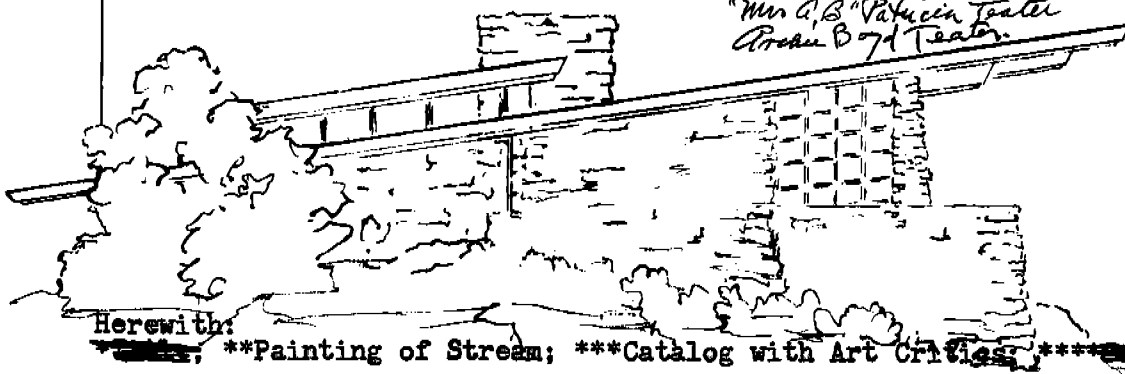

This letter is to protest an Application for Permit to appropriate public waters of the State of Idaho No. 37-7058. This application is in the name of Norman S. Standal.

Mr. Standal proposes to divert by a dam, pipe, and canal, 4.0 C.f.s. of water from an unnamed stream tributary to the Snake River located within the NE $\frac{1}{4}$ Sec. 28, T.6S., R.13 E., B.M. Gooding County.

We are protesting because we have title, dated Oct. 5, 1953, (*copy of which is here enclosed, measuring 225 feet of said stream) to the land which is on old highway 30, and said stream is used by us to make a living from its aesthetic value - its beauty - to produce fine art by painting it in oils. A painting of it may be seen at Boise Blue Print Co., **817 Bannock St., Boise. (The Metropolitan Museum of Art, New York City: "Mr. Teater is one of our outstanding contemporary landscape artists." etc. see enclosed ***Art Critics and World Comments). Secondly, the stream is also used by us for irrigating our trees: ****English Walnuts (see attached samples), Almonds, Cherry, Plums, and Apricots. The orchard was planned and landscaped to yield above crops because by nature of being so located as to the stream mitigating freezing by ameliorating the sharp drops in temperatures which cause many without such said stream to lose their crops. Thirdly, it contains trout, and further yields food in the nature of the finest water cress in the country.

Having majored in geography, and specialized in conservation of natural resources, having had several articles published on preserving rather than destroying our American heritage of nature, private Dollar Fortunes can never compensate for mutilating Idaho's beauty. Destruction of natural beauty is contrary to the finally recognized ecological aims of our Federal Government. We pray and hope you will not permit further damage to Hagerman Valley, and we feel we have a legal and humane claim to have the water we now use and possess and hope to utilize and cherish to remain undisturbed and undiminished.

Respectfully yours,
"Mr. A.B." Patricia Teater
Archie B. Teater

No 787

37-7058

**NOTICE OF APPLICATION
FOR PERMIT TO
APPROPRIATE THE
PUBLIC WATERS OF THE
STATE OF IDAHO**

Notice is hereby given that Norman S. Standal, Star Route, Bliss, Idaho, has on January 26, 1970, submitted Application No. 37-7058 to appropriate the public waters of an unnamed stream, tributary of the Snake River.

The application proposes a maximum diversion and appropriation of 4.0 cubic feet per second of water to be diverted by dam, pipe and canal within the NE $\frac{1}{4}$ NW $\frac{1}{4}$ Sec. 28, T. 6S, R. 13E, B.M., Gooding County, and is to be used within the NE $\frac{1}{4}$ NW $\frac{1}{4}$ and NE $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 28, T. 6S, R. 13E, B.M. from January 1 to December 31 for fish propagation purposes.

Any permit issued pursuant to this application will be subject to ALL PRIOR WATER RIGHTS and subject to the CONTROL OF A STATE WATERMASTER. Any protest against this application must be filed with the Idaho Department of Reclamation on or before May 25, 1970.

R. Keith Higginson
State Reclamation
Engineer

Twin Falls, Idaho 83301

Dear Mr. & Mrs. Menchacca:

As you will recall on October 6, 1970, a hearing was held in connection with Application for Permit No. 37-7058. During the hearing, the protestants agreed that their major concern was that this Application would interfere with prior existing water rights. The protestants acknowledged that, if the approval of this Application carried the condition that the right was subordinate to any and all prior rights, they would then have no objection to the approval of the permit. We have taken this to be your position in the matter. If we have misunderstood your intentions, please advise us before December 28, 1970. If we have not heard from you on or before this date, we will set aside your protest and proceed with this Application.

Very truly yours,

BOBBY D. FLEENOR
Assistant Director

Re: Application for Permit No. 37-7058 - Norman S. Standal

Rex Barlogi and Dale Schoth
Star Route
Bliss, Idaho 83314

Gentlemen:

We are in receipt of your protest concerning the above referenced application for permit. The following are items which, under Section 42-203 of the Idaho Code, can be considered at a hearing in either approving or denying an application for permit:

1. Will the proposed use reduce the quantity of water under existing water rights?
2. Is the proposed water supply insufficient for the purposes intended?
3. Is the application made in good faith or for delay or speculative purposes?
4. Has the applicant sufficient financial resources with which to complete the project.

Please bear in mind that the State Reclamation Engineer may reject such application and refuse issuance of a permit, he may partially approve the permit, he may approve the permit for a quantity of water less than applied for, or he may approve the permit subject to special conditions.

