Also enclosed is a completed application for transfer to move 69.5 acre feet of storage from the original reservoir area to Ponds 4 and 5 located below the dam. The outlet facility to provide water to Ponds 4 and 5 is a 24-inch pipe with gated outlet and is complete as shown on the drawing for the dam. Storage in Ponds 4 and 5 can be commenced immediately although the final configuration for these ponds may be changed depending on the final plan for the area downstream of the dam.

Sun Valley Land and Minerals Inc. is prepared to commence filling the facility immediately. However, the flow in Deer Creek is very low due to drought conditions in the watershed and is currently flowing only at an estimated 5 to 10 cfs. Mr. Jay Sevy, President of Deer Creek Ranch Inc. the ranch downstream of the Clarendon facility, has formerly expressed concern about reductions in stream flow due to filling of the ponds and has requested that storage be delayed, at least until higher stream flows occur. The ranch downstream includes numerous ponds which have been stocked with fish and he is concerned that the lower flows caused by filling of the ponds would be harmful to both the fish and the habitat. Filling has been postponed since August 1 to prevent lower flows in Deer Creek in hopes that natural stream flow would increase. The flow has not increased significantly and on August 30, 2000 the Company received a Notice to Resume Water Use by November

RE: RESUMPTION OF USE – A37-02446 AND A37-04369 – SUN VALLEY LAND AND MINERALS, INC.

Dear Mr. Brockway:

In your letter dated September 20, 2000, to Corey Skinner, you advise of the status of reconstruction of Clarendon Dam and of the construction of additional storage impoundments in the Deer Creek drainage tributary to the Big Wood River. In your letter you ask the department to "confirm" that the Sun Valley Land and Mineral Company has met the requirements for resumption of use of its water rights ask the department to advise you as soon as possible whether additional delays in filling of the reservoir(s) due to downstream impacts can be allowed without jeopardizing the water right.

If the water right holder has stored water in compliance with the water rights referenced above prior to the resumption of use date, it appears to me that it would be difficult for anyone to show that resumption of use had not occurred. While the department can not authorize additional delays in the resumption of use of water, it appears reasonable to consider the effect on downstream water rights when filling the authorized storage impoundment(s).

If you have questions, please feel free to contact the department.

Sincerely,

L. GLEN SAXTON, P.E.

Subject: Resumption of Beneficial Use-Sun Valley Land and Minerals Inc.
Clarendon Dam, and Application for Transfer of Water Rights A37-02446 and
A37-04369

Dear Corey:

As of August 1, 2000, the new construction on Clarendon Dam was essentially completed and the facility is capable of storage at this time. I believe you have been appraised of the progress and have been supplied drawings of the new structures.

As you may recall, the original plan was for re-construction of the dam at the historic height and removal of sediment from the reservoir to restore the storage volume to the historic 143 acre feet as indicated on the amended SRBA claim. During the initial phases of excavation of sediment from the reservoir it became apparent that excavation to the original storage volume within the reservoir would not be possible due to higher than expected ground water levels. As a result, a revised construction plan, which included three smaller ponds within the original reservoir area and two new ponds on Company land below the dam, would be utilized. This concept comports to that which we discussed in your office in May 2000. The new dam reconstruction was therefore revised to include storage in Pond 3 with a revised storage volume of 35.5 acre feet and a hydraulic height of less than 10 feet. I am enclosing drawings to show the pond layout, spillways, and outlet works from Pond 3 into Deer Creek. Note that Ponds 1, 2, and 3 are filled from Deer Creek and Ponds 4 and 5 are off-stream ponds.

Storage volumes in the 5 ponds are shown in the following table. These volumes are based on surveyed elevations and recent aerial photos.

Pond 5		158994	3.65	9.20	33.6
Total(4,5)					
Total(1,2,3,4,5)					

Also enclosed is a completed application for transfer to move 69.5 acre feet of storage from the original reservoir area to Ponds 4 and 5 located below the dam. The outlet facility to provide water to Ponds 4 and 5 is a 24-inch pipe with gated outlet and is complete as shown on the drawing for the dam. Storage in Ponds 4 and 5 can be commenced immediately although the final configuration for these ponds may be changed depending on the final plan for the area downstream of the dam.

Sun Valley Land and Minerals Inc. is prepared to commence filling the facility immediately. However, the flow in Deer Creek is very low due to drought conditions in the watershed and is currently flowing only at an estimated 5 to 10 cfs. Mr. Jay Sevy, President of Deer Creek Ranch Inc. the ranch downstream of the Clarendon facility, has formerly expressed concern about reductions in stream flow due to filling of the ponds and has requested that storage be delayed, at least until higher stream flows occur. The ranch downstream includes numerous ponds which have been stocked with fish and he is concerned that the lower flows caused by filling of the ponds would be harmful to both the fish and the habitat. Filling has been postponed since August 1 to prevent lower flows in Deer Creek in hopes that natural stream flow would increase. The flow has not increased significantly and on August 30, 2000 the Company received a Notice to Resume Water Use by November

1, 2000 in compliance with the Application for Extension of Time to Avoid Forfeiture for Water Right No. 37-04369.

