WATER RIGHT LICENSE

License of Water Right No. 37-7006 Priority December 18, 1967 Amount 2.18 cfs

THIS IS TO CERTIFY, that GRANT ELLSWORTH
of Mesa, Arizona, has complied with the terms and conditions of Permit
No. 37-7006 issued pursuant to Application for Permit dated December 18, 1967,
and has submitted proof to the Department of Water Resources on May 2, 1969,
that he has applied water to a beneficial use; an examination by the Department indicates that the works have a
capacity for the diversion of 2.18 cfs of water from Muldoon Creek,
tributary to Little Wood River, and that the permit holder has applied to a beneficial use and
established a right to use water as follows:

Beneficial Use	Period of Use	Rate of Diversion	Annual Volume

Dear Mr. Ellsworth:

Re: License No. 37-7006

On February 20, 1979, you filed the enclosed application for amendment of the above-referenced water right. It proposed to change the point of diversion. After being advertised, the amendment was protested by C.H. Haskell in behalf of the Little Wood River Canal Co. No further action was taken on the amendment since you were not the permit holder of record.

An amendment was filed by Mr. Keith Justesen on September 11, 1979 and we received an assignment of the permit to you on October 11, 1979. Based upon the Justesen amendment, on November 30, 1979, a water right license was issued. Since the amendment you submitted is no longer the correct document needed to make a change in a licensed right, I'm returning it to you. If you still wish to change the point of diversion, an application for transfer is required.

If you have any questions concerning your water right, please feel free to contact this office.

Sincerely,

Re: Amended Application for Permit No. 37-7006

Dear Mr. Ellsworth:

On February 20, 1979, you filed with this office an application to amend water right permit No. 37-7006.

The application was protested by the Little Wood River Canal Company.

The permit had been examined by the Department for license in 1976 and on September 11, 1979, Mr. V. Keith Justesen, the permit holder, applied to amend the permit to make changes based upon the field agent's findings when the system was examined. On November 11, 1979, he officially assigned the permit to you and on November 30, 1979, the Amendment was approved and a license issued in your name.

Since the water right license has been issued, any changes to the right must be made by filing an application for transfer in accordance with IDAHO CODE Section 42-222. Issues which must be considered in changing a water right are:

- 1) Are any other water rights injured by the change?
- 2) Does the change constitute an enlargement in the use of the right?

I have enclosed a copy of the license which describes the water right with points of diversion which were in use when the permit was examined in 1976.

If you still wish to change the point of diversion, please advise me and I will prepare an application for transfer and send it to you for signature.

Re: Application for Amendment of a Permit No. 37-7006 - Grant Ellsworth

Dear Mr. Haskell:

Your protest against the approval of the above-referenced application submitted in behalf of Little Wood River Canal Co., Ltd has been received and a copy has been sent to the applicant. The Department suggests you contact the applicant directly in an effort to determine what is proposed by the application and to attempt to resolve the protest.

If you do not advise us within twenty (20) days that the protest has been resolved, the matter will be scheduled for conference and/or hearing. At such a conference and/or hearing, the following are the principle items the Department can consider in either approving or denying an application for permit (Section 42-203, Idaho Code):

1. Will the proposed use reduce the quantity of water under existing water rights? *Yes.*
2. Is the proposed water supply insufficient for the purpose intended?
3. Is the application made in good faith or for delay or speculative purposes? *If the water is taken out any further, they will pick up their inflow water.*
4. Has the applicant sufficient financial resources with which to complete the project?
5. Will the proposed use conflict with the local public interest? *Yes.*

If this office can be of further assistance, please contact us.

Dear Mr. Justesen:

Our field examiner has made an examination of your system covered by Permit No. 37-7006 and is prepared to issue a license as follows:

Amount of water that can be recognized as beneficially used under Idaho law:
2.18 cfs, source: Muldoon Creek.

The maximum quantity diverted shall not exceed 603 acre feet per year.

Point of diversion: NE $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 17, SE $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 18, NE $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 19, Twp. 2N, Rge. 21E, B.M., Blaine County.

Beneficial use: Irrigation of 201 acres within the W $\frac{1}{2}$ SW $\frac{1}{4}$, Sec. 17; E $\frac{1}{2}$ SE $\frac{1}{4}$, SW $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 18; N $\frac{1}{2}$ NE $\frac{1}{4}$, Sec. 19; NW $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 20, all in Twp. 2N, Rge. 21E, B.M.

Priority date established: December 18, 1967.

However, at the same time he also made an examination for Permit No. 37-7007 which names an unnamed stream as its source. Our field examiner found all the water used was being diverted from Muldoon Creek and none from an unnamed stream. We propose that you relinquish Permit No. 37-7007 since the license to be issued for 37-7006 covers the same lands for the total amount of water you were using at the time of the field examination with the same priority date.

