Subject: Measuring device 37-7038

I would recommend waiving the measuring device requirement for this permit. Location of the well makes measurement very difficult, and because this water is commingled with other unmeasured water the measurement will be of little or no value.

The ground water supply is sufficient so as to only cause minor localized reduction in artesian head, which could not be corrected by measurement.

I would recommend that F&G be advised that we might at some later date require a measuring device.

WATER RIGHT LICENSE

License of Water Right No. 37-7038 Priority Nov. 19, 1968 Amount 2.0 cfs

THIS IS TO CERTIFY, that the State of Idaho, Department of Fish & Game
of Boise, Idaho, has complied with the terms and conditions of Permit
No. 37-7038 issued pursuant to Application for Permit dated November 19, 1968,
and has submitted proof to the Department of Water Resources on December 29, 1971,
that he has applied water to a beneficial use; an examination by the Department indicates that the works have a
capacity for the diversion of 2.0 cfs of water from a ground water source,
tributary to _____, and that the permit holder has applied to a beneficial use and
established a right to use water as follows:

Beneficial Use	Period of Use	Rate of Diversion	Annual Volume

Statehouse Mail

Dear Mr. Greenley:

A representative of this Department has again examined the works covered by Permit No. 37-7038 and found the wells producing slightly less than they were at the time of the first examination. The Department is prepared to issue a water license based upon the first examination as follows:

Amount of water that can be recognized as beneficially used
under Idaho law: 2.0 cfs

Point of diversion: SE $\frac{1}{4}$ NW $\frac{1}{4}$ (2 points) of Sec. 13, Twp. 1 S,
Rge. 19 E, B. M., Blaine County

Beneficial use: Fish Cultural purposes within the SE $\frac{1}{4}$ NW $\frac{1}{4}$ of
Sec. 13, Twp. 1 S, Rge. 19 E, B. M.

The maximum quantity diverted shall not exceed n/a acre
feet per year.

Priority date established: Nov. 19, 1968

If you do not concur with the rate of diversion proposed, you may submit, for our consideration, flow measurement data to verify the rate of diversion you believe the wells to be producing. This data should be certified by a professional engineer as being an accurate measurement of the discharge of these two wells.

We will withhold issuance of the license for 30 days. If we have not heard from you by that time, a water right license will be issued as set forth above.

Sincerely,

BOBBY D. FLEENOR

Permit #37-7038

Gentlemen:

Enclosed is an Application for Amendment of Water Permit #37-7038 from one to two diversion points, both within the same least legal subdivision. Also enclosed is a State Voucher in the amount of \$10.00 to provide for payment of the application fee. Please sign and return to the Fish and Game Department for processing.

We enter protest to the quantity of water recognized as beneficially used from measurements made in 1973. There appears to be variance in the flow of waters from these wells, both as to the season of the year and from year to year. Indications are that the water table in this valley during the summer of 1973 was below normal.

In 1969 the Department calculated the flow from the test well to be 250 gallons per minute and from the larger well to be 1100 gallons per minute, for a total flow of 3 cfs. In August of 1971 the flow from both wells was calculated to be 2.67 cfs.

We respectfully request that consideration be given to allowance in full the water quantity stated in the Department's deposition of waters applied to beneficial use, a flow of 2.67 cfs or 1932 acre feet per year. Should this proposal not be acceptable to the Department of Water Administration, please consider holding issuance of license until 1974 so that the wells may again be measured for maximum flow in 1974.

Thank you for your cooperation.

Re: Permit No. 37-7038

State of Idaho
Department of Fish and Game
600 South Walnut
Boise, Idaho 83702

Gentlemen:

A representative of this Department has made an examination of the works covered by your Permit No. 37-7038 and has found the following:

Quantity of water diverted: 2.0 cfs

Amount of water that can be recognized as beneficially used under Idaho law: 2.0 cfs

The maximum quantity diverted shall not exceed 1,445 acre feet per year.

