agreed by each of the parties hereto as follows, to-wit:

1. That this association shall be known as BASE LINE PUMP ASSOCIATION, and shall continue for a period of ten years from the date hereof.

2. That each of the parties hereto hereby agrees to pay the proportionate cost of purchasing, equipping and installing of pump and power plant of adequate capacity to deliver approximately 300" of water, and also to pay necessary maintenance and operation charges, to include sufficient for depreciation of equipment to replace during life of the equipment. Each party shall pay cost of purchase, equipping and installing said pump, including cost of drilling well, that the decreed rights held by him bear to the total amount of decreed rights of all parties hereto. Costs of maintenance and operation shall be borne by each party on the same proportion.

3. It is understood that any and all waters produced by any and all pumps installed by this association shall be deemed and considered as supplemental water to waters drawn from Big Wood River under decrees of the parties hereto, and shall be delivered to the parties hereto proportionate to their rotational rights.

4. This association shall be governed by a Board of Trustees, with power to hold title to property, real and personal for and on behalf of all members of this association. Said Board of Trustees shall be the same individuals as are elected annually at the annual meeting of the Base Line Canal Company; the first Board of Trustees shall be Paul Olsen, A. N. Osborn, and A. L. Montgomery, who shall serve until their successors are elected and qualified as above mentioned. Trustees shall have authority to levy assessments for the purchase of all necessary equipment necessary for the pumping of waters as provided herein, and to contract for the furnishing of necessary power, and rights of way for the delivery of waters in ditches and canals. Vacancies shall be filled in said board by other members until next annual election.

Trustees shall not, however, contract for the construction or drilling or equipping of any wells other than the well now under construction, without the consent of the members of this association expressed at meeting called by said trustees.

5. Meetings of this association may be called by the Trustees at such times as they feel necessary or proper for the transaction of business of this association. Each member shall be entitled to one vote for each inch of decreed water held. Majority vote of members present shall govern.

6. That this association is formed for the purpose of installing pump as above mentioned and doing of such acts and things as are requisite and necessary for the proper carrying out of this purpose, including purchasing and selling of real estate, water water rights, leasing and renting of equipment, purchase and sale of personal property. However, the credit of this association or of its members shall not be pledged, or moneys borrowed, without the express consent of majority of its members expressed at meeting duly called on one days notice.

7. It is specifically understood and agreed that no waters produced by any pump or pumps operated by this association, shall be delivered to any member hereof, at any time that he is delinquent in any assessment duly levied by the Trustees hereof. Said Trustees shall, in addition to authority granted in Paragraph 4 hereof, have the right to levy assessments for maintenance and operation and also construction and equipping, and to adopt such rules and regulations as they deem proper to collect the same; funds so raised shall be disbursed under the control of said Board of Trustees.

8. It is further understood and agreed that this agreement shall have no effect whatsoever upon any decreed right held by any member of this association, and failure to pay any assessment shall in no way effect the delivery of decreed rights

9. This agreement shall be binding on the heirs, executors, administrators and assigns of the parties hereto; should any party hereto convey premises now held by him, in whole or in part, trustees shall be notified, and grantee also notified of the purport and existence of this agreement.
