Dear Water Right Holder:

Thank you for signing and returning my address change letter so promptly. I checked each of the permit numbers you wrote in your enclosure and found the following:

Applications for Permit #37-07678 and #61-07450 have lapsed. If you wish to file another Application for Permit, please call IDWR to have the form sent to you.

I could find no information whatsoever in our data base about permit #37-07026.

In response to your question about telling us when you move back to Boise in the winter and back to Hill City in the summer, yes, definitely tell us. Write down each of your water right and permit numbers, sign the note and send it to us so we can update our data base.

The only way you will know if someone has filed an objection to your water rights is if you get that notice in the mail. As you read in the Notice of Filing Director's Reports you received in March, 1999, there are deadlines by which you must have the Court's form to the Court by a specific date for both objections and responses to objections.

It would be unfortunate if you missed an important deadline or missed a hearing because your mail went to one of the

IN THE MATTER OF PERMITS NUMBER)
37-7024, 37-7025 and 37-7026.)

APPLICATION FOR WAIVER
OF PROOF REQUIREMENTS.

Comes now Gwinn F. Rice and moves the Department to waive the requirements of Proof of Application of water to beneficial use in the above captioned permits.

This application is made on the grounds and for the reason that the installation of a measuring device in connection with these particular permits is virtually impossible.

The diversion works are simply excavations approximately 18 feet wide, 70 feet long and 8 feet deep. The ponds thus created are apparently Artesian to the extent of the ground level. That is, the water falls to ground level but does not overflow creating a natural and automatic watering trough. I have had as many as 1,000 head of cattle using one of the ponds at one time and the diversion works are sufficient to provide water for that many head of cattle and yet does not overflow when not being used.

Dear Mr. Hobday:

In response to your inquiry concerning the above referenced permits, I would suggest that you petition the Department to remove the requirement for a measuring device. This should be sent to Bob Fleenor at our Boise office. Perhaps if you explain the situation to them as you have in your letter to me, the requirement for a measuring device can be removed.

If we can be of any further assistance, please contact us.

Very truly yours,

Dear Ms. Rice:

One of the conditions of approval of your water Permit No. SEE ABOVE (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before July 1, 1973. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.