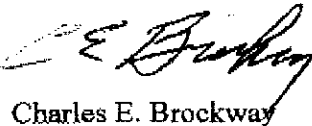

After talking to Glen Saxton, I have advised Sun Valley Land and Mineral Co to proceed to fill the ponds in order to comply with the order unless IDWR allows a delay in filling due to downstream impact. . Pond 2 has begun to fill with small flows from Jimmy the Harp Creek and storage can be commenced from Deer Creek.

I am submitting the completed form 3-222, Resumption of Beneficial Use, showing resumption of storage on August 1, 2000. The facility will be filled as fast as possible without jeopardizing the flow in Deer Creek and the ponds on Deer Creek Ranch.

Please review the enclosed and confirm that the Company has met the requirements for resumption and the requirements for the dam reconstruction. Also please advise as soon as possible whether additional delays in filling due to downstream impacts can be allowed without jeopardizing the water right.

I would appreciate your initial review of and response to the transfer application so that we can be assured it is complete and accurate before advertising.

Sincerely,

Charles E. Brockway

Dear Jim,

Good to see you Tuesday and I appreciate that you share my concern concerning this years stream flow in Deer Creek.

It does appear that we are looking at a low water year. I measured the creek at the upper headgate up by our property boundary last Tuesday, July 18. It was running 19 c.f.s. It is losing about a c.f.s a week and is approximating the levels we saw in 1994, which was particularly dry.

You and I discussed the fact that if you fill your new ponds at this time it may again dry the creek up or at least reduce the flow to where we do not get adequate turnover in our pond system here on the ranch. This could raise water temperatures to a point where there would be a fish kill.

You said that you would be willing to defer the fill of your ponds until there was more stream flow. Given a wet fall that could be then; but if not then during spring runoff will certainly work.

As you know, we made a large expenditure in a stream/fisheries habitat rehabilitation project, so a major thrust in our management is to keep the stream flowing.

Jim, again I appreciate your spirit of cooperation.

Sincerely,

Re: Water Right No. 37-04369

Dear Applicant:

NOTICE TO RESUME WATER USE

On July 25, 1994, the department approved your Application for Extension of Time to Avoid Forfeiture of a Water Right as submitted to the department. One condition of approval was that diversion and use of water must resume on or before November 1, 2000. Failure to resume use of the water and to notify the department of the resumed use will be cause for the water to revert back to the state and again be subject to appropriation.

Therefore, I am enclosing a form to notify the department of the resumption of use of the water right. Please complete the form and return it to my attention at the above address.

If you have questions, please feel free to contact me at (208)327-7953.

Sincerely,

Re: Applications for Extension of Time To Avoid Forfeiture,
Nos. 37-02446 and 37-04369

Dear Mr. Speck:

The Department of Water Resources acknowledges receipt of the applications for extension of time to avoid forfeiture on behalf of Sun Valley Land and Minerals, Inc. as referenced above.

This office has scheduled advertising the applications in the Wood River Journal for 5/25 & 6/1/94. The advertisements will be published for two weeks, and a period of ten days following the second publication will be allowed for the submittal of protests.

If an application is protested you will be sent a copy of the protest. The protest must be resolved before the application is approved or denied. If the protest is not resolved voluntarily, this Department will conduct a conference and/or hearing on the matter.

If the application is not protested, it will be forwarded to our State Office in about five weeks. State office personnel will conduct a complete review prior to final processing of the application and will notify you of the outcome of this review. A typical processing time for an unprotested application is about eight weeks.

In order to complete regional review, a list of corporate officers and addresses should be submitted to this office.

As requested in our correspondence of March 14, 1994, before we can forward your application to our state office for approval, we must include in the file evidence of ownership of the land to which the water is appurtenant such as copies of deeds, tax records, etc. and/or a notarized statement from any lien holder on the property.

Please feel free to contact this office if you have any questions regarding this procedure.

Very truly yours,

Mel Schulte
Water Right Agent

Re: Applications for Extension of Time
37-02446 and 37-04369

Dear Jim:

Enclosed are the two above referenced Applications for Extension of Time you filed on behalf of Sun Valley Land & Minerals, Inc.

Some of the basic information in the applications (priority dates, amount of water, place of use, etc.) does not comply with the original rights. It appears that most of the data was taken from the SRBA claims but it also appears that some data is a combination of the old rights and the SRBA claims. I find no records that a statutory claim 37-04369 was amended or transfers filed on license 37-02446. Therefore, the original rights are still appurtenant.

