D. REMARKS

Because of changes in irrigation practices in the area, the consolidation of several farms and changes in the Big Wood River channel modification of existing water rights is necessary. The changes described herein more accurately reflect actual irrigation practices and will ease delivery of water by Water District 37.

I hereby assert that no one will be injured by such change and that the change does not constitute an enlargement in use of the original right. The information contained in this application is true to the best of my knowledge.

I understand that any willfull misrepresentations made in this application may result in voiding its approval.