Idaho Department of Reclamation
State Reclamation Engineer
Attention: R. Keith Higginson

Dear Sir,

I wish to register my protest against water application No. 37-7058 by Norman S. Standel, Star Route, Bliss, Idaho. Also I protest Application No. 37-7121 asked for by Norman S. Standel and George H. Herman, Star Route, Bliss, Idaho.

These applications are not in the public interest since the manner in which the water is being obtained is an offense to the natural beauty of the locale and consequently a detriment to our local economy.

Please advise me of the hearing date for these applications. I will be glad to submit in writing or verbally in more detail the reasons for this protest and suggestions where by this fish propagation business could be continued without destroying these two big encloses.

Sincerely,

Mrs. Barbara P. Laugeson

Mr. Norman S. Standal
Re: 37-7058
May 22, 1970

The waters intended to be appropriated must be public water of the State of Idaho or if private waters, as defined under Section 42-212 of the Idaho Code, the applicant must have authority from the owner of the land on which the water lies to divert the water.

The Department of Reclamation may reject an application for permit or may partially approve or grant the permit upon conditions.

A permit issued by this office is subject to all prior water rights and does not in any way convey or establish right-of-ways over private or governmental lands. Right-of-ways or easements must be obtained by the applicant through action outside of the water right proceedings.

You will be notified at a later date as to the time and place set for a conference and/or hearing to discuss the matters of protest. Legal counsel is not mandatory at any proceeding before the Department, although you may desire to employ an attorney in your behalf.

If we may be of any further assistance, please contact us.

Very truly yours,

Donald W. McEldowney
Appropriation Supervisor

Dear Mr. Standal:

A representative of this Department made an examination of the works covered by your Permit No. 37-7058 on November 14, 1977, and has found the following:

Amount of water that can be recognized as beneficially used under
Idaho law: 4.00 cfs Source: Unnamed stream

Point of diversion: Gov. Lot 1, Sec. 28, Twp. 6S, Rge. 13E, B. M.

Beneficial use: Fish Culture

Priority date established: February 4, 1970

If you do not concur with these findings please contact us within 10 days, otherwise a water license will be issued as set forth above.

Sincerely,

BOBBY D. FLEENOR
Chief, Operations Bureau

SYSTEM DESCRIPTION:

Water is discharged from an unnamed stream which is made up of several springs. Water is diverted thru a 12" plastic pipe to the fish pond. When the water leaves the fish pond it flows back to the original stream which is a tributary to the Snake River.

REMARKS:

The dimensions of the pond is 250' long 50' wide (1) only
Under the Gov. Plats the location the Fish Pond is on Gov. Lt. 1 and should be recorded as Gov. Lt. 1, Sec. 28 T.6S.-R.13E.

Dear Mr. Standal:

We acknowledge receipt of the affidavit submitted as proof of beneficial use for the above referenced permit.

Before a license can be issued, a field examination must be made by a representative of this Department. We cannot tell just when this examination will be made, but our examiner will try to contact you at the time he makes the examination so that you may show him the system.

If you have any questions regarding the field examination, please contact our District Office in **Twin Falls.**

Sincerely,

D. Darlene Reich
Water Rights Supervisor

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES

RECEIVED

NOV 12 1976 *okf*

PROOF OF APPLICATION OF WATER TO BENEFICIAL USE

Department of Water Resources

1. a) Name of Permit Holder Norman S. Staudel
- b) Post Office Address Star Rt. Bliss Id. 83314
2. Permit Number 37 7058
3. Date of Priority that you are prepared to establish 1-26-70
4. a) Source from which water was appropriated unnamed creek
- b) Location of the point of diversion: NE 1/4 NW 1/4, Section 28
Township 6 S, Range 13 E Boise Meridian, Other points of diversion: _____

5. a) The amount of water and use to which the water has been applied:

Amount 4 CFS. for Fish Culture purposes from Jan 1 to Dec 31 incl.
(cfs and/or acre-feet per annum) (Month-Day) (Month-Day)

Amount _____ for _____ purposes from _____ to _____ incl.
(cfs and/or acre-feet per annum) (Month-Day) (Month-Day)

Amount _____ for _____ purposes from _____ to _____ incl.
(cfs and/or acre-feet per annum) (Month-Day) (Month-Day)

b) Total amount appropriated _____ cfs and/or acre-feet per annum

c) Describe how and by whom measurement of rate of flow or amount of storage was made and the qualifications of the person making the measurement: Flow measured by commercial, propeller type flow meter installed in 12" inlet pipe.

6. If the means of diversion and conveyance are owned by someone other than the Permit Holder:

a) Give the name or description of the canal, ditch or other works by which the water is conducted to the place of use: _____

b) Describe the agreement or understanding by which you take water from the works: _____

7. a) Briefly describe the works for diverting and conveying the water to the place of use, (if from a subterranean source, give the pump size, motor size, size of well casing, depth of well; if from surface water, give brief description of diversion structure and/or canal or ditch) Water diverted from stream to ponds by 12" pipe & head gate & from ponds back to creek by 12" pipe.

b) Describe the type and size of measuring device which you have installed at your point of diversion: Propeller Type flow meter calibrated & designed for 12" pipe.

c) Give well driller's name and address and the date the well was completed: _____

8. If for other than irrigation, describe the beneficial use to which you have applied the water and the place of use: _____

Fish Culture in NE 1/4 NW 1/4 S1028
T6S R13E

Re: Permit No. 37-7058

Norman S. Standal
Star Route
Bliss, Idaho 83314

Dear Mr. Standal:

One of the conditions of approval of your water Permit No. 37-7058 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before JULY 1, 1976. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

R. Keith Higginson

Dear Mr. Higginson

You can see by this letter that we were on our annual painting trip around the world and could not have answered your letter by Dec. 28, 1970. Also, did not receive Mr. Fleener's letter of Dec 7, 1970, on our return in 1971. And marking you added protest against Norman Standal. Thank you, 37 7058

Mrs. C. B. Teter

August 31, 1971

The Honorable Cecil D. Andrus
Governor
State of Idaho
Statehouse
Boise, Idaho

Re: Permit 37-7058

Dear Governor Andrus:

On Friday, August 27, 1971, I again visited the Teater property near Bliss, Idaho. No one was home and the house is surrounded by a high wire fence which prevented access.