Enclosed are copies of water right proof reports for both rights and a copy of Statutory Claim 37-04369 to use in amending the Applications for Extension.

If you have in file copies of deeds or other documents to show ownership of the subject properties in the name of Sun Valley Land & Minerals, Inc. please provide us with copies when you return the amended applications.

License No. 37-2446

Dear Mr. Slette:

I have received and reviewed your letter dated June 10, 1985 in connection with the above-referenced water rights.

There is not a procedure provided in the statutes to change the name on a licensed water right or on a claimed water right. I will, however, place a copy of your letter in each of the files in order that the change in ownership will be readily apparent to anyone reviewing the files.

Since you have provided information (the Sheriff's Deed) to show that Sun Valley Shamrock Resources, Inc. no longer has a possessory interest in the place of use as shown on Application Nos. 37-8132 and 37-8133, the Department will take steps to void the applications.

Application Nos. 37-8204 and 37-8205, filed in the name of Travelers Mortgage Corp., are similar in content to 37-8132 and 37-8133. Our Southern Regional Office is holding Application No. 37-8204 due to the Swan Falls matter. Application No. 37-8205 has been advertised by the Southern Regional Office and will be sent to the State Office in Boise for additional review and perhaps final action depending on information in the file. If additional information is needed or for some reason (perhaps the Swan Falls matter) final action cannot be taken on the application, the applicant will be advised accordingly.

If you have additional questions, please feel free to contact me.

Sincerely,

L. GLEN SAXTON

and Claim Nos. 37-4368, **37-4369**, and 34-4370
and License No. 37-2446

Dear Mr. Saxton:

The above-referenced water rights applications were filed by Sun Valley Shamrock Resources, Inc. Competing applications for the identical water rights were filed by me on behalf of my client, Travelers Mortgage Corporation. The underlying mortgage on the Clarendon property was foreclosed and the property was sold at a sheriff's sale on May 25, 1984. Travelers Mortgage Corporation, as assignee of the foreclosing mortgagee and as subsequent redemptioner, obtained the title to the Clarendon property, subject only to the debtor's right to redeem the property within a one year period. The Clarendon property was never redeemed, and consequently, a Sheriff's Deed (copy enclosed) was issued to Travelers Mortgage Corporation by the Blaine County Sheriff on June 6, 1985. Therefore, legal title of the property is now vested entirely in Travelers, and Sun Valley Shamrock Resources, Inc. is no longer an owner of the property on which the points of diversion are proposed, as well as the places of beneficial use.

As to the above-referenced claims, which are deemed to be real property appurtenances, I request that the named claimant be changed to Travelers Mortgage Corporation to reflect the current owner. If there is any fee or documentation necessary, please advise me.

As to the license for 10 c/f/s granted to E. C. Smith, dated December 19, 1932, I likewise request that it be placed in the name of the current owner, Travelers Mortgage Corporation.

Additionally, I would request that you inform me as to any steps necessary at this point to advance the applications for water rights in the name of Travelers. Finally, I am interested as to the disposition of the applications made in the name of Sun Valley Shamrock Resources, Inc.

Thank you for your attention to these matters.

Mr. L. Glen Saxton

Dear Mr. Saxton:

Our firm represents the interests of Travelers Mortgage Corporation. Travelers Mortgage Corporation has foreclosed its interest in certain real property located in Blaine County, commonly known as the Clarendon property. The statutory period of redemption of the mortgagor will expire on May 25, 1985. The purpose of this letter is to inform you of the foreclosure which occurred in May of 1984, and the ensuing expiration of the redemptionary rights in approximately two months. Travelers Mortgage Corporation is the current owner of the property and Sun Valley Shamrock Resources, Inc. is, by operation of the Idaho Code, a tenant in possession.

I spoke with Loren Holmes and Terry Blau of the southern office regarding this matter. It is my understanding that Claim Nos. 37-4368, 37-4369, and 37-4370 are real property appurtenances of the Clarendon property. It is also my understanding that these Claims to Right cannot be transferred without a formal request for change in the point of use.

Two applications for permit to appropriate public waters have been filed as Nos. 37-8132 and 37-8133. In the event the property is not redeemed by May 25, 1985, Sun Valley Shamrock Resources, Inc., will no longer have any interest in the real property. Additionally, since Sun Valley Shamrock Resources, Inc., has made no arrangement with Travelers Mortgage Corporation in accordance with 9(c) of the applications, Travelers Mortgage Corporation objects to the issuance of the permits. The point of diversion and place of use of these permits is located on land not owned by the applicant. On behalf of Travelers Mortgage Corporation, I request that approval of these permits be placed in abeyance until this matter is resolved.