We are enclosing a relinquishment form for Permit No. 37-7007. Also enclosed is an amendment form to add the points of diversion from Muldoon Creek to Permit No. 37-7006 in order that the license can be issued. Please submit these forms within thirty (30) days along with the \$20.00 amendment filing fee in order that these permits can be finalized.

We note that Grant Ellsworth now owns this land and an assignment was to be made to him. However, we have not received an assignment as of this date. We will enclose an assignment form for your consideration.

If you have any questions, please contact us.

Dear Wateruser:

A field examination report is due on your Permit No. 37-7006 & 37-7007 as required under the Idaho Code Section 42-201.

It is my duty to confirm your Proof of Beneficial Use by an examination of your diverting works and place of use.

We have large irrigation exams that are due during the irrigation season, and can only be completed at that time. I would like to make an attempt to complete your exam during the Irrigation season months.

I would like to take this time to request you to contact me at our office in Twin Falls, between the hours of 9:00 a.m. and 4:00 p.m., of the time you wish to have the examination completed.

Sincerely,

Gary Funderburg
Water Resource Agent

Cannot issue license until the following is determined:

- ☒ Amount of water measured
- ☐ Location of point of diversion
- ☐ Place of use for domestic
- ☐ Place of use for stockwater
- ☐ Place of use for irrigation (number of acres in each 40-acre subdivision)
- ☐ Installation of measuring device
- ☐ Permit holder does not agree with findings of examiner, please re-examine
- ☐ Other

Hope you can clear my mind on these two. Why one measurement indicating 2.18 cfs being diverted when these are two separate sources? Also, how did first examiner determine 275 acres being irrigated?

Re: Permit Nos. 37-7006 and 37-7007

Keith Justesen

Dear Mr. Justesen:

This office is in receipt of your affidavits setting forth proof of application of water to beneficial use under Permit Nos. 37-7006 and 37-7007. You have stated that you have not installed a measuring device as required under your permit. As you may be aware, before we can issue a license, we are required by law to conduct an inspection to determine the amount of beneficial use that has been made under the permits. To accomplish this, we would require the use of the measuring device set forth under the terms of your permit.

In the event that we were to make the inspection, and the measuring device was not installed, our probable course would be to deny the proof of application of water to beneficial use and the permits would lapse.

I would appreciate hearing from you as soon as possible as to your intentions regarding the installation of a measuring device. Please indicate what type and when you intend to install that device.

If you have any questions, please contact this office.

Dear Mr. Justesen:

Enclosed please find two (2) Orders of Reinstatement REIN-
STATING the above referenced permits.

We acknowledge receipt of your affidavit^s submitted as proof
of beneficial use for permits 37-7006 and 37-7007.

Before a license can be issued a field examination must be
made by a representative from this department.

We cannot tell just when this examination will be made, but
our examiner will try to contact you at the time he makes the exami-
nation so that you may show him the system. If someone other than
yourself should be contacted, please advise.

BEFORE THE STATE RECLAMATION ENGINEER

OF THE

STATE OF IDAHO

IN THE MATTER OF REINSTATEMENT OF PERMIT NO.)

ORDER OF REINSTATEMENT

37-7006 in the name of KEITH JUSTESEN)

WHEREAS, Keith Justesen applied to the Department of Reclamation on December 18, 1967, for a permit to appropriate the public waters of the State of Idaho; and,

WHEREAS, the application proposed the diversion of 4.4 cubic feet per second of the waters of Muldoon Creek which is a tributary of Little Wood River for use in Sections 17, 18, 19 and 20, T. 2 N, R. 21 E, B.M., Blaine County, Idaho; and,

WHEREAS, on February 19, 1968, Permit No. 37-7006 was approved with the condition that adequate proof of construction of the works and application of the water to beneficial use be submitted on or before March 1, 1969; and,

WHEREAS, on January 8, 1969, the permit holder was notified by certified mail that he was required to submit proof of application of the water to beneficial use and instructing him as to the steps to be taken to make that proof; and,

WHEREAS, the required proof was not received on March 1, 1969; and,

WHEREAS, the Department of Reclamation informed the permit holder on March 3, 1969, that the permit had lapsed for failure to submit proof of beneficial use; and,

WHEREAS, on May 2, 1969, the Department of Reclamation received the required proof of beneficial use; and,

WHEREAS, Section 42-218a of the Idaho Code provides that a permit may be reinstated upon a showing of reasonable cause within 60 days from the date of lapsing; and,

WHEREAS, submission of an affidavit of proof of application of the water to beneficial use is considered as a reasonable showing as to why the permit should be reinstated;

THEREFORE, IT IS HEREBY ORDERED that Permit No. 37-7006 be REINSTATED, and that the priority be reduced to February 18, 1968.

Dear Mr. Justesen:

One of the conditions of the approval of your permit 37-7006 was that proof of application of the water to beneficial use be submitted to this office on or before March 1, 1969.

Enclosed is an affidavit form which must be used to submit this proof. You may also request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, ICA.

Either the proof or a request for extension must be received by this department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.