Just south of the house is the small stream from which Mr. Norman Standal proposed to divert 4.0 second feet of water for fish culture purposes. This stream falls very rapidly from its source in several spring areas to its point of discharge in the Snake River. A topographic map indicates this fall is 175 to 200 feet in a distance of 1000 feet. Teaters make no direct use of the stream for irrigation or any other purpose. However, they claim use of the stream for aesthetic beauty and enhancement of their property.

We have issued a permit to Standal and he has until July 1, 1976, within which to construct the pipeline over to his fish ponds and to submit proof of use.

The Teater's problem is like many others on which we have received protests in recent years. They raise objections based upon environment which is not covered by the Idaho statutes. If we are to consider such questions, the legislature needs to be asked to amend the water laws. You are well aware of the difficulty in obtaining passage of such an amendment.

Very truly yours,

R. KEITH HIGGINSON
Director

December 24, 1970

The Honorable John P. Walsh
American Embassy
Kuwait

Dear Ambassador Walsh:

I should like to take this opportunity to introduce Mr. and Mrs. Archie Boyd Teater of Jackson Hole, Wyoming, two renowned and remarkable artists.

We have enjoyed them here and are keenly looking forward to seeing the pictures and sculptures which will be the eventual result of their sketches made here. Any assistance your Embassy can give them will be much appreciated. In particular, they would like to know whether it is advisable for them to continue on to Jordan. I am afraid I whetted their appetite by telling them about Petra.

Warm personal regards and best wishes of the season,

Sincerely,

Robert G. Neumann
Ambassador

Wishing Well Contributions

Archie B. Teater, Idaho's own internationally-recognized artist is a gentle, tireless, adventurous man. He was born in Boise, Idaho May 5, 1901.

John Walker of the National Gallery of Art in Washington, D.C. commented in visiting Archie in his Wyoming studio, "You are a post-impressionist-romantic."

Mr. Teater, at seventy, is still an ambitious, determined artist who travels world-wide and paints long hours almost daily. To date he has a total of 450 paintings from ninety-four nations. Twelve of the American paintings are now being displayed by the U.S. State Department in our embassies throughout the world.

The artist's landscapes have hung in museums across our country-- the Metropolitan Museum of Art in New York, the Joslyn Museum Centennial Exhibition of Western Artists, and others. Among the collectors of his paintings are Bennett Cerf, the Rockefellers, the Rothschilds and De Rham.

Recently in his travels, he flew by 747 jet over Greenland and Genoa. Later, through his remarkable memory, he painted his impressions of these countries as he had winged over them, 600 miles an hour at 40,000 feet.

The Teater Exhibition at the Rodeway on May 8-9 will include paintings of Idaho's Sawtooths and the White Clouds, Hagerman Valley and the Tetons, as well as his most recent international paintings.

Statehouse - Annex 2
Boise, Idaho

37-7053

Dear Mr. Higginson:

Reference is made to an application (reportedly by Norman Standal) for diversion of a small stream in Hagerman Valley for fish cultural purposes.

On May 14, 1971, a 200 foot section of the stream on the Archie Teater property west of Hagerman was sampled using an electrical fish shocker. Our personnel observed 30 wild rainbow trout ranging in size between 7 and 12 inches in length.

Our Department would oppose diversion of this stream because of the existing fisheries and aesthetic values.

Sincerely,

IDAHO FISH AND GAME DEPARTMENT

Re: Appl. for Permit #37-7058 - Norman S. Standal

Dear Mr. Higginson:

Sorry we missed you on Tuesday, and receiving letter of Dec. 7th mailed but never received by us, we hasten to reply:

We must again protest proposed use of above permit by Norman Standal:

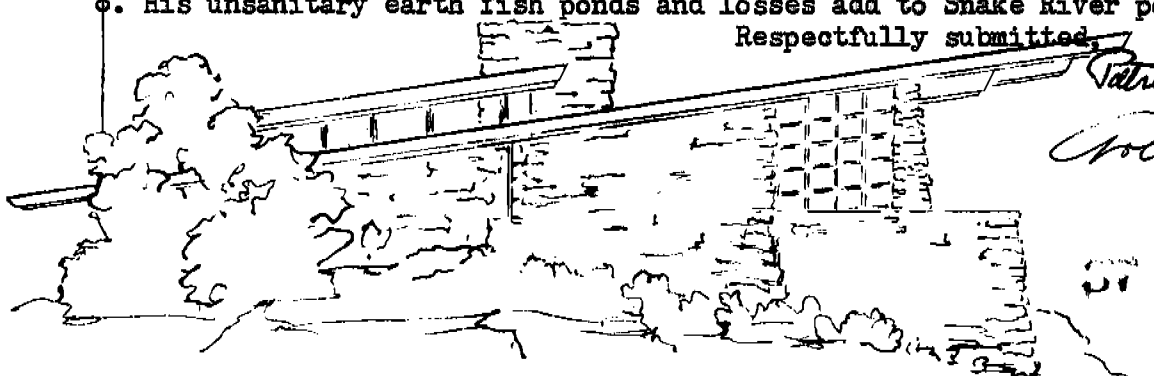

1. The stream is a brook trout stream.
2. His use would disastrously reduce if not obliterate water to our fruit trees, last crop of which Mrs. Standal canned on shares; and our English Walnut crop which Mr. Standal always wanted to buy. It would also kill fir trees and ground cover - ruinous to the blow sand on which we worked to salvage for years and at great expense.
3. We have used this stream since 1953, and according to Congressman Vern Ravenscroft the Constitutional Use all these years should be listed here. One reason we purchased this land was the stream for a number of reasons.
4. I have worked in clay since 1941 and clay needs ageing - keeping it damp to cure it properly. In this desert region a wet area is essential and there is barely enough as supplied by the stream now. This clay work is not a hobby - I have exhibited in Museums in Texas, Grand Rapids, And the Art Institute of Chicago.
5. The stream is noted for its superior water cress as far as Twin Falls.
6. Mr. Teater has used the stream and its vegetation since 1953. His paintings have won awards and recognition, pointing out the beauty of Idaho thereby bringing tourists to the benefit of the economy. Recognition by the State Department, who wants to show his Idaho canvasses in U. S. Embassies abroad for Royalty, Titled and Distinguished foreigners to see a real glimpse of America - the Beautiful.
7. Earl Josph of Hagerman phoned me asserting that Norm Standal is now in debt up to \$275,000 and his partners are struggling to dissolve the partnership. His financial resources will worsen as he recently had total fish loss for second time. The speculative enterprise was doomed from the start as he had told me in our home he did not know a thing about the fish business (Jan. 1970).
8. His unsanitary earth fish ponds and losses add to Snake River pollution etc.

