Dear Sirs:

The lands for which Larry Plot, Bellevue, Idaho is making application for beneficial use of water are of fairly high requirements. They are principally in the Little Wood series soils and are fairly low water holding capacity. Water penitration is very rapid.

Because of the for going situation and that the water table is quite close, it would be beneficial to the irrigation system to file at the rate of 2" per acre. Any lose through the soil will return to the underground system on the site.

Sincerely,

James I. Eakin

Dear Mr. Allred;

Refer my permit number 37-7037.

Would it be possible for you to relieve the requirement for the installation of a measuring device for our small operation.

We have approximately 7 acres cleared and have it planted with grass. We have 13 sprinkler heads operating and it seems to be sufficient.

Would appreciate any consideration you could give us on this matter.

Thank you,

Hailey, Idaho 83333

Dear Mr. Plott:

We are in receipt of your affidavit submitted as proof of beneficial use for permit 37-7037. However, in reviewing that affidavit, it appears that you have failed to install the measuring device as required by the conditions of approval of your permit and by Section 42-701 of the Idaho Code.

We cannot accept your proof and issue a license unless you have installed a measuring device of a type approved by the Department. We will hold your affidavit until you can supply us with information as to the type of measuring device installed. You should be aware that failure to install the device and supply information as to the type of device installed may result in the loss of your permit. We will withhold action regarding your permit until June 15, 1970.

We are enclosing a list of the type of devices approved by the Department of Reclamation. If you have any questions, please contact us.

Very truly yours,

C. STEPHEN ALLRED, Deputy

Dear Sir:

Thank you for the note on your bill of January 9, 1969. The department has checked their records and finds that Application for Water in the name of Lucille B. Graham has been paid twice. We did, however, receive two certified bills.

The department will mark the Application No. 37-7037 as being paid. Please subtract the amount of this billing (\$6.48) from our credit. We will then subtract the additional .96¢ credit from our next publication billing.

If you have any questions, please contact us.
