RE: Application for Permit 37-08852

Dear Mr. Longley:

A recent examination of pending applications in our office revealed that Application for Permit 37-08852, filed in the name of Hulen Meadows Water System, is still pending. This particular application was filed in October of 1995.

During the review of application for permit 37-08852, it was discovered that several older existing water rights were already appurtenant to the Hulen Meadows Subdivision. In addition, a water right permit, 37-08601, was pending licensing for the subdivision. It was decided to delay action on application for permit 37-08852 until permit 37-08601 was licensed.

During the licensing of water right 37-08601, it was determined that the existing water rights that were appurtenant to Hulen Meadows when combined with water right 37-08601 covered all the water uses for the subdivision. Therefore, the application that you filed in October of 1995 was not necessary.

Our Department, and the subdivision, need to address the pending application for permit 37-08852, filed in October of 1995. Since the application for permit is no longer necessary due to the existing water rights covering the subdivision's water use(s). Our Department can process, and eventually deny, the application, or you can withdraw the application. Since this particular application has not been advertised yet, you may be able to obtain a refund of your \$100.00 application filing fee (if requested). I have enclosed a partially completed form that would enable the subdivision to withdraw the application.

MICROFILMED

As you recall, all the existing water rights, except recently licensed water right 37-08601, for the subdivision do not reflect the actual point of diversion (well) locations. In addition, the Snake River Basin Adjudication claims filed for the subdivision do not reflect the current point of diversion locations. This is partially due to the abandonment of the well located along Sorrel Lane and the addition of the new well along Hulen Way. Representatives of the Department have discussed with you the need for the filing of a water right transfer application to correctly record the existing well locations.

I encourage you, and the subdivision, to file an application for transfer to properly record all the current well locations on all of the subdivision's existing water rights. If you, or the subdivision, need assistance in this process feel free to contact me. The filing fee for an application for transfer is \$100.00, so if you obtain a refund from withdrawing application for Permit 37-08852, you could use this money to file the transfer application.

If you have any questions, or if I can be of any assistance, feel free to contact me at your convenience.

Sincerely,

RE: Transfer Required

During the review of the beneficial use examination on 37-08601, I noted that the legal description of the points of diversion for licenses 37-02734, 37-07011, and 37-07290 required correction to add the backup well drilled in 1992.

I spoke with Marc Longley, manager of Hulen Meadows Subdivision on 9/26/96 about filing a transfer to make the p/d corrections. Mr. Longley understood and agreed to the corrections and will file a transfer.

Application for permit 37-08852 filed by Mr. Longley to cover any additional water use not covered by existing rights. The licensing of 37-08601 covered all remaining uses of water for the subdivision. Therefore, the new application is unnecessary. Mr. Longley plans to withdraw the application when he files the transfer and apply the permit application fee against the transfer filing fee. As of this date, we have not received either the transfer application or the request to withdraw the permit application at this office.

Today Corey Skinner called in follow-up to this situation. I explained the above to him. Corey volunteered to pursue the disposition of the permit application and transfer.

Gentlemen:

Enclosed are copies of the Water Licenses issued on the above referenced permits along with a copy of the approved application for amendment which amended both permits to cover all three wells.

Since the system was found to be producing 1.34 cfs, we direct your attention to the conditions made a part of License No. 37-7011. Should you have questions regarding these licenses, please feel free to contact us.

Gentlemen:

One of the conditions of approval of your water Permit No. 37-7011 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before November 1, 1973. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

ORDER

WHEREAS, on February 8, 1968, Hulen Meadows, Inc. filed with the Department of Water Administration (formerly the Department of Reclamation) an application for permit to appropriate 2.5 cfs of water from a ground water source within the NW $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 36, Twp. 5 N, Rge. 17 E, B.M., Blaine County, to be used for irrigation and domestic purposes; and,

WHEREAS, on April 11, 1968, the Department approved said application and issued Permit No. 37-7011 with the condition that proof of construction of works and application of water to beneficial use be submitted to the Department on or before April 1, 1973, and that a measuring device of a type approved by the Department be permanently installed and maintained as part of the diverting works; and,

WHEREAS, on January 31, 1973, the Department notified the permit holder by certified mail that proof of beneficial use was due and instructed the permit holder as to the steps to be taken to make said proof; and,

WHEREAS, on March 30, 1973, the Department received a request from the permit holder asking for an extension of time within which to submit proof due to a delay in delivery of a permanent measuring device; and,

WHEREAS, it has been determined by the Department that sufficient cause has been shown to grant an extension of time;

IT IS, THEREFORE, HEREBY ORDERED that the time within which to submit proof of beneficial use of water under Permit No. 37-7011 be and is EXTENDED to November 1, 1973.

Dear Mr. Higginson,

As per your telephone instructions as of March 27, 1973, I am herewith requesting a thirty (30) day extension of time for filing proof of application of water for beneficial use on water permit #37-7011.

The reason I need this time extension is due to the delay of delivery of a permanent measuring device and installation of same. This has just been completed, but I will not be able to fill out the forms for at least a week as I will be out of town on business.

Hoping you will be so kind as to give us this extension.

Dear Mrs. Curtis:

Please be advised that we are in receipt of the Hulen Meadows application for water No. 37-7011.

At the present time, the application is in the advertising process. The legal notice will run in the Hailey Times on March 14 and 21.

After the publication of the legal notice, we will hold the application for a 10 day protest period. Within several days from the last day of protest, you will be notified as to the status of the application.

If we may be of further assistance, please contact us.

Very truly yours,

Donald W. McEldowney
Appropriation Examiner

Gentlemen:

Enclosed you will find a legal notice which we wish to have published once a week for two consecutive weekly issues of your newspaper. We have inserted the publication dates allowing ample time for you to submit us a galley proof for review before publication.

After sending us a galley proof, proceed with the publication on the dates we have inserted assuming the notice is correct. If we have any corrections, we will notify you before the first publication date. If you can not publish the notice on the proposed dates please contact us immediately.

An affidavit of publication must be submitted to the Department of Reclamation, along with the publication bill. In order to receive payment, the following certification must appear on the bill:

I hereby certify that the foregoing account is just and correct, that the amount claimed is legally due, after allowing all just credits, and that no part of same has been paid.

(Do not sign letter)

Signature of claimant

Very truly yours,

Donald W. McEldowger