Respectfully submitted,

Patricia Teater

Archie B. Teater

Biographical Data on Archie Boyd Teater

Born May 5, 1901, Boise, Idaho.
Studied two years at Portland Art Museum; eight years at Art Students League, New York; in Europe and Asia. Mr. Teater has painted landscapes, seascapes, etc., over the past eleven years in Asia, Africa, Australia and New Zealand, Europe, the East and West Indies and South America, a total of seventy-two nations. Museums which have shown Mr. Teater's paintings include Arizona, Atheneum in Hartford, Carmel, Davenport, Joslyn, Kennebunkport, Ogunquit, Rockport St. Augustine, Witte, etc.

Medal for best landscape in National 1957, AAPL, New York; first awards in west, and Honorable Mentions, Honorary Member of Mark Twain Society. Press, TV, and Radio: Personal appearances on TV and Radio; featured in Look, Architectural Digest, News, Art Digest, Ideals, Better Homes & Gardens, Quick, Who's Who, Flair, MGM, and Foreign magazines and papers. Among famous, collections including Teater paintings: Amory, Bliss, Scott Carpenter, Bennett Cerf, Fleur Cowles, De Rham, Force, Goetz, Harriman, Kissinger, Rockefeller, Rothschild, von Freudenthal, Whitney, etc.

The Grand Tetons

The International Collection

Archie Boyd Teater, who began painting over half a century ago has now visited seventy-two nations of the world during the past eleven winters. Beginning with Japan Mr. Teater circled the Asian coast southward, including the Pacific and East Indies Islands, New Zealand and Australia; the North African nations; the Mediterranean lands and Europe. Of South America he visited all the countries except Paraguay and Bolivia. He covered the West Indies. He has been trying to do all the nations, but time has limited him to some extent.

The latest paintings of these foreign countries are listed in this catalogue. They include paintings of their people, streets, landmarks, landscapes and seascapes. In gratitude, this catalogue is dedicated to the people and governments of these many nations, who have not only encouraged and aided him, but made possible this international undertaking. We hope that in this World Collection the fine arts may bring closer together all nations and show the beauty in all that can further the meaning of better human values.

Metropolitan Museum of Art, NYC: "Mr. Teater is one of our outstanding contemporary landscape artists." *Justyn Museum* in showing Centennial Exhibition of Western Artists, included George Catlin, Alfred Jacob Miller, Albert Bierstadt, Remington, Russell, Grant Wood, John Steuart Curry, Thomas Hart Benson, Tom Lea and Archie Boyd Teater... *Emily Genauer*: "Archie Teater's contribution to the exhibition delightful... a Western artist to be watched..." *Architectural Digest*, Fleur Cowles On Art: "Archie Teater, now called the Burl Ives of canvas, who paints in Wyoming with a frontiersman's eye—with the dead-shot realism of the Remingtons—a man who knows his West..." *The Villager, Greenwich Village, NYC*: "Mr. Teater, one of our genuine Western painters, has spent his life painting the Grand Tetons." *Omaha Herald*: "Mr. Teater set out meticulously to avoid the errors of his predecessors. In the summer of 1949, the late Harold Rodenbaugh, a magazine photographer and writer, took Mr. Teater and Mari Sandoz to the Gonne River

Reservation in Montana. Miss Sandoz was then writing 'Cheyenne Autumn'. They stopped at the Custer battlefield. As Miss Sandoz described it, 'Archie was fired with excitement over what the battle must have looked like. He walked over the ground like a man possessed, or better, enchanted by some spell'... Miss Sandoz, in turn, visited them often in their studio at Carnegie Hall, NY, and made suggestions regarding the depiction of historical fact and the most minute detail of the last painting which was unfolding on the Teater canvas... 'A battle which lasted only 20 minutes has been magnificently painted by one of the West's foremost artists who took some five years, on and off, to conceive and execute the canvas'. *Contra-Almirante Americo Thomaz*, President of Portugal: "With compliments and in gratitude." *New York Times*: "Among the many art exhibitions that now honeycomb New York City, there recently was a unique group of paintings by an Idaho painter, Archie B. Teater, which not only challenges attention, but one that will stay long in the

memory... significant work, of unusual character, beauty and intensity... Here is the savor and thrill of the sagebrush... there is a singular candor and honesty that breathes from these canvases. MS." *Flair Magazine*: "Few painters can hope to know the look and the lore of the American West like Archie Boyd Teater." *Minister of Culture, Philippine Islands*: "Your paintings are beautiful..." *Bennett Cerf, Publisher, Random House, TV* "What's My Line": "Mr. Teater is one of our country's leading artists. I have his work, and am very fond of it." *Cairo, Egypt Press*: "We believe you have painted the finest scenes of the Nile ever seen and thank you for permitting photographs to be presented to our President, Abdul Nasser." *Attorney General, Brazil* *Magil*: "Your work is a permanent message of good taste, intelligence and sensibility, and for these same reasons themselves a manifestation of real art." *Burl Ives*: "Archie Teater is a folksinger on canvas."