Beneficial use: For fish cultural purposes within the SE $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 13, Twp. 1 S, Rge. 19 E

Point of diversion: SE $\frac{1}{4}$ NW $\frac{1}{4}$ (2 points) of Sec. 13, Twp. 1 S, Rge. 19 E, B.M.

Priority date established: November 19, 1968

Our field report indicates that there is another point of diversion in the NW $\frac{1}{4}$, Sec. 13, Twp. 1 S, Rge. 19 E, B.M., whereas, your permit only lists one. Therefore, it will be necessary for you to file an amendment before a Water License can be issued. We are enclosing a partially completed application for amendment for your use. Please sign and return the application to this office with a \$10.00 filing fee within 20 days of the date of this letter in order that we may issue a Water License as set forth above.

If you do not concur with these findings or have any questions, please contact this office within the 20 day period.

Sincerely,

BOBBY D. FLEENOR
Assistant Director

Dear Mr. Greenley:

We acknowledge receipt of the affidavit submitted as proof of beneficial use for the above referenced permit. Enclosed please find an Order which removes the measuring device requirement under this permit.

Before a license can be issued, a field examination must be made by a representative from this Department. We cannot tell just when this examination will be made, but our examiner will contact you at the time he makes the examination so that you may arrange to have someone show him the system.

Subject: Measuring device 37-7038

I would recommend waiving the measuring device requirement for this permit. Location of the well makes measurement very difficult, and because this water is commingled with other unmeasured water the measurement will be of little or no value.

The ground water supply is sufficient so as to only cause minor localized reduction in artesian head, which could not be corrected by measurement.

I would recommend that F&G be advised that we might at some later date require a measuring device.

Dear Mr. Higginson:

Enclosed herewith are various data statements submitted as proof of application of water to beneficial use, Permit #37-7038.

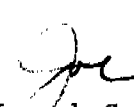

In the matter of installation and maintenance of measuring devices at both the points of diversion and of return, the Idaho Fish and Game Department does hereby respectfully request relief by deletion of the limitations and conditions of the license, to install water measuring devices.

Causes for relief are as follows:

1. The water of the well appears to be subjected to a constant and uniform pressure producing a stable artesian water flow. As no pumps are planned and only limited artesian flow can be obtained from the well, a meter measuring device to limit water use appears to serve no need.
2. The waters from the well are mingled in use with other waters licensed to the Department for hatchery use and measuring the hatchery outflow would have no meaning as to water used in relation to the water flow from the well.

Sincerely,

IDAHO FISH AND GAME DEPARTMENT

Gentlemen:

One of the conditions of approval of your water Permit No. 37-7038 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before February 1, 1972. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

I am returning warrant # G 817452 to avoid and overpayment of account.

I am enclosing a copy of a letter I wrote to Mr. McEldowney on January 30, 1969. I believe this letter will explain the difficulty.

The letter states a double billing and subsequent double payment which I cleared by refunding the second payment.

Our records indicate that #37-7038 and # 37-7037 were paid on January 30, 1969. Permit # 91-7003 was paid twice and one payment was refunded.

Therefore, there is nothing due on your account now.

We have just completed another permit # 36-7047 which will be billed directly to Mr. McEldowney for \$7.59.

I trust this will clear up this overpayment.

Hailey Times
Hailey, Idaho

Gentlemen:

Enclosed you will find a legal notice which we wish to have published once a week for two consecutive weekly issues of your newspaper. We have inserted the publication dates allowing ample time for you to submit us a galley proof for review before publication.

After sending us a galley proof, proceed with the publication on the dates we have inserted assuming the notice is correct. If we have any corrections, we will notify you before the first publication date. If you can not publish the notice on the proposed dates please contact us immediately.

An affidavit of publication must be submitted to the Department of Reclamation, along with the publication bill. In order to receive payment, the following certification must appear on the bill:

I hereby certify that the foregoing account is just and correct, that the amount claimed is legally due, after allowing all just credits, and that no part of same has been paid.

Signature of claimant

Very truly yours,

Donald W. McEldowney
Appropriation Examiner