Re: Application for Permit No. 37-7058

C
Mr. & Mrs. A. B. Teater
Bliss,
Kaho 83314

O
Dear Mr. & Mrs. Teater:

P
As you will recall on October 6, 1970, a hearing was held in connection with Application for Permit No. 37-7058. During the hearing, the protestants agreed that their major concern was that this Application would interfere with prior existing water rights. The protestants acknowledged that, if the approval of this Application carried the condition that the right was subordinate to any and all prior rights, they would then have no objection to the approval of the permit. We have taken this to be your position in the matter. If we have misunderstood your intentions, please advise us before December 28, 1970. If we have not heard from you on or before this date, we will set aside your protest and proceed with this Application.

Very truly yours,

Y

Re: Application for Permit No. 36-7069 & 37-7058

C
Mr. Norman S. Standal
Star Route
Bliss, Idaho 83314

O
Dear Mr. Standal:

We are in receipt of your letter withdrawing your protest to Application for Permit No. 36-7069. Mr. Hinze has been advised of your action.

P
As to the status of your Application for Permit No. 37-7058, we are presently sending letters to each of the protestants present at the conference held October 6, 1970. These letters are to confirm our understanding that they do not wish to continue with their protest if any prior rights they have are recognized. An order is also being prepared setting aside all of the protests submitted by individuals who did not appear at the conference. As soon as these matters are taken care of, your application will be processed through staff review.

If you have any further questions, please feel free to contact us.

Y
Very truly yours,

BOBBY D. FLEENOR
Assistant Director

M E M O R A N D U M

Re: Application for Permit No. 37-7058

A conference was held at Twin Falls, Idaho on October 6, 1970 to discuss numerous protests against this application.

All protestants present (see roster of attendance) agreed that if the application were approved subject to all prior rights that they would not object to Mr. Standal taking water in excess of their rights. Each protestant claimed some prior right, many of which were probably not of record.

Letters should be sent to each protestant present at the conference confirming our understanding that they did not wish to continue with their protest if any prior rights they had were recognized. They should be given a time limit to reply if they don't agree.

An order should be prepared setting aside all of the protests submitted by individuals who did not appear at the conference. This can be done in one single order.

When the time limit is up on any letters written, we should then process the application through staff review.

C. STEPHEN ALLRED
Deputy Director

BEFORE THE DIRECTOR
OF THE
IDAHO DEPARTMENT OF WATER ADMINISTRATION

In the Matter of Protests Against Approval
of Application for Permit No. 37-7058 in the
name of NORMAN S. STANDAL

NOTICE OF CONFERENCE
AND/OR HEARING

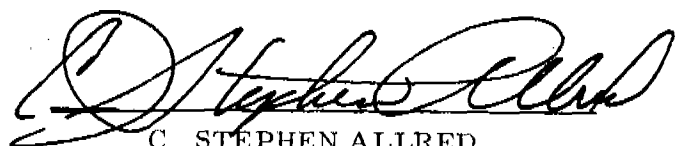

On January 26, 1970, Norman S. Standal, Star Route, Bliss, Idaho, filed with the Department of Water Administration an application to appropriate the public waters of the State of Idaho. This Department has received protests against approval of this Application for Permit from the following: Rex Barlogi, Bliss, Idaho, and Dale Schoth, Star Rte, Bliss, Idaho, on May 12, 1970; Archie Boyd and Patricia Teater, Bliss, Idaho, on or about May 16, 1970; Mrs. Bernice Schoth, Hagerman, Idaho, Juan N. and Joyce C. Menchaca, Rte. 3, Twin Falls, Idaho, Mrs. Laura McAnulty, Hagerman, Idaho, and Sheldon E. Condit and Leona C. Storer, 749 Gull Avenue, Foster City, California, all received on May 20, 1970; and Mr. Carl E. Hayden, Box 1, Bliss, Idaho, on May 22, 1970. This Department has also received 21 letters of concern regarding the approval of this Application for Permit.

The Department has set the matter of protests for conference and/or hearing on October 6, 1970, at 10:30 a.m., in the Twin Falls City Hall, Council Chambers, 321 2nd Ave. East, Twin Falls, Idaho. Any hearing will be held in accordance with the Rules and Regulations of the Idaho Code and adopted Rules of Practice and Procedure of the Department of Water Administration. Opportunity shall be afforded all parties to respond and present evidence and argument on all issues involved.

Any party may request in writing five (5) days before any hearing that the oral proceedings thereof be taken in the form of stenographic notes. Any party may have such stenographic notes of the oral proceedings, or part thereof, transcribed at his own expense. A taped record of the proceedings will be maintained for the appeal period.

Failure to appear at the time and place set for hearing by the applicant or protestants may allow the Department without prejudice to dismiss the protests or the application. Any and all cost incurred by reason of such non-appearance may be assessed against such non-appearing parties.

Dated this 4th day of September, 19 70.

C. STEPHEN ALLRED
Deputy Director

Mailed this 8th day of September, 1970, to Laura McAnulty, Hagerman, Idaho, certified No. 22176; Bernice Schoth, Hagerman, Idaho, certified No. 22177; Archie Boyd & Patricia Teater, Bliss, Idaho, certified No. 22178; Juan N. & Joyce C. Menchaca, Rte. 3, Twin Falls, Idaho, certified No. 22179; Sheldon E. Condit & Leona C. Storer, 749 Gull Ave., Foster City, California, certified No. 22179; (See reverse side)

Carl E. Hayden, Box 1, Bliss, Idaho, certified No. 22180; Dale Schoth, Star Rte., Bliss, Idaho, certified No. 22181; Rex Barlogi, Bliss, Idaho, certified No. 22182; Norman S. Standal, Star Rte., Bliss, Idaho, (copies of protests enclosed) certified No. 22183

**NOTICE OF APPLICATION
FOR PERMIT TO
APPROPRIATE THE
PUBLIC WATERS OF THE
STATE OF IDAHO**

Notice is hereby given that Norman S. Standal, Star Route, Bliss, Idaho, has on January 26, 1970, submitted Application No. 37-7058 to appropriate the public waters of an unnamed stream, tributary of the Snake River.

The application proposes a maximum diversion and appropriation of 4.0 cubic feet per second of water to be diverted by dam, pipe and canal within the NE $\frac{1}{4}$ NW $\frac{1}{4}$ Sec. 28, T. 6S, R. 13E, B.M., Gooding County, and is to be used within the NE $\frac{1}{4}$ NW $\frac{1}{4}$ and NE $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 28, T. 6S, R. 13E, B.M. from January 1 to December 31 for fish propagation purposes.

Any permit issued pursuant to this application will be subject to ALL PRIOR WATER RIGHTS and subject to the CONTROL OF A STATE WATERMASTER. Any protest against this application must be filed with the Idaho Department of Reclamation on or before May 25, 1970.

Gentlemen:

Enclosed you will find a legal notice which we wish to have published once a week for two consecutive weekly issues of your newspaper. We have inserted the publication dates allowing ample time for you to submit us a galley proof for review before publication.

After sending us a galley proof, proceed with the publication on the dates we have inserted assuming the notice is correct. If we have any corrections, we will notify you before the first publication date. If you cannot publish the notice on the proposed dates, please contact us immediately.

An affidavit of publication must be submitted to the Department of Reclamation along with the publication bill. In order to receive payment, the following certification must appear on the bill:

I hereby certify that the foregoing account is just and correct, that the amount claimed is legally due, after allowing all just credits, and that no part of the same has been paid.

(Signature of the claimant)

Very truly yours,

Donald W. McEldowney
Appropriation Supervisor

NOTICE OF APPLICATION FOR PERMIT
TO APPROPRIATE THE PUBLIC WATERS OF THE STATE OF IDAHO

Notice is hereby given that Norman S. Standal, Star Route, Bliss,
Idaho, has on January 26, 1970,
submitted Application No. 37-7058 to appropriate the public waters of
an unnamed stream, tributary of the Snake River
~~the proposed uses are~~ _____

The application proposes a maximum diversion and appropriation of 4.0
cubic feet per second ~~acre feet~~ of water to be diverted by dam, pipe and canal
within the NE¹/₄ NW¹/₄ Sec. 28,
T. 6S, R. 13E, B.M., Gooding County,

and is to be used within the NE¹/₄ NW¹/₄ and NE¹/₄ NE¹/₄, Sec. 28, T. 6S, R. 13E, B.M.
from January 1 to December 31 for fish propagation purposes

Any permit issued pursuant to this application will be subject to ALL PRIOR
WATER RIGHTS and subject to the CONTROL OF A STATE WATERMASTER. Any protest
against this application must be filed with the Idaho Department of Reclamation on
or before May 25, 1970.

RE: Application for Permit No. 37-7058

Dear Mr. McEldowney:

In reply to your request for more information of Permit
#37-7058 we submit:

1. Financial Statement:

I own all the construction equipment required for
this proposed installation and have a net annual income in
excess of three times the total cost of the project. I
am well equipped in every respect to carry out this project
and will do so.

2. Design information:

Please see enclosed drawing. Deversion structure
will be earth filled dam approximately 4' high with pipe
bypass.

3. Justification:

Please see attached.

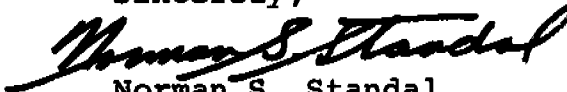

4. Construction to start within two weeks after the
permit approval or sooner. Project to be completed and in
operation within two months after permit approval or sooner.

Inlet water will be measured by rectangular weir and outlet
by pipe flow (piezometer).

A corrected map was sent you on March 4, 1970.

Any further information needed will be furnished upon
request.

Sincerely,

Norman S. Standal
Star Route
Bliss, Idaho

NORMAN STANDAL

The water requirements for these ponds are 4 cfs. There will be 3 ponds utilizing the same water. The ponds are designed in the non-stereo type method ordinarily used in order to conform to the landscape and add to the beauty of the area. The ponds are designed as much as possible to give a natural effect.

The natural vegetation will be disturbed as little as possible. Re vegetation will include seeding Sodar Wheatgrass and inter planting 6 or 8 Juniper trees along with low juniper shrubs in the closely confined landscape areas.

Pond No. 1 will be 125 feet by 30 feet by 4 feet deep. The water will be changed .90 times per hour and will require 4 cfs. The pond will produce approximately 22,500 pounds of trout.

Pond No. 2 will be 100 feet by 25 feet by 4 feet deep. The water will be changed 1.44 times per hour and will require 4 cfs. The pond will produce approximately 15,000 pounds of trout.

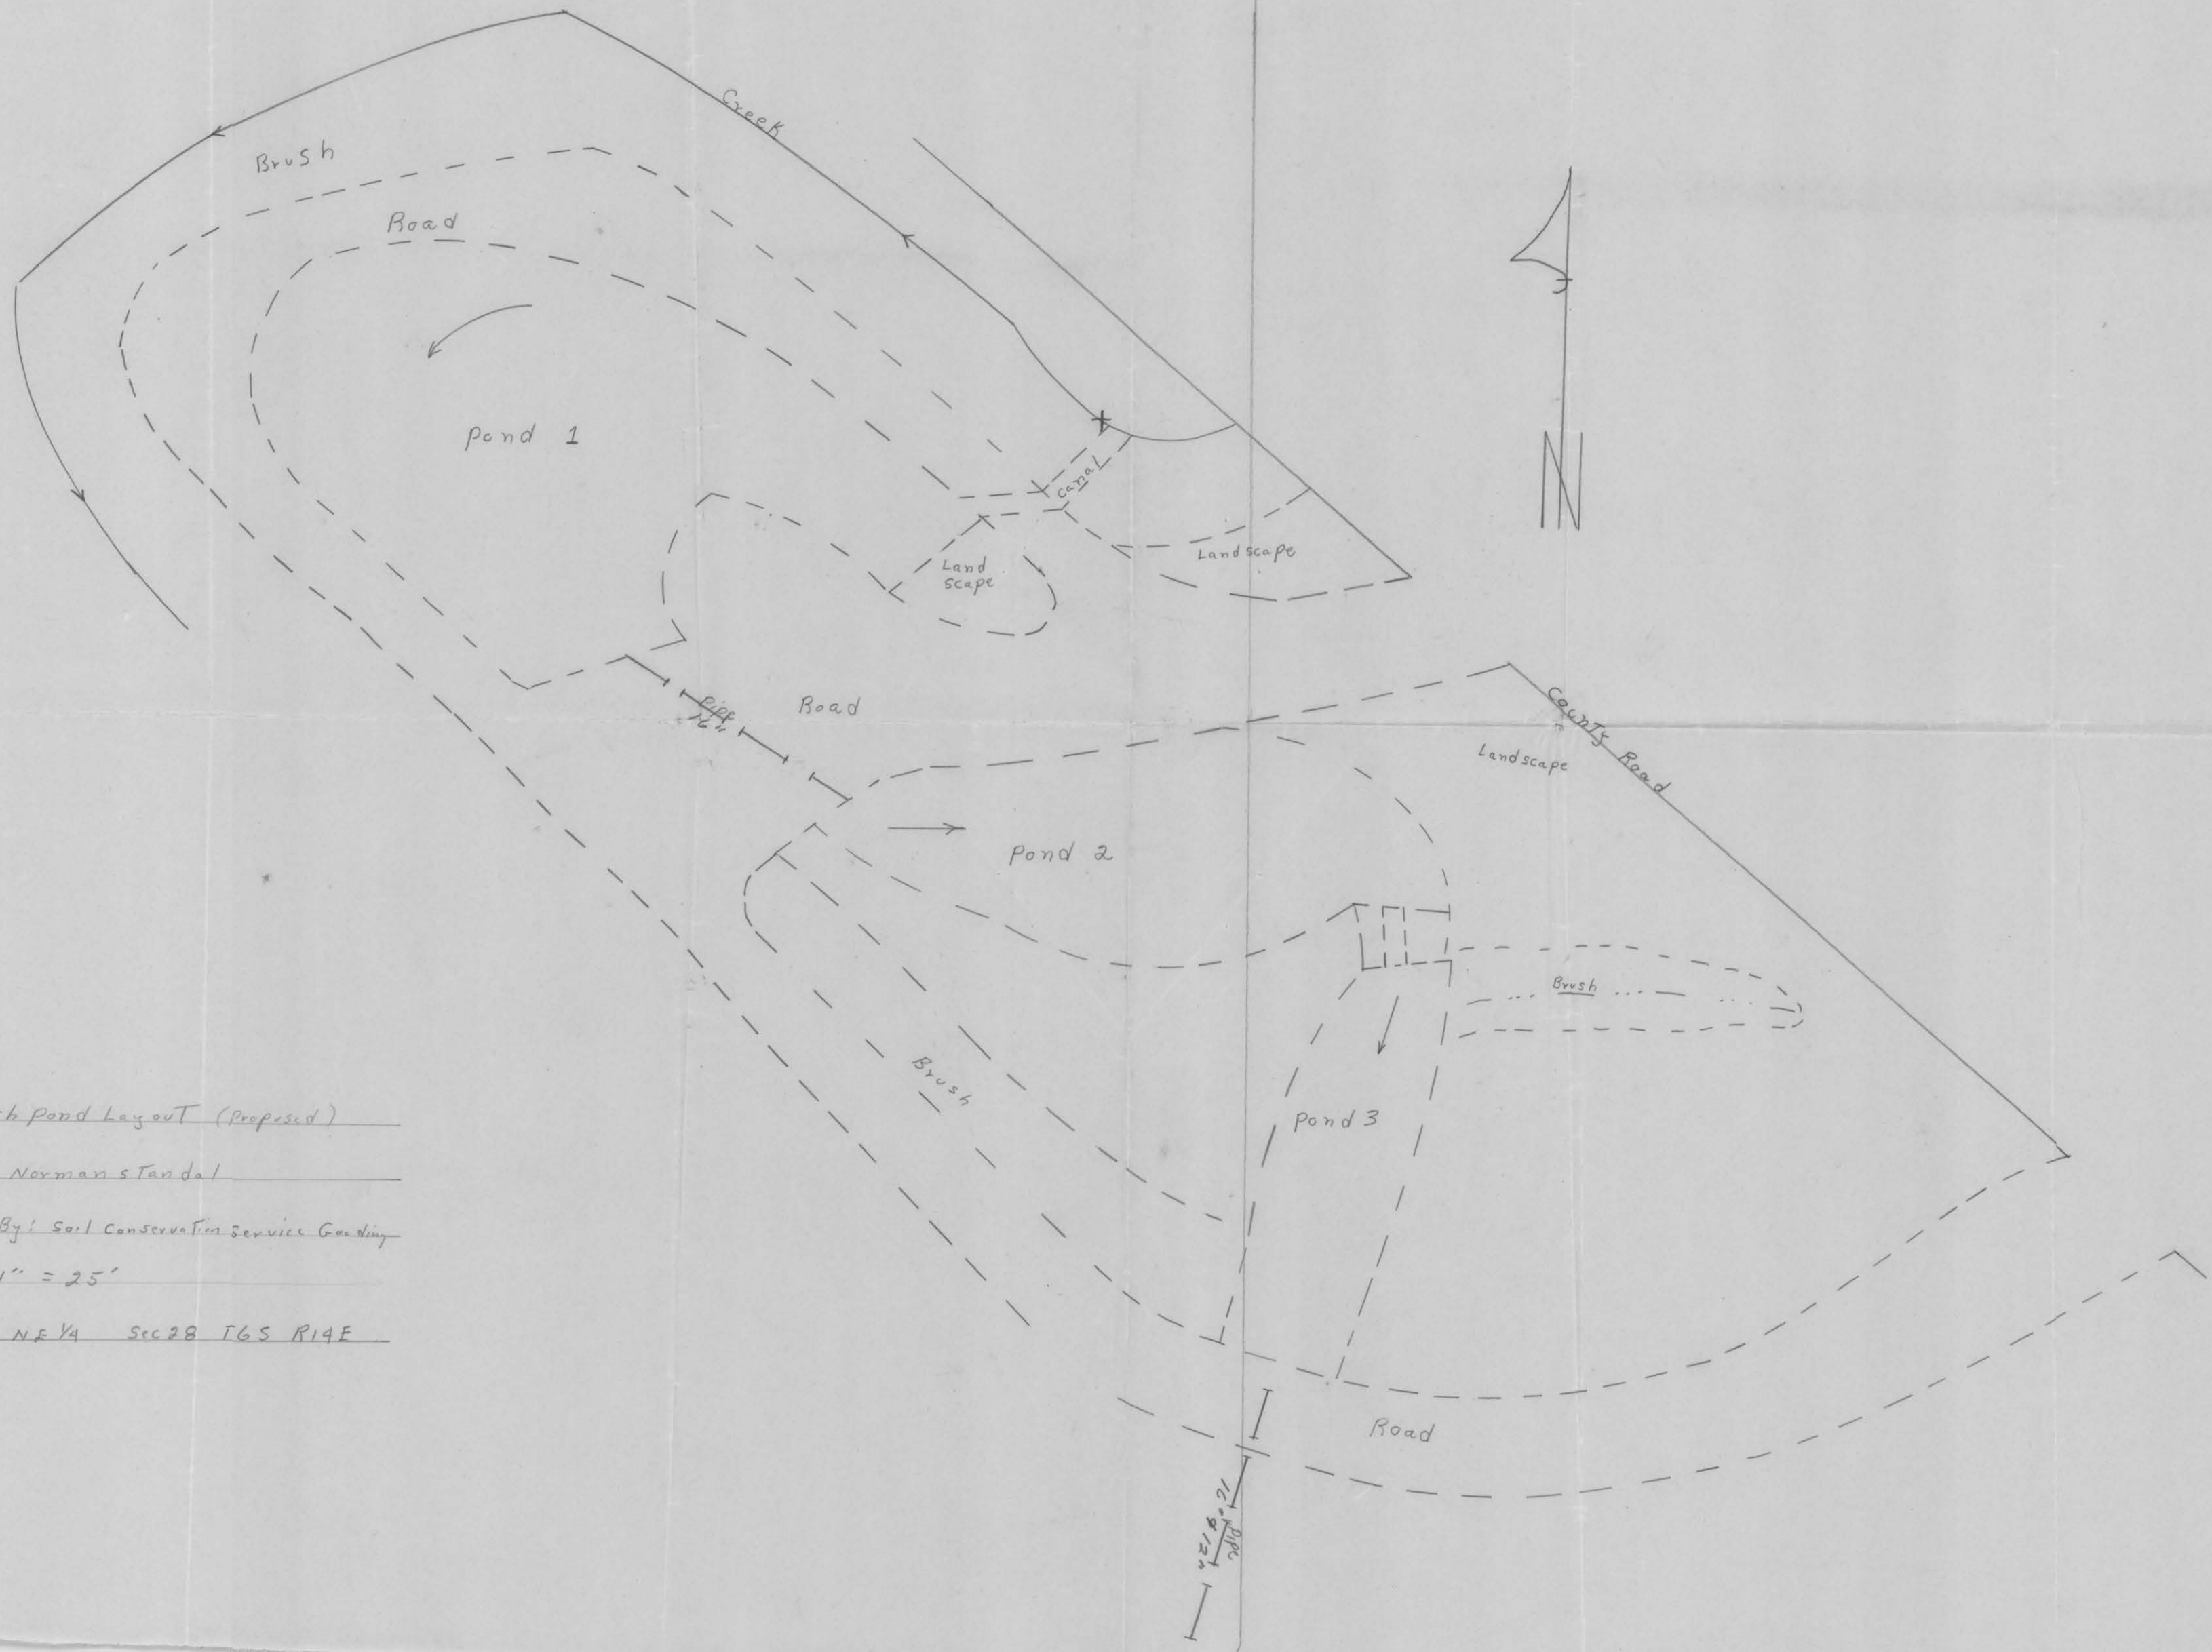

water will be changed 1.92 times per hour and will require 4 cfs. The pond will produce approximately 10,200 pounds of trout.

Water requirements 4 cfs.

Approximate production 47,700 pounds

Re: Application for Permit No. 37-7058

Mr. Norman S. Standal
Star Route
Bliss, Idaho 83314

Dear Mr. Standal:

In reviewing your application for permit, we find that in order for your application to be considered complete, it will be necessary for you to submit additional information on or before March 24, 1970, in order to maintain your proposed priority of January 26, 1970 (Section 42-204, Idaho Code).

1. A financial statement indicating the resources available to complete the project as described in the application.
(Sec. 42-203, Idaho Code)
2. A preliminary design of the hatchery facilities, indicating the size of raceways, general layout, the size of pipelines or other diversion works and such other information as will fully describe the method and means of diversion and verify the need for the quantity of water you have requested.
3. A justification based upon the preliminary design and the estimated production of the hatchery, for the amount of water requested.
4. An estimated schedule of construction giving dates for the start of construction, the finish of construction, and the date that full operation of the hatchery is anticipated.

Re: 37-7058
February 24, 1970

You should be aware that all applications, if approved, will require the installation and maintenance of adequate measuring devices, both at the point of diversion and the point of return of the water, especially in cases of non-consumptive uses. These devices must be of a type approved by the Department of Reclamation; they can be of any generally recognized standard measuring device type. You should include the installation of these devices in your preliminary plans for construction.

On your application you have listed the place of use as being within the NE $\frac{1}{4}$ NW $\frac{1}{4}$ and NE $\frac{1}{4}$ NE $\frac{1}{4}$ of Sec. 28. We are enclosing a copy of the map on the application which does not correspond with the above description of the place of use. We are enclosing a map sheet which you may use to submit a corrected map.

If you have any questions regarding your application, please contact us at once.

Very truly yours,

Donald W. McElDowney
Appropriation Examiner
